Brake and Beach invite the reader to “time travel” into the first century, the world of an ordinary family facing extraordinary challenges, as they grapple with young Jesus’s developing self-awareness and preparation for His divine mission. “With biblical and historical accuracy,

insightful sanctified imagination and brilliant storytelling, Brake and Beach foreshadow what we know with certainty from the New Testament. Get ready for epiphanies aplenty.”  
—David Sanford, executive editor of four Bibles published by Zondervan and Tyndale House “In these pages, you are welcomed inside the home of a young son of Israel who is “growing in

wisdom and stature.” Do step inside. Smell the morning bread baking. Feel the daily tension living in small-town Nazareth where the brutal Roman military is stationed. Reect on the love, and the fear, and the faith of a family living amid oppressive pain from multiple sources—politics, the economy, and religion. And see the young boy blossom into the grown man who is the Savior of

the world and its Deliverer. “I want to know my Lord more intimately. Don Brake has helped me. Reecting on some of the pages here, I walked today where Jesus walked.” —Stu Weber, pastor, author, and retired US Army awarded three Bronze Stars as a Green Beret in Vietnam. He is a best-selling author of several Gold Medallion nalist books. “Brake writes as a scribe, communicatin g the scenes as they’re

happening, yet making readers privy to under currents with powerful ramifications. Yes, this is a novel, but it is also devotional, study, and inspiration to draw us nearer to the One they called, Yeshua.” —Mesu Andrews, Novelist of nine biblical character novels [Juvenile Author-title Catalog](#) Archway Publishing The rapid rise in popularity of maps and

geography handbooks in the eighteenth century ushered in a new geographic literacy among nonelite Americans. In a pathbreaking and richly illustrated examination of this transformation, Martin Bruckner argues that geographic literacy as it was played out in popular literary genres--written, for example, by William Byrd, George Washington, Thomas Jefferson, Royall Tyler, Charles Brockden Brown, Meriwether Lewis, and William Clark--significantly influenced the formation of identity in America from the 1680s to the 1820s. Drawing on historical geography, cartography, literary history, and material culture, Bruckner recovers a vibrant culture of geography consisting of property plats and surveying manuals, decorative wall maps and school geographies, the nation's first atlases, and sentimental objects such as needlework samplers. By showing how this geographic revolution affected the production of literature, Bruckner demonstrates that the internalization of geography as a kind of language helped shape the literary construction of the modern American subject. Empirically

rich and provocative in its readings, The Geographic Revolution in Early America proposes a new, geographical basis for Anglo-Americans' understanding of their character and its expression in pedagogical and literary terms. From Flood to Fallen Kingdoms Kregel Publications Historical geography of the Bible illustrated on enhanced satellite maps of the Holy

As two massive defense companies compete for a desperately needed high-profile contract worth billions, one of them decides to secretly hinder their

competitors' critical demonstration, resulting in an unexpected disaster. Dogged by the quirky but brilliant FBI Special Agent Lena Forde, and her eternally handsome hacker partner Tim Chow, the slope starts slippery and only gets worse. Wealthy and powerful conspirators lawyer up and try to throw naïve software engineer Evan Williams under the proverbial bus. Can the

good guys win one against the powers that be? Can our intrepid but motley agents get to the bottom of the mystery before innocent lives are destroyed?

In an attempt to be comprehensive yet concise and thorough, PT Nicholson explores prophetic scripture in relation to the end times. He weighs up counterarguments of key issues that divide

Christians regarding the tribulation and the millennium and carefully synthesizes an outline of events without overlooking difficulties. Combined with exhaustive scripture references, he uses charts, tables, maps, sketches, and graphs to explain issues and analyse topics as succinctly as possible. About 25 percent of the Bible is prophecy and, according to a well-known and respected

scholar on  
Bible  
prophecy,  
John  
Walvoord, five  
hundred of  
one thousand  
prophetic  
events remain  
unfulfilled. Yet  
many  
Christians  
have only a  
vague notion  
of how end-  
time events  
will unfold due  
to inadequate  
teaching and  
a shortage of  
comprehensiv

serves as a

help meet this

The intent is to gain a fresh perspective on the defining doctrines of evangelical faith. <u>Placing History</u> Dorrance Publishing Heaven's Eagle is a commentary on one of Scripture's most beloved passages, Psalm 91. It examines how God dealt with Moses, the	author of the poem, using the figure of an eagle to describe the ways of the Holy Spirit. In Heaven's Eagle, you'll learn many fascinating insights, such as: - The eagle of Psalm 91 corresponds closely to the imagery of the Passover. - The cleft of the rock where God hid Moses is actually the place where eagles nest. - When Israel crossed the Red Sea, they were preceded by tens of thousands of

eagles. - The eyesight of an eagle demonstrates seven ways the Holy Spirit gives the believer vision. - The eagle's mastery of wind gives deep insight into the ways of the Spirit. - Tales in many cultures speak of eagles fighting dragons (types of Satan and the Antichrist). - Eagles are raptors that carry away prey, much as the Holy Spirit will rapture believers. Heaven's Eagle is a

valuable reference that will give you deeper understanding of Psalm 91 and other biblical passages that speak of the Holy Spirit in the metaphor of an eagle. Atlas R. Brockhaus Verlag GmbH & From Flood to Fallen Kingdoms (FFFK) is the first truly authoritative, detailed and coherent, young-earth creationist overview of the post-flood history of the ancient Near East (and the

land of Israel), for laypersons and scholars alike. It is a unique work which does not have serious rivals in the biblical-creationist book market. The lack of a good and comprehensive introductory book was the main reason why I started to write the book in the first place. I have made use of the best available scholarly literature, Christian as well as secular. The book contains a lot of my own research,

but it is also in very good agreement with the archaeological articles written by A. J. M. Osgood (can be read at creation.com) and the books of David Down (Unwrapping the Pharaohs and Unveiling the Kings of Israel), for example. FFFK follows the absolute chronology of Floyd Nolen Jones' The Chronology of the Old Testament. As a Bible-faithful narrative introduction to the history and

archaeology of the ancient Near East, From Flood to Fallen Kingdoms is far better than the existing apologetic works that come towards the genre of FFFK (Evidence for the Bible by Clive Anderson and Brian Edwards; Ancient Post-Flood History by Ken Johnson; The World's Story 1: The Ancients by Angela O'Dell, for example). From Flood to Fallen Kingdoms will strengthen the

faith of numerous believing readers who take the Holy Scriptures seriously. They will also be surprised to see how well the first five post-flood centuries, from Ararat to Abraham, which until now have been in great darkness, can be elucidated through proper interpretation of biblical and archaeological evidence. **Mittheilunge
