## LANE HURLEY

*Epidemiology, Evidence-based Medicine and Public Health* John Wiley & Sons  
 A complete guide to passing your surgical finals! This comprehensive new guide tests your knowledge of general surgery, upper GI, lower GI, vascular, urology, trauma and orthopaedics, breast surgery, paediatric surgery, otolaryngology, plastic surgery, maxillofacial surgery, cardiothoracic surgery, and neurosurgery using a variety of question types

*Endocrinology and Diabetes, eTextbook*  
 Complete SAQs for Medical Finals  
 Provides a range of short clinical cases with questions and detailed structured answers to test students' problem-solving and decision-making skills in a structured and objective fashion.  
*Complete SAQs for Medical Finals* John Wiley & Sons  
 It is for all those medical professionals who are involved in the process of teaching. Although the general principles of teaching remain the same worldwide, this book is tailored to meet the demands of 'Faculty Development' in a Medical Institution. This is a text in demand from not only medical teachers, but also from

all the faculty of paramedical and allied health courses. • Covers three broad aspects of teaching and learning, viz., (i) Technology in and of education, (ii) Management of education and (iii) Educational research. • Beautifully illustrated educational science applies to medical teachers as well as members of healthcare team and also all those who are involved in the art of teaching. • Authored by experts who have vast experience in medical education at both national and international levels. Their vision, thought process and knowledge get reflected in their writings. • A 'must read' book for every young faculty making his/her entry in the educational field as a medical

teacher before embarking on educational activities.

**Infectious Disease, eTextbook** Springer  
Previously entitled MCQs in Gynaecology & Obstetrics 3rd Edition, this text has been expanded to include Short Answer Questions (SAQs), in line with new assessments used in many medical schools. 'Self-Assessment in O&G' contains 300 MCQs and 60 SAQs, all of which are closely referenced to the 17th editions of 'Ten Teachers in Obstetrics' and 'Ten Teachers in Gynaecology'. Detailed explanatory answers ensure that the title can be used on its own or in conjunction with other texts. Ten Teacher's Self Assessment in Obstetrics and Gynaecology is a comprehensive revision aid that will help medical students prepare for exams during clinical attachments and medical finals. The self-test format allows assessment of learning in obstetrics and gynaecology with multiple choice and short answer questions. The questions and explanatory answers are referenced to the appropriate chapter in the well-known volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers to enhance learning and revision.

**Crash Course Endocrinology E-Book**  
Elsevier Health Sciences

This detailed guide is a must for medical students preparing for clinical attachment and final exams. Its wide-ranging approach is also ideal for those sitting GP entrance exams. Presenting short answer questions encompassing the entire current curriculum, this informative revision aid covers all bases.

**SBA, EMQ & SAQ in SURGERY** John Wiley & Sons

Crash Course – your effective every day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have all the core information you need in one place to excel on your course and achieve exam success. A winning formula now for over 15 years, each series volume has been fine tuned and fully updated, with an improved layout tailored to make your life easier. Especially written by senior medical students or recent graduates – those who have just been in the exam situation – with all information thoroughly checked and quality assured by expert faculty advisers, the result are books which exactly meet your needs and you know you can trust. Each provides an integrated approach to the subject by linking together topics such as anatomy, development, histology, physiology and pharmacology. Diseases and complaints, clerking, clinical assessment and examination, common skills and further investigations are also

covered. Commencing with clear 'Learning Objectives', every chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. A fully revised self-assessment section matching the latest exam formats is also included. In this edition, Crash Course Endocrinology has been carefully revised to further reflect the requirements today's medical curriculum, including enhanced coverage of the essential area of diabetes. More than 130 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner. Friendly and accessible approach to the subject makes learning especially easy. Written by students for students – authors who understand exam pressures. Contains 'Hints and Tips' boxes, and other useful aide-mémoires. Succinct coverage of the subject enables 'sharp focus' and efficient use of time during exam preparation. Contains a fully updated self-assessment section – ideal for honing exam skills and self-testing. Self-assessment section fully updated to reflect current exam requirements. Contains 'common exam pitfalls' as advised by faculty. Crash Courses also available electronically! Online self-assessment bank also available – content edited by Dan Horton-Szar!  
**SBA, EMQs and SAQs in the SPECIALTIES** tfm Publishing Limited  
Featuring a range of commonly encountered and important conditions in women's health, Obstetrics & Gynaecology: Clinical Cases Uncovered allows the reader to understand normal reproductive physiology and anatomy in the context of clinical practice. It highlights aspects of good practice which in real life are considered beyond the presenting symptom. This unique case-based approach allows the reader to progress through each stage, gaining an understanding of the rationale for investigation and management and to consider other important aspects for holistic care. Obstetrics & Gynaecology: Clinical Cases Uncovered is ideal for medical students and junior doctors, obstetrics and gynaecology trainees, midwives and nurse practitioners.  
**Clinical Anaesthesia** John Wiley & Sons  
Fully updated, this book now contains new communication skills criteria and more clinical examination stations. Information on the OSCE making scheme and mock exams make the books ideal for exam practice.

