### **A Novel** Jacobsville Books

The battle for survival continues in the final book of the bestselling Catalyst series... Two years ago, a super solar-storm, triggered a CME pulse that crippled the country and destroyed the electrical grid. What remains of the country's leaders are hiding a secret; something that threatens not just the U.S. but the entire world. The Gulf Coast town of Harris Springs, Mississippi has suffered from gang attacks, famine,

hurricanes and battled a crusading army of religious zealots. Now, they face their greatest challenge. Outsmarting a tyrannical President and escaping an approaching pandemic. The fractured military leaders are beginning to come to grips with the facts of America being ripped apart at the seams. They must act to give the remaining population any chance for survival. As the nation falls apart in the aftermath of civil war, the survivors must decide how far they will go to save the ones they love.

"From horse thieves to hurricanes, from shattered Southern myths to fractured family ties, from Nashville to Myrtle Beach to Miami, *Low Country* is a lyrical, devastating, fiercely original memoir" of one family's changing fortunes in the Low Country of South Carolina (Justin Taylor, author of *Riding with the Ghost*). J. Nicole Jones is the only daughter of a prominent South Carolina family, a family that grew rich building the hotels and seafood restaurants that draw tourists to Myrtle Beach. But at home, she is surrounded by violence and capriciousness: a grandfather who beats his wife, a barman father who dreams of being a country music star. At one time,

Jones's parents can barely afford groceries; at another, her volatile grandfather presents her with a fur coat. After a girlhood of extreme wealth and deep debt, of ghosts and folklore, of cruel men and unwanted spectacle, Jones finds herself face to face with an explosive possibility concerning her long-abused grandmother that she can neither speak nor shake. And through the lens of her own family's catastrophes and triumphs, Jones pays homage to the landscapes and legends of her childhood home, a region haunted by its history: Eliza Pinckney cultivates indigo, Blackbeard ransacks the coast, and the Gray Man paces the beach, warning of Hurricane Hazel.

Now an HBO® Series from J.J. Abrams (Executive Producer of *Westworld*), Misha Green (Creator of *Underground*) and Jordan Peele (Director of *Get Out*) The critically acclaimed cult novelist makes visceral the terrors of life in Jim Crow America and its lingering effects in this brilliant and wondrous work of the imagination that melds historical fiction, pulp noir, and Lovecraftian horror and fantasy. Chicago, 1954. When his father Montrose goes missing, 22-year-old Army veteran Atticus Turner embarks on a road trip to New England to find him, accompanied by his Uncle George—publisher of *The Safe Negro Travel Guide*—and his childhood friend Letitia. On their journey to the manor of Mr. Braithwhite—heir to the estate that owned one of Atticus’s ancestors—they

encounter both mundane terrors of white America and malevolent spirits that seem straight out of the weird tales George devours. At the manor, Atticus discovers his father in chains, held prisoner by a secret cabal named the Order of the Ancient Dawn—led by Samuel Braithwhite and his son Caleb—which has gathered to orchestrate a ritual that shockingly centers on Atticus. And his one hope of salvation may be the seed of his—and the whole Turner clan’s—destruction. A chimerical blend of magic, power, hope, and freedom that stretches across time, touching diverse members of two black families, *Lovecraft Country* is a devastating kaleidoscopic portrait of racism—the terrifying specter that continues to haunt us today.

Ghost Towns & Mining Camps of the Boundary Country London, Ont. : Brick Books

The bustling metropolis of Charlotte is constantly growing and changing. Yet there are spirits from the past that refuse to give way to modern growth, or to be forgotten. The ghost of a Confederate officer, complete with his wooden leg, still appears at historic Cedar Grove. A longdead fireman continues to hang around his old station, and even changes clothes there. At the venerable Manor Theater, the spirit of a former manager often materializes late at night; he sometimes helps with the sweeping. A deceased bootlegger still tries to produce alcohol for his customers. And one small Charlotte house is so haunted that a former

resident describes the interior as liquid black, which absorbs even light. Despite the Queen City's long and rich history, until now there has been no published collection of ghost stories from the region. These 19 tales gathered by Stephanie Burt Williams, and enhanced by her superb photographs, were worth the wait.

Featuring everything from sports stadiums to shopping malls, hundreds of new cities in China stand empty, with hundreds more set to be built by 2030. Between now and then, the country's urban population will leap to over one billion, as the central government kicks its urbanization initiative into overdrive. In the process, traditional social structures are being torn apart, and a

rootless, semi-displaced, consumption orientated culture rapidly taking their place. *Ghost Cities of China* is an enthralling dialogue driven, on-location search for an understanding of China's new cities and the reasons why many currently stand empty.

This “powerful” (BuzzFeed) debut about love, grief, and family welcomes you into its pages and invites you to linger, staying with you long after you’ve closed its covers. “I am madly in love with this book, a kaleidoscopic wonder.”—T Kira Madden, author of *Long Live the Tribe of Fatherless Girls* How do you grieve, if your family doesn’t talk about feelings? This is the question the unnamed protagonist of *GhostForest* considers after her father dies. One of the many Hong Kong “astronaut” fathers, he stays

there to work, while the rest of the family immigrated to Canada before the 1997 Handover, when the British returned sovereignty over Hong Kong to China. As she revisits memories of her father through the years, she struggles with unresolved questions and misunderstandings. Turning to her mother and grandmother for answers, she discovers her own life refracted brightly in theirs. Buoyant and heartbreaking, *Ghost Forest* is a slim novel that envelops the reader in joy and sorrow. Fung writes with a poetic and haunting voice, layering detail and abstraction, weaving memory and oral history to paint a moving portrait of a Chinese-Canadian astronaut family. "Ghost Forest is the tender/funny book we can all appreciate after a hellish

year."—Literary Hub
