### **Monongahela National Forest (N.F.), Forest Plan Revision U.S.**

Government Printing  
Office

Considers legislation to  
authorize Federal  
grants to states for arts  
promotion, to establish  
a Federal Advisory  
Council on the Arts,  
and to establish a U.S.  
Arts Foundation.

Lake Mead National  
Recreation Area  
(N.R.A.), General  
Management Plan  
(GMP) (AZ, NV)

### **International Monetary Fund**

The Manual provides  
comprehensive  
information on a large  
number of U.S.  
government agencies.  
Along with entries on  
the agencies of the  
executive, judicial, &  
legislative branches of  
the government, users  
will also find  
information on quasi-  
official agencies,  
international  
organizations in which  
the U.S. participates, &  
other boards,  
commissions &  
committees. The  
Declaration of  
Independence & the

Constitution of the United States are also included. This laminated edition features a sturdy cover, extra strong bindings, & heavy, acid-free paper. Recommended in: ALA's Guide to Reference Books, Walford's Guide to Reference Material. Environmental Impact Statement Oxford University Press Changing River Channels is intended for all those with an interest in the dynamics of river channels and their management. Contributions are drawn from both the academic and river management communities and these provide perspectives based upon British, European and North American examples.

The chapters are organised into four sections which consider the magnitude and dimensions of river channel adjustments over different timescales; the processes which influence those adjustments, focussing particularly upon the roles of sediment transport and storage, and of vegetation; the information sources that are available for assessing the degree and nature of change; and finally, perspectives on the management of changing river channels. This volume is one of two companion edited books to mark the contributions of Professors K.J. Gregory and D. E. Walling to research on drainage

basin form and processes. Each presents a balanced range of contributions written by research colleagues and students.

**The United States Government Manual**

Considers legislation to authorize Federal grants to states for arts promotion, to establish a Federal Advisory

Council on the Arts, and to establish a U.S. Arts Foundation.

*(Output based).*

In vast swathes of America, the sacredness of the Second Amendment has become a political third rail, never to be questioned. Gun rights supporters wear tri-cornered hats, wave the stars and stripes, and ask what would have happened if the revolutionaries had been unarmed when the British were coming. They have had great success in conflating unfettered gun ownership with the Founding Fathers, the Constitution, and all things American, even in an era of repeated mass shootings. Yet the all-too-familiar narrative of America's gun past, echoed in the Supreme Court's Heller

gun rights decision, is not only mythologized, but historically wrong. As Robert J. Spitzer demonstrates in *Guns across America*, gun ownership is as old as the nation, but so is gun regulation. Drawing on a vast new dataset of early gun laws reflecting every imaginable type of regulation, Spitzer reveals that firearms were actually more strictly regulated in the country's first three centuries than in recent years. The first "gun grabbers" were not 1960's Chablis-drinking liberals, but seventeenth century rum-guzzling pioneers, and their legacy continued through strict gun regulations in the 1920s and beyond. Spitzer examines interpretations of the

Second Amendment, the assault weapons controversy, modern "stand your ground" laws, and the so-called "right of rebellion" to show that they play out in America's contemporary political landscape in ways that bear little resemblance to our imagined past. And as gun rights proponents seek to roll back gun laws and press as many guns into as many hands as possible, warning that gun rights are endangered, they sidestep the central question: are stricter gun laws incompatible with robust gun rights? Spitzer answers this question by examining New York State's tough gun laws, where his political analysis is complemented by his own quest for a concealed carry

handgun permit and construction of a legal AR-15 assault weapon. Not only can gun rights and rules coexist, but they have throughout American history. Guns across America reveals the long-hidden truth: that gun regulations are in fact as American as apple pie

#### Guns across America

This Technical Assistance Report on The Gambia highlights that the government has highlighted infrastructure development as a key element of National Development Plan, 2018-21. The report discusses that the need for increased public investment in the Gambia should be balanced against potential fiscal risks related to future Public-Private Partnerships and State-

Owned Enterprise investments. Analysis of public investment patterns shows a fragmented picture, in which external financing dominates. Measures of the efficiency of infrastructure investments show mixed results and considerable room for improvement. The analysis explains that the Gambia's performance across different Public Investment Management Assessment (PIMA) indicators is mixed and does not compare favorably with regional counterparts. Nevertheless, there are many indicators where the PIMA rating is poor. Prevailing weaknesses include the presence of many information gaps and non-transparent

disclosure policies. The mission's main recommendations focus on five priority areas and are designed to complement reforms that are already being undertaken.
