Read Music Notes FAST Level 1: Beginners - Visual Memory in the Brain! Are you struggling with Reading Music Notes when you play your instruments? Are you frustrated with Reading Music Notes accurately? Here's the Secret: Don't Count. You have been counting the lines on the Treble & Bass Clef. This is an in-depth look into Reading 22 Music Notes Quickly from Treble Clef & Bass Clef with my Unique Note Attack Method! There is NO need to Count. Counting Slows you down! This book can also be used by Music Teachers or Parents who want to teach their children to 'Read

Music Fast'. You can use these videos to guide your children in this Music Note Attack Method. Children learn much faster in this way as they learn to visualize these notes in their brain.

***** Reading Music: Traditional Way vs Non-Traditional Way It is FUN to learn to read music. There are some basic music fundamentals that you need to learn in order to be able to start reading music. You need to understand the music staff, the grand staff, the lines, the spaces, the alphabets, the letter names, treble clef, bass clef & middle C. I show you the Traditional Method of how students are taught to read music. The Traditional method WORKS but it is slow going. It is good for you to know the Traditional Method. We don't want to throw away what works. We want to improve on 'what works' to make it 'more fun' for beginners to overcome the frustrations of reading music! This is how my "Note Attack & Say It" Method got developed as I saw the joy of seeing students gaining confidence in these drills and exercises of moving from Level 1 (The Note Attack Method) to Level 2 (Application of the Note Attack Method) & then onto Level 3 (Drilling Exercises with Speed). Rosa's Music Note Attack Method: 1. Intuitive Visual Recognition 2. Visual Memory in the Brain 3. Say it out Loud to store in Brain 4. Practice Smart - Exercises You only need to know 7 alphabet letters: A B C D E F G. Once you learn to read these letters forward and backward using my Unique method, you will tap into the power of reading music notes quickly with confidence. This will help you overcome all the years of fear and frustrations in reading music, and the reward you receive is for a life time. You learn to see the notes and read them like you read the names of your friends.

***** This is a UNIQUE Method that I develop for BEGINNERS who wants to learn how to read notes and to read them QUICKLY! We are dealing specifically in the area of reading the music notes on music staff in both the Treble Clef and Bass Clef. We are NOT dealing with reading other music symbols, rhythm, or value and duration of notes. Have Fun! Rosa

Read the Notes Workbook is written in response to the needs of students to facilitate the process of learning to read the notes at the initial phase of studying the piano. The primary purpose of this workbook is the development of student's ability to analyze simple music text. The exercises are designed to teach students not only to read the notes taken separately, but to see the relationships between them. Students learn to pay attention to the direction of the music line, the intervals of the melodic steps, repeated notes etc. These skills lay the foundation for fluent sight-reading.

Guitar Lesson World: The Book Guitar Lesson World

From Grammy-winning musical icon and legendary bassist Victor L. Wooten comes an inspiring parable of music, life, and the difference between playing all the right notes...and feeling them. The Music Lesson is the story of a struggling young musician who wanted music to be his life, and who wanted his life to be great. Then, from nowhere it seemed, a teacher arrived. Part musical genius, part philosopher, part eccentric wise man, the teacher would guide the young musician on a spiritual journey, and teach him that the gifts we get from music mirror those from life, and every movement, phrase, and chord has its own meaning...All you have to do is find the song inside. "The best book on music (and its connection to the mystic laws of life) that I've ever read. I learned so much on every level."—Multiple Grammy Award-winning saxophonist Michael Brecker *Music Reading for Guitar* Helen Winter

We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. All 70 songs in this book have been written without using the classic music score system, because it is for absolute beginner who can not read sheet music. This book is aimed for those who want to add popular melodies to their experimentation. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration. You can experiment with a duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. All songs from this book are possible to play in one octave. These songs are suitable for a diatonic 8-note tongue drum, which should have numbers 1, 2, 3, 4, 5, 6, 7, and 1 of the next octave. Please note: if you have a model of the tongue drum with 5 tongues, or if some keys from the octave are missing, you will not be able to play all of the songs in this book. The songbook includes very simple, popular children's and folk songs, but even well-known children's songs played on the tong drum will create an unusual

magical sound. (Music Instruction). Music notation is a language that has been developing for thousands of years; even the manner in which we read music today has been around for several centuries. In learning to read music, we encounter basic symbols for pitch, duration, and timing. As we advance, we learn about dynamics, expression, timbre, and even special effects. How to Read Music will introduce you to the basics, then provide more advanced information. As a final reward for all your hard work, you'll get a chance to play excerpts from three classic piano pieces. Topics include: pitch * rhythm * meter * special words and symbols * plus classical piano pieces by Bach, Mozart, and Beethoven.
