'Weak market
cities' across
European and
America, or
'core cities' as
they were in
their heyday,
went from
being
'industrial
giants'
dominating
their national,
and eventually
the global,
economy, to
being
'devastation
zones'. In a
single

generation
three quarters
of all
manufacturing
jobs
disappeared,
leaving
dislocated,
impoverished
communities,
run down city
centres and a
massive
population
exodus. So
how did
Europeans
react? And
how different
was their
response from
America's?
This book
looks closely
at the
recovery
trajectories of
seven
European
cities from
very different
regions of the

EU. Their
dramatic
decline,
intense
recovery
efforts and
actual
progress on
the ground
underline the
significance of
public
underpinning
in times of
crisis.
Innovative
enterprises,
new-style city
leadership,
special
neighbourhood
programmes
and skills
development
are all
explored. The
American
experience,
where cities
were largely
left 'to their
own devices',

produced a slower, more uncertain recovery trajectory. This book will provide much that is original and promising to all those wanting to understand the ground-level realities of urban change and progress. Independent Travellers Europe by Rail 2004 Springer-Verlag Innerstädtische Schienenverkehrssysteme stoßen bei steigender Verkehrsnachfrage zunehmend

an ihre Grenzen. Die Sicherheit und die Leistungsfähigkeit dieser Verkehrssysteme werden wesentlich durch die eingesetzte Leit- und Sicherungstechnik bestimmt. Eine Ausweitung des Verkehrsangebots erfordert leistungsfähige signaltechnische Systeme, die als Communications-Based Train Control (CBTC) bezeichnet werden. Lars Schnieder

stellt in diesem Fachbuch die Systemumgebung dar, in die sich die CBTC-Systeme in Nahverkehrsunternehmen integrieren. Darüber hinaus leitet er her, welchen Beitrag die einzelnen Sicherungsfunktionen von CBTC-Lösungen zur Gefährdungsbewältigung leisten. Auf dieser Grundlage zeigt der Autor, wie mit zunehmender Automatisierung sukzessive ein höherer Funktionsumfang

ng von
technischen
Systemen
übernommen
wird. Zum
Abschluss
diskutiert er
an CBTC-
Systeme
gestellte
nicht-
funktionale
Anforderunge
n wie
Sicherheit,
Verfügbarkeit,
Leistungsfähig
keit und
Wirtschaftlich
keit.

McFarland
For many
years, movie
audiences

have carried
on a love
affair with the
American
West,
believing
Westerns are
escapist
entertainment
of the best
kind,
harkening
back to the
days of the
frontier. This
work
compares the
reality of the
Old West to its
portrayal in
movies, taking
an historical
approach to
its
consideration
of the
cowboys,
Indians,
gunmen,
lawmen and
others who
populated the

Old West in
real life and
on the silver
screen.
Starting with
the Westerns
of the early
1900s, it
follows the
evolution in
look, style,
and content
as the films
matured from
short
vignettes of
good-versus-
bad into
modern plots.
