 One hundred of today's most prominent literary and cultural icons talk about the books that hold a special place in their hearts—that made them who they are today. Leading authors, politicians, CEOs, actors, and other notables share the books that changed their life, why they love them, and their passion with readers everywhere. Regan Arts has teamed up with the literary charity 826National, which will receive a portion of the book's proceeds to provide students ages 6–18 with opportunities to explore their creativity and improve their writing skills. Contributors include Al Roker, Carl Hiaasen, Dave Eggers, Emma Straub, Eric Idle, Fay Weldon, Fran Lebowitz, Gillian Flynn, Gregory Maguire, Jeff Kinney, Jim Shepard, Laura Lippmann, Lev Grossman, Liev Schreiber, Margaret Atwood, Mayim Bialik, Nelson DeMille, Rosanne Cash, Susan Orlean, Tim Gunn, and Tommy Hilfiger, among others.  
**Reflections of a Man** Simon and Schuster  
 From a gifted young writer, the story of his quest to reclaim his family's apartment building in Poland—and of the astonishing entanglement with Nazi treasure hunters that follows Menachem Kaiser's brilliantly told story, woven from improbable events and profound revelations, is set in motion when the author takes up his Holocaust-survivor grandfather's former battle to reclaim the family's apartment building in Sosnowiec, Poland. Soon, he is on a circuitous path to encounters with the long-time residents of the building, and with a Polish lawyer known as "The Killer." A surprise discovery—that his grandfather's cousin not only survived the war, but wrote a secret memoir while a slave laborer in a vast, secret Nazi tunnel complex—leads to Kaiser being adopted as a virtual celebrity by a band of Silesian treasure seekers who revere the memoir as the indispensable guidebook to Nazi plunder. Propelled by rich original research, Kaiser immerses readers in profound questions that reach far beyond his personal quest. What does it mean to seize your own legacy? Can reclaimed property repair rifts among the living? Plunder is both a deeply immersive adventure story and an irreverent, daring interrogation of inheritance—material, spiritual, familial, and emotional.  
**Reflections of Husbands and Sons** Crossway  
 J. Glenn Gray entered the army in May 1941, having been drafted on the same day he achieved his doctorate in philosophy from Columbia University. Over a decade after his discharge in 1945, Gray began to reread his war journals and letters in an attempt to find meaning in his wartime experiences. The result is a philosophical meditation on what warfare does to us and why soldiers act as they do.

 Philosophical reflections of a distinguished business owner over time.

 Stanley Marcus was known the world over as an innovative marketer and retailer with a refined sense of taste and style whose leadership transformed his family's Dallas clothing store, Neiman Marcus, into a globally recognized arbiter of fashion. However, his refined sensibility was also expressed in a very private passion for photography, shared only with family and close friends. Marcus's daughter Jerrie Marcus Smith and his granddaughter Allison V. Smith celebrate this passion in *Reflection of a Man*, a representative selection of the thousands of photographs Marcus shot on business trips in Europe, on vacations in Mexico, and during family celebrations. These photographs underscore what we already know about the man in terms of an eye for elegance, a preoccupation with merchandising, and an enthusiasm for the enjoyment of life, but they also reveal a talent for capturing the purity of a moment and memorializing instances of beauty. In addition to the photographs, Oscar de la Renta, the couture fashion designer, relates his experience with the master of the art of the sale; Jack Lenor Larsen, the dean of modern fabric design, pays tribute to his long friendship with Marcus; and Roy Flukinger, Senior Research Curator of Photography at the Harry Ransom Humanities Research Center at the University of Texas at Austin, critiques Marcus's photographs.  
**Some Reflections Upon Marriage** Houghton Mifflin Harcourt  
 "When Damon Tweedy first enters the halls of Duke University Medical School on a full scholarship, he envisions a bright future where his segregated, working class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. When one of his first professors mistakes him for a maintenance worker, it is a moment that crystallizes the challenges he will face throughout his early career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds: "more common in blacks than whites." [This book] examines the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine"--

 \*National Bestseller\* A brilliant and empowering collection of final reflections and words of wisdom from venerable civil rights champion, the late Congressman John Lewis at the end of his remarkable life. Congressman John Lewis was a paragon of the Civil Rights Movement and political leadership for decades. A hero we won't soon forget, Lewis was a beacon of hope and a model of humility whose invocation to "good trouble" continues to inspire millions across our nation. In his last months on earth, even while battling cancer, he dedicated time to share his memories, beliefs, and advice—exclusively immortalized in these pages—as a message to the generations to come. Organized by topic ranging from justice, courage, faith, mentorship, and forgiveness to the protests and the pandemic, and many more besides, Carry On collects the late Congressman's thoughts for readers to draw on whenever they are in need of guidance. John Lewis had great confidence in our future, even as he died in the midst of one of our country's most challenging years to date. With this book, he performs that crucial passing of the baton, empowering us to live up to the legacy he has left us with his perseverance, dedication, profound insight, and unwavering ability to see the good in life.  
*Reflections Of Men And Women Serving Life Sentences* Rutgers University Press  
 "We are here to transition. And that transition is a way of

