The international bee crisis is threatening our global food supply, but this user-friendly field guide shows what you can do to help protect our pollinators. The Xerces Society for Invertebrate Conservation offers browsable profiles of 100 common flowers, herbs, shrubs, and trees that support bees, butterflies, moths, and hummingbirds. The recommendations are simple: pick the right plants for pollinators,

protect them from pesticides, and provide abundant blooms throughout the growing season by mixing perennials with herbs and annuals! 100 Plants to Feed the Bees will empower homeowners, landscapers, apartment dwellers — anyone with a scrap of yard or a window box — to protect our pollinators.

This is the first dictionary of symbols to be based on literature, rather than universal psychological archetypes or myths. It explains and illustrates the literary symbols that we all frequently encounter, and gives hundreds of cross-references and quotations. The

dictionary concentrates on English literature, but its entries range widely from the Bible and classical authors to the twentieth century, taking in American and European literatures. *And Across the Rocky Mountains to California* Storey Publishing

Ever think of making your own beauty products -- handmade, high performance, healthy alternatives to just about every chemical laden product you currently put on your face and body? It's easier than you think! In *Make It Up* author Marie Rayma shares the recipes she has developed through years of trial, error, and testing to come up with the very best. This is real makeup and skincare: bright lipsticks, quality mineral powders, long-

wearing eyeliners, and masks and cleansers that yield results. Rayma walks you through natural ingredients available online or at health food stores. These awesome oils, butters, clays, and minerals will replace the petroleum products, artificial colors, and lab-created mystery fragrances that have untold effects on our bodies. Products can be tailored for individual needs -- from swapping out ingredients not suitable for sensitive skin to whipping up the perfect colors suited for any complexion. With easy-to-follow instruction, *Make It Up* provides more than 40 essential cosmetics and skin care projects so you can make just what you want, when you need it.

A comprehensive practical guide that walks you through the multiple stages of data management in enterprise and gives you numerous design patterns with appropriate code examples to solve frequent problems in each of these stages. The chapters are organized to mimic the sequential data flow evidenced in Analytics platforms, but they can also be read independently to solve a particular group of problems in the Big Data life cycle. If you are an experienced developer who is already familiar with Pig and is looking

for a use case standpoint where they can relate to the problems of data ingestion, profiling, cleansing, transforming, and egressing data encountered in the enterprises. Knowledge of Hadoop and Pig is necessary for readers to grasp the intricacies of Pig design patterns better.

With the recent decline

of the European honey bee, it is more important than ever to encourage the activity of other native pollinators to keep your flowers beautiful and your grains and produce plentiful. In *Attracting Native Pollinators*, you'll find ideas for building nesting structures and creating a welcoming habitat for an array of diverse pollinators that includes not only bees, but butterflies, moths, and more. Take action and protect North America's food supply for the future, while at the same time enjoying a happily bustling landscape.

Vegetarian, gluten-free meals, small bites, and sweets to feed the whole family Think eating real food and

pleasing all the palates in a busy family with young kids is impossible? My Darling Lemon Thyme's Emma Galloway inspires you to think again. Now available for the first time in the US, popular special diets blogger Emma Galloway's family cookbook, *My Darling Lemon Thyme*, is a collection of 100 recipes that reflect the philosophy that natural, whole food should be flavorful, fun, and easy to prepare. Beyond just recipes, we savor Emma's stories about life with a young, energetic family too. Meant for anyone who loves great food that is also good for you, these delightfully fresh recipes are 100% vegetarian and gluten-free—icing on the (naturally sweetened)

cake. You'll find foods your grandparents would recognize, not the food-like products humankind has developed to make our lives easier but which seem to make us ever more unhealthy. Beyond any labels, this book is less about eliminating and more about embracing food as it's supposed to be: whole and unadulterated, fresh from the earth, prepared with minimal fuss, and eaten in a way that nourishes our bodies. Emma's personal belief is that everyone can benefit from eating less wheat, meat, and dairy in their diet. But her recipes are not just for those with food intolerances or allergies or for vegetarians. The recipes are for everyone who wants to

enjoy a better life and celebrate nutritious, wholesome, real cooking. Quite simply, *My Darling Lemon Thyme* offers us another way of eating, living, and being in the world, and in the kitchen. Extensive pantry-stocking instructions and a glossary are included.
