Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and

controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of

each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions

by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--

These thinkers founded or influenced the Confucian, Daoist, Mohist and Legalist schools of thought, and their ideas continue to guide China's thinking and behaviour today. He shows how these thinkers addressed the key question of how philosophical thinking can serve humanity and society. Chang systematically presents their different</p>

biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of

success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a

Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This

<p>section provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages</p>	<p>and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's</p>	<p>motivation for achieving their financial goals, examining the couple and family financial transparency, and discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's</p>

communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn

Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy

when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances.