**Acute Medicine** CRC Press

This textbook covers all general areas of knowledge required for a trainee, generalist medical administrator, and

doctor undergoing training to be a medical administrator specialist. Chapters cover all the key topics on medical administration and leadership. Some of the key topics included are: health systems and policy, health law, private health and insurance, health disaster planning, population and public health, health information and technology, and health economics and financial management. Medical practitioners of today are part of huge changes in medical practice as continuing developments are happening in biomedical sciences and clinical practice with new health priorities, rising expectations among patients and the public, and changing societal attitudes. Consequently, basic knowledge and skills, while fundamentally important are not enough today on their own and doctors thus need to demonstrate leadership combined with sound management skills to drive the necessary changes required to meet the challenges ahead. This book serves as an invaluable resource for a wide spectrum of physicians including specialists, clinician managers and other health professionals, as well as non-clinical managers working in health. This is a gateway text for trainees in medical administration, specialist medical administrators, aspiring medical managers, health service managers, and heads of service and departments in various medical specialties.

**One Stop Doc Immunology** John Wiley & Sons

This handbook will be a concise guide to important topics in psychiatry with an international focus. It constitutes a précis of the field of psychiatry with emphases on the therapeutic approach to the patient and on the proper diagnosis of major psychiatric disorders. All psychiatric diagnoses are encoded using both the US Diagnostic and Statistical Manual (DSM) and the International Statistical Classification of Diseases and Related Health Problems (ICD). Treatment options for psychiatric disorders will include approaches used in developed nations in North America, Europe, Asia, as well as in the developing world. Furthermore an invaluable brief history of psychiatry allows readers to trace the beginnings of their chosen field and gain awareness of the ethical and legal contexts. This handbook will provide a comprehensive introduction to psychiatry appropriate for students, trainees, and practitioners seeking an international approach.  
Contents: Impact of Mental Illness (Laura Weiss Roberts, Richard Balon and Joseph B Layde) International Issues in Psychiatry (Richard Balon and Cyril Höschl) Psychiatric

Diagnosis (Stephanie Bagby-Stone, Jessica Nittler and John Lauriello)Psychiatric Genetics (Bhanu Prakash Kolla and David Mrazek)Psychiatric Interviewing: What to Do, What Not to Do (Mara Pheister)Psychological and Neuropsychological Testing (Jennifer Niskala Apps and Jonathan E Romain)Psychiatric Disorders in Childhood and Adolescence (Michael Koelch and Joerg M Fegert)Schizophrenia and Other Psychotic Disorders (Peter F Buckley, Adriana Foster and Scott Van Sant)Mood Disorders (Sandra Rackley and J Michael Bostwick)Anxiety Disorders (Leanne Parasram and Dan J Stein)Substance Use Disorders (Nidal Moukaddam and Pedro Ruiz)Cognitive Disorders (Alana Iglewicz, Ipsit V Vahia and Dilip V Jeste)Somatoform Disorders (Christina L Wichman)The Dissociative Disorders (Jean M Goodwin)Sleep Disorders in Psychiatry (Oludamilola A Salami)Eating Disorders (Athena Robinson and W Stewart Agras)Sexual Disorders (Richard Balon)Adjustment Disorder (Mauro Giovanni Carta, Maria Carolina Hardoy and Matteo Balestrieri)Personality Disorders (Joel Paris)Geriatrics (Randall Espinoza)Emergency Psychiatry (Divy Ravindranath, Mark Newman and Michelle Riba)Outpatient Psychiatry (Ondria Gleason, Aaron Pierce and Bryan Touchet)General Hospital Psychiatry (Jen Alt McDonald and Mark T Wright)Psychiatric Education (Linda Gask and Michelle B Riba)Residency Training (Sanjai Rao and Sidney Zisook)Methods of Psychiatric Research (Elizabeth Burgess, Nicolas Ramoz and Philip Gorwood)World Suicide (Morton M Silverman)AIDS Psychiatry (Mary Ann Cohen)Pharmacogenomic Variability Associated with Psychotropic Medication Response (David Mrazek and Bhanu Prakash Kolla)Ethics in Psychiatry (Kristi Estabrook)The Culturally Competent Psychiatric Assessment (Ajoy Thachil and Dinesh Bhugra)Traditional Healing for Psychiatric Disorders (Roger M K Ng, Zhang-Jin Zhang and Wendy Wong)International Perspective on Homelessness (Belinda Bandstra, Anthony Mascola and Daryn Reicherter)Mental Health Consequences of War and Political Conflict (Daryn Reicherter and Rena Sugarbaker)Stigma (Travis Fisher)Legal Aspects of Psychiatry (Joseph B Layde)Readership: Psychiatry students, trainees, and practitioners.  
Keywords:Psychiatry;Mental Health;Physician Assistant;Nursing Practitioner and Advanced Practice;Professional and Technical;Medical;Allied Health

