coloring works by using

chemicals to penetrate

each hair cuticle and bond

with the hair. You need to

understand the basics of

hair color so you can

achieve the right color

and don't damage your

client's hair. 1. Learn How

to Use the Hair Color

Wheel. Understanding

how to use the hair color

wheel is essential. Mixing

two complimentary colors

will achieve a neutral

brown.5 Basic Hair Color

book for anyone

interested in coloring hair

and want a detailed look

into form and process, or

the seasoned stylist who

just wants to pick up

some new ideas. The book

has tons of ideas for men

and women including hair

buffing and piecing for

short hair that even the

home colorist can try

using over the counter

hair color.Amazon.com:

Customer reviews: The Art

of Hair ColouringInstead

of limiting your hair color

choices to one color,

consider using one of the

many color-blending

techniques that can give

your style a dynamic

boost. For example, you

can fade from dark brown

to auburn, create a

sunkissed look with

babylights, or add low-

maintenance color with an

ombré.12 Hair Coloring

Techniques, Ogle School

salon, Hair ColorsWe can

change our hair colour by

choice through using hair

dyeing products. Various

chemical processes in

hairdressing (like

bleaching, tinting,

neutralising) act on the

natural pigments to

change the hair's colour.

However, hair colour can

change for a variety of other reasons, including: Ageing can affect pigment production. As we age, melanin stops being made in our hair and new hairs grow without pigment, which is why they are white.
