The book provides comprehensive coverage of the course-content requirements of the students appearing for the paper [Management Accounting] at the MBA and M.Com Examinations of different Indian universities and professional Institutions. The book has been divided into five convenient sections. Each section covers a different aspect of [Management Accounting] with the subject divided into chapters covering

different topics in a systematic and concise manner. A complete section comprising case problems with solutions makes the study of the subject more informative and interesting.
Solutions Manual to Issues in Financial Accounting Prentice Hall
A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts, cost behaviour and methods, and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations. The text of the subject matter has been presented in a student-friendly, simple and intelligible manner. Every discussion involving conceptual complexity is immediately illustrated by a numerical example. In addition, the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points. The subject matter has been organized on 'first

things first' basis for its logical presentation that sustains interest. The approach of the book is examination oriented. Thus, a good number of problems and solutions have been included in its chapters. Theoretical and numerical questions have been mostly selected from various examinations. Objective type questions have been given to serve as self test by students. This is an ideal book for self study.

New to this edition • All chapters thoroughly revised • Latest information on Cost Accounting Standards (CAS) issued by the Institute of Cost Accountants of India (ICAI)

- Chapter on 'Miscellaneous Topics' made more contemporary by including some new sub-topics, and thus re-named 'Advanced Cost Management Techniques'
- Revision and augmentation of practical problems

Accounting, 10th

Edition Vikas Publishing House

"Introductory Financial Accounting, 9e" provides a unique and perfect blend of robust financial statement analysis with early statement of cash flows coverage. It is directed at those who will analyze real financial statements, and make business decisions based upon that analysis. Real statements are used throughout (Starbucks). Statement of Cash Flows comes earlier in this book than most. Material is focused on analysis of financial statements ratios introduced early and often, special " Portfolio" section provides a " road map" to financial statement analysis, and special section in end-of-chapter problems focuses on analyzing financial statements (using

Starbucks financial statements). Features strong coverage of statement of cash flows (Ch 5) --an essential financial statement, one of growing importance, and should be regarded as a basic statement. For financial accountants.