Professional;Medical Assistants;Neurology/ Neuroscience;Public Health;Pharmacology/ Pharmacy;Paediatrics;HIV & AIDS Research;Forensic MedicineKey Features:The international focus and the wide international experience of the authors would make the book particularly attractive to students and residents, both in terms of coursework and preparation for formal examinationsFocus on innovative areas of psychiatry such as patient-centered care practices (e.g. in defining the goals of treatment), new therapies (e.g. pharmacogenetic advances), and the approach to special or complex patient populations (e.g. children, elders, medically ill, and terminally ill)The particular strengths of "Q & A" sections, self-assessment items, "clinical pearls" study guides and the competency-based orientation would set this book apart from others  
*Ten Teachers' Self-Assessment in Gynaecology & Obstetrics, 4Ed* CRC Press This book contains a full range of questions (including SBAs, SAQ and EMQs) and answers for the preparation of undergraduate and other exams in the specialty of OBGYN in most countries. It also includes the MOCC exam which is composed of three papers of single-based answers (SBAs). These are an increasingly popular means of testing in most exams at various levels. As such, this book provides an excellent learning resource for all stages of clinical studies, and especially for final year students of medicine in the subject of OBGYN.  
*OSCEs for Medical Finals* John Wiley & Sons SBAs, EMQs & SAQs in PRACTICE PAPERS provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 40 single best answer questions (SBAs), 140 extended matching questions (EMQs) and 25 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. The book also includes a variety of radiological images (abdominal and chest X-rays), ABGs and ECGs for interpretation. It is an invaluable educational resource for exam preparation and to help you succeed. Key features: \* Over 200 questions on the core medical subjects. \* Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. \* Overseen by experienced doctors to ensure relevance and accuracy. \* The broad medical curriculum is covered in a succinct and consistent style. \* Pharmacology and pathology are

integrated throughout the text. \* Clear and concise answers are provided. \* Easy accessible information to facilitate revision on the move. \* Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. \* The following main specialties are covered: - Breast surgery; - Cardiology; - Dermatology; - Endocrinology; - ENT surgery; - Fluids & electrolytes; - Gastroenterology; - Haematology; - Infectious diseases; - Lower gastrointestinal surgery; - Neurology; - Neurosurgery; - Obstetrics & gynaecology; - Oncology; - Ophthalmology; - Paediatrics; - Psychiatry; - Renal medicine; - Respiratory medicine; - Rheumatology; - Statistics; - Trauma & orthopaedics; - Upper gastrointestinal surgery; - Urology; - Vascular surgery. Watch out for our other titles in the MedQ4exams series: - *Medicine - Surgery - The Specialties Medical Finals* John Wiley & Sons This book aims to nurture the inspirational teaching that will help bring the most talented doctors into psychiatry. It contains advice on how to teach psychiatry to undergraduate medical students using a range of different methods in different settings, and addresses both the theory and practical aspects of teaching psychiatry to medical students.

### Teaching Psychiatry to

#### Undergraduates PasTest Ltd

Covering cases from Addison's disease to osteoporosis and diabetic foot ulcer, and an introductory section explaining the molecular and physiological aspects of endocrinology, Endocrinology and Diabetes: Clinical Cases Uncovered has it all. Reflecting the varied nature of the specialty, the cases cover various endocrine conditions and address the clinical presentation, diagnostic workup and potential complications, while the self-assessment section, comprising 30 MCQ, 10 SAQs and 10 EMQs, will help medical students, junior doctors, and nurses practise clinical reasoning and prepare for life on the wards.

#### Research in Medical Education Elsevier Health Sciences

It has been recognised by governments and healthcare organisations worldwide that for Universal Healthcare in pursuit of Health for All under the Sustainable Development Goals to be achieved, effective primary care that is integrated, accessible, and affordable for everyone is essential. This practical guide is the first designed specifically to support those planning and conducting family medicine/primary care education within medical schools around the world. It offers

medical educators a collection of concise easy to follow chapters, guiding the reader through the curriculum requirements with key references for further detail. Plain English and practical, deliverable advice, adaptable to different contexts, ensures the content is accessible to those educating medical students in any country, while the structure within sections ensures that family medicine doctors and educators can dip into chapters relevant to their roles, for example curriculum design for academic educators or teaching methods for those educating in clinical practice. Key Features

