 different people. As
 developed by Robin
 Alexander since the

early 2000s, dialogic teaching harnesses the power of talk to engage interest, stimulate thinking, advance understanding, expand ideas, and build and evaluate arguments, empowering students for lifelong learning and democratic engagement. Dialogic Teaching – Robin Alexander Dialogic teaching involves ongoing talk between teacher and students, not just teacher-presentation. Through dialogue, teachers can elicit students' everyday, 'common sense' perspectives, engage with their developing ideas and help them overcome misunderstandings. When students are given opportunities to contribute to classroom dialogue in extended

and varied ways, they can explore the limits of their own understanding. What is Dialogic Teaching? - Faculty of Education Dialogic teaching utilises the power of classroom talk to challenge and stretch students' thinking and, in the process, aid their cognitive, social and linguistic development. Alexander (Alexander, 2017, 2020) provides a number of justifications for using classroom talk, from the communicative to the cultural, and the political to the pedagogical. Ultimately, it is argued that dialogue should be viewed as the true foundation of teaching and learning. It's good to talk: Moving towards dialogic teaching ... 'Dialogic talk' is that

in which both teachers and pupils make substantial and significant contributions and through which pupils' thinking on a given idea or theme is helped to move forward. What is dialogic pedagogy? - Dialogic Pedagogy Dialogic interventions in teaching English and maths (and science) could improve learner progress. The dialogic approach emphasises the use of dialogue in the classroom to help learners to reason, discuss, argue, and

Dialogic teaching is a pedagogical approach that capitalizes on the power of talk to further students' thinking, learning, and problem solving.
