Spooky Stories Of The Creepiest Places On Earth: True Paranormal Hauntings, Unexplained Phenomena And True Ghost Stories Places are, in the strictest sense, just a particular site where things occupy space. However, these areas can be witness to certain happenings that include pain, suffering, and rage. Experts believe that locations where intense negative feelings and events have taken place, have the potential to retain that negative energy. These places are where supernatural and paranormal beings lurk. Let's face it, our world is not a complete paradise and there are hundreds of tragedies that occur every year. Places where hauntings of ghosts and other paranormal entities occur, usually have gruesome, creepy, and unbelievable back stories of real, historical events. This book will provide you with a list of some of the scariest places on Earth that you probably haven't heard of, but are backed up with creepy histories and spine-tingling hauntings...

Cue the Nightmares: True Scary Stories for Midnight Reading... Get Your FREE BONUSES When You Grab This Book! Despite the advent of science and technology that helps us understand the 'how's' and the 'whys' of things, the universe still offers a colossal variety of mysteries that humans are still yet to explore and understand. Having said that, the standard mysteries, those which have perplexed humanity from the very beginning, continue to do so. Strange creatures and things fall, at times slowly, from rather unknown sources; people walk over glowing trenches of hot coals, encounter monsters in mountains and lakes, are subject to strange coincidences, so on and so forth. History has many disturbing episodes that few of us would care to experience ourselves. So many of these stories are sad but true. Sometimes, after such incidents, dark and evil energies remain in these places of horror for decades to come, haunting all that come near. Over the years, I have learnt, read and write about these unexplained mysteries, and one thing I have understood is that the nature of our existence and the world are quite different from that which we learned when we were young. The reality is more large, fascinating and expansive than any rational, scientific or religious view can perhaps accommodate. Remember, explanations are just temporary, going on and off in response to fads and fashions. However, the happenings they are supposed to explain carry on as mysteriously as ever. Here Is A Preview Of What's Inside... 12 Stories To Give You Goosebumps: True Paranormal Hauntings Of Haunted Neighborhoods, People, Forests And True Ghost Stories It is as scary as it is exciting: this is how most people would describe a paranormal experience. While others encounter it even when they don't want to, others search for the thrill, going so far as visiting places out of the country just so they can feel the suspense.

Haunted forests, abandoned ghost towns, creepy creatures, cursed roads, and other paranormal events - all these things happen for a reason. Murder victims manifest themselves perhaps because their justice is still not achieved, or perhaps, they simply were not ready to go... In this book you will learn of 12 stories: haunted houses, eerie ghost towns, murder victims who became ghosts, forests with supernatural phenomena, a haunted road, a man who changed his personality right after he received a kidney from a child donor, and of course, scary humanoid creatures with pitch black eyes. If you decide to read this book tonight, then prepare to feel restless, as the stories will follow you to your sleep...

What Happens After Dark? Creepy True Paranormal Hauntings And Stories From All Over The World The world is a curious place and the things that humans know are scarcer than the unknown and unexplained. The existence of ghosts is probably one of the things that science cannot either prove

or disprove; in all its aspects, at least. Though their presence on Earth is not widely accepted, the air of mystery that hangs about ghost stories keep them alive. It is the furtive truth in them that keeps people wanting to know more about them; and with this curiosity, some hauntings have even been proven true. Each culture and country somehow have their own versions of ghosts and hauntings. What's fascinating is that, across borders and traditions, these hauntings share the same spine-tingling and hair-raising effect on those that get to hear or read about them. From haunted islands, confirmed poltergeist cases, to restaurants haunted by an estranged lover, mansions and palaces that serve as a home to a number of ghosts, and even a ghost train that never lets its passengers off, this book will provide all your ghostly curiosity and mystery seeking needs...