becoming closer to who we are so we can be one with the universe." -Craig Galati, from *A Man in Transition* In the self-described "midsummer" of his life, Craig Galati picked up a pen and began writing from the heart. It was as though the words flowed through him. The result is the book you have before you, a series of deeply personal reflections on relationships, leadership and life as seen through the prism of "transition." Like all of us, Craig occupies many roles: Architect. Consultant. Family man. Writer. Concerned citizen. Human being. From these diverse perspectives, he begins to make sense of the transitional nature of life. Never pretentious, always engaging, Craig explores such far-ranging and universal themes as commitment, intention, selflessness, authenticity and the power of caring with a keen eye and a deft touch. Clearly comfortable in the midst of his own transitions, Craig takes us on a journey that ultimately becomes our own.

#### BLACK CASTLE

Essential reading for understanding the modern American man and his struggle with the women in his life.

#### Reflections of a Black Man

New York Review of Books  
A New York Times Notable Book A lively, immersive history by an award-winning urbanist of New York City's transformation, and the lessons it offers for the city's future. Dangerous, filthy, and falling apart, garbage piled on its streets and entire neighborhoods reduced to rubble; New York's terrifying, if liberating, state of nature in 1978 also made it the capital of American culture. Over the next thirty-plus years, though, it became a different place—kinder and meaner, richer and poorer, more like America and less like what it had always been. New York, New York, New York, Thomas Dyja's sweeping account of this metamorphosis, shows it wasn't the work of a single policy, mastermind, or economic theory, nor was it a morality tale of gentrification or crime. Instead, three New Yorks evolved in turn. After brutal retrenchment came the dazzling Koch Renaissance

and the Dinkins years that left the city's liberal traditions battered but laid the foundation for the safe streets and dotcom excess of Giuliani's Reformation in the '90s. Then the planes hit on 9/11. The shaky city handed itself over to Bloomberg who merged City Hall into his personal empire, launching its Reimagination. From Hip Hop crews to Wall Street bankers, D.V. to Jay-Z, Dyja weaves New Yorkers famous, infamous, and unknown—Yuppies, hipsters, tech nerds, and artists; community organizers and the immigrants who made this a truly global place—into a narrative of a city creating ways of life that would ultimately change cities everywhere. With great success, though, came grave mistakes. The urbanism that reclaimed public space became a means of control, the police who made streets safe became an occupying army, technology went from a means to the end. Now, as anxiety fills New Yorker's hearts and empties its public spaces, it's clear that what brought the city back—proximity, density, and human exchange—are what sent Covid-19 burning through its streets, and the price of order has come due. A fourth evolution is happening and we must understand that the greatest challenge ahead is the one New York failed in the first three: The cures must not be worse than the disease. Exhaustively researched, passionately told, New York, New York, New York is a colorful, inspiring guide to not just rebuilding but reimagining a great city. *Reflections by a Son of Shining Path* Good Press

"This 449-page collection of essays on the life of the famous (or infamous?) George Ivanovitch Gurdjieff could serve as the definitive tome on the eccentric and enigmatic teacher."

*Gurdjieff* U of Nebraska Press

The definitive refutation to the argument of *The Bell Curve*. When published in 1981, *The Mismeasure of Man* was immediately hailed as a masterwork, the ringing answer to those who would classify people, rank them according to their supposed genetic gifts and limits. And yet the idea of innate limits—of biology as

destiny—dies hard, as witness the attention devoted to *The Bell Curve*, whose arguments are here so effectively anticipated and thoroughly undermined by Stephen Jay Gould. In this edition Dr. Gould has written a substantial new introduction telling how and why he wrote the book and tracing the subsequent history of the controversy on innateness right through *The Bell Curve*. Further, he has added five essays on questions of *The Bell Curve* in particular and on race, racism, and biological determinism in general. These additions strengthen the book's claim to be, as Leo J. Kamin of Princeton University has said, "a major contribution toward deflating pseudo-biological 'explanations' of our present social woes."

#### *A Book of Daily Reflections* Bonus Books

Liberal attacks on the doctrine of the divinity of Christ have led evangelicals to rightly affirm the centrality of Jesus's divine nature for his person and work. At times, however, this defense of orthodoxy has led some to neglect Christ's full humanity. To counteract this oversight, theologian Bruce Ware takes readers back to the biblical text, where we meet a profoundly human Jesus who struggled with many of the same difficulties and limitations we face today. Like us, he grew in faith and wisdom, tested by every temptation common to man. And like us, he too received power for godliness through the Holy Spirit, and thus serves not only as the divine Lord to be worshiped, but also the supreme Human to be followed.

#### Reflections on Human Nature

Jeanius Publishing, LLC.  
He discusses the theory of human nature held by the founders of the American Constitution, giving special attention to James Madison and the "Federalist Papers."