- The first "how-to" guide dedicated to effective integration of family medicine teaching into medical school curricula
- Offers a strong evidence-based framework for integrating family medicine into medical schools
- Wide in scope, for academics and educationalists at all levels and in all geographies, reflecting and embracing the experience and variation in family medicine across the globe to produce pragmatic and effective information on which medical schools can base change
- Step-by-step introduction to the processes of literature review (establishing the existing knowledge base), choosing a topic, research questions, and methodology, conducting research, and disseminating results
- Supported by the WONCA Working Party on Education

The book is edited and authored by members of the World Organization of Family Doctors (WONCA) Working Party on Education, which is ideally placed to offer a strong platform for medical schools to integrate family medicine whatever the local context, enabling all future doctors, whatever their career aspiration, to understand the importance of family medicine to health systems and holistic medicine and encourage family medicine doctors to inspire students to consider a career in the field.

Haematology, eTextbook John Wiley & Sons

Translating the evidence from the bedside to populations This sixth edition of the best-selling *Epidemiology, Evidence-based Medicine and Public Health Lecture Notes* equips students and health professionals with the basic tools required to learn, practice and teach epidemiology and health prevention in a contemporary setting. The first section, 'Epidemiology', introduces the fundamental principles and scientific basis behind work to improve the health of populations, including a new chapter on genetic epidemiology. Applying the current and best scientific evidence to treatment at both individual and

population level is intrinsically linked to epidemiology and public health, and has been introduced in a brand new second section: 'Evidence-based Medicine' (EBM), with advice on how to incorporate EBM principles into your own practice. The third section, 'Public Health', introduces students to public health practice, including strategies and tools used to prevent disease, prolong life, reduce inequalities, and includes global health. Thoroughly updated throughout, including new studies and cases from around the globe, key learning features include: Learning objectives and key points in every chapter Extended coverage of critical appraisal and data interpretation A brand new self-assessment section of SAQs and 'True/False' questions for each topic A glossary to quickly identify the meaning of key terms, all of which are highlighted for study and exam preparation Further reading suggestions on each topic Whether approaching these topics for the first time, starting a special study module or placement, or looking for a quick-reference summary, this book offers medical students, junior doctors, and public health students an invaluable collection of theoretical and practical information.

SBAs, EMQs & SAQs in Practice Papers CRC Press

Created in partnership with the Association for the Study of Medical Education (ASME), this completely revised and updated new edition of *Understanding Medical Education* synthesizes the latest knowledge, evidence and best practice across the continuum of medical education. Written and edited by an international team, this latest edition continues to cover a wide range of subject matter within five broad areas - Foundations, Teaching and Learning, Assessment and Selection, Research and Evaluation, and Faculty and Learners - as well as featuring a wealth of new material, including new chapters on the science of learning, knowledge synthesis, and learner support and well-being. The third edition of *Understanding Medical Education*: Provides a comprehensive and authoritative resource summarizing the theoretical and academic bases to modern medical education practice Meets the needs of all newcomers to medical education whether undergraduate or postgraduate, including those studying at certificate, diploma or masters level Offers a global perspective on medical education from leading experts from across the world Providing practical guidance and exploring medical education in all its diversity, *Understanding Medical*

Education continues to be an essential resource for both established educators and all those new to the field.

World Scientific

With over 20 real patient cases and outcomes, this title in the Clinical Cases Uncovered series is designed to help students and junior doctors learn how to recognise and understand significant diseases in haematology. Each case covers the history taking, examination, investigations and management of a particular disease, with question and answer sections to tie in the underlying basic and clinical science and help build further knowledge and understanding. At the end of each case there is a review to consolidate learning with a self-assessment section containing MCQs, EMQs and SAQs. Including colour blood films, haematology slides and patient photos throughout to reinforce learning, understanding and investigative skills, *Haematology: Clinical Cases Uncovered* helps prepare for life on the wards. *Haematology CCU* is now available as a mobile app for iPad, iPhone and iPod touch. Download it for FREE <http://itunes.apple.com/gb/app/haematology-clinical-cases/id425126264?mt=8> <http://itunes.apple.com/gb/app/haematology-clinical-cases/id425126264?mt=8/a> to access the basic science, recommendations on how to approach your patient, and the first clinical case. There are a further 22 cases available separately as in-app purchases. *The Medical Student's Survival Guide 1* Medq4exams

*Get ahead!* is a brand new essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook—but we've waived the waffle! If you are looking for a comprehensive, reliable, effective revision aid, then look no further than *Get ahead!*

*OSCEs for Medical Students* John Wiley & Sons

*Self-Assessment by Ten Teachers* presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests

information covered in the two 'Ten Teachers' volumes via the full variety of

exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-

references are also made to page numbers and topics in the main textbooks.
