JONAS ARTHUR

IGCSE Cambridge International Mathematics (0607) Extended Oxford University Press - Children
 The tried and tested New Biology for you: Student book has now been updated to match the new GCSE Science specifications, including IGCSE. Well known for its clear layout of content that expresses even the most difficult scientific content in a clear and engaging way, this book is a firm favourite with science teachers and students alike.

IGCSE Physics

Chemistry for IGCSE
 With a clear, concise approach, this comprehensive resource will support your EAL learners in understanding key scientific concepts. A step-by-step approach will help every learner reach their potential in science. This second edition is up-to-date for the latest Cambridge syllabus.
Cambridge IGCSE® and O Level Additional Mathematics Coursebook Cambridge University Press
 Up-to-date resources providing full coverage of Cambridge IGCSE First Language English (0500 and 0522) for first examination in 2015. This Fourth edition Coursebook is designed to support the

Cambridge IGCSE First Language English (0500) and Cambridge International Level 1/Level 2 Certificate First Language English (0522). A student-friendly resource that teaches the reading and writing techniques required for the Cambridge IGCSE, as well as providing two bespoke units on speaking and listening techniques, plus embedded activities on these skills throughout. It includes carefully designed activities on a variety of engaging topics, set out in 14 lively, full-colour units. A dedicated microsite for Cambridge First Language English provides free online resources to support the course, including answers to the Coursebook activities.

Teaching STEM in the Secondary School

Cie Igcse Essential
 This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This new edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum specified in the IGCSE Physics syllabus, The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

New Chemistry for You

Hodder Murray
 Covering all GCSE specifications, this tried and tested series has been fully updated to match the

(9-1) GCSE Chemistry specifications for first examination in 2018, as well as international specifications. With a focus on science, concepts develop naturally, engaging students and enabling them to get a thorough understanding of Chemistry.

Level Course in Chemistry

OUP Oxford
 Written to cover the IGCSE syllabus, Business Studies: IGCSE is divided into five sections, which are in turn divided into units that provide convenient and flexible areas of learning. Each unit has a brief introduction followed by a business-in-context section and questions designed to help students understand the implications of the topic. Each unit contains definitions of key terms and ends with a summary of the topic covered.

IGCSE Biology

Nelson Thornes
 These resources have been created for the Cambridge IGCSE® and O Level Additional Mathematics syllabuses (0606/4037), for first examination from 2020. This coursebook gives clear explanations of new mathematical concepts followed by exercises. This allows students to practise the skills required and gain the confidence to apply them. Classroom discussion exercises and extra challenge questions have been designed to deepen students' understanding and stimulate

interest in Mathematics. Answers to coursebook questions are in the back of the book.

The School Science Review Hodder Education

Fully revised and updated content matching new Cambridge International Examinations 9701 syllabus for first examination in 2016. Endorsed by Cambridge International Examinations, this digital edition comprehensively covers all the knowledge and skills students need during the A Level Chemistry course (9701), for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.
