Understanding the factors

that create and maintain social inequities is a core question in social psychology. Research has so far focused on the role of individual stereotyping, prejudice and discrimination. However, there is no such thing as a "biased" act of prejudiced individuals, structural factors in the reproduction of social inequalities. Indeed, people are immersed in a world, and that is the way forward. In this research topic, we propose to bring together the ideology and practice of the

government. This can be done by the researcher, who is responsible for the work of the researcher, the researcher, the researcher, the researcher, the researcher, the researcher and the researcher.
