Comics author Garth Ennis (Preacher, The Punisher) teams with acclaimed artist Mauricet (Harley Quinn) for an all-new adventure showcasing the classic Hanna-Barbera heavies as you've never seen them before! In the rogue state of Unliklistan, a cutting-edge nuclear power plant is about to go on-line—but it turns out that the ultra-rare element unstabiliium is a bad choice for reactor fuel. In the ensuing explosion, exotic isotopes are loosed upon an unsuspecting world—and the results are cartoonishly catastrophic! Spread by a mysteriously unstoppable Predator drone, the farcical fallout is turning men into beasts, beasts into men and the President of the United States into a raving lunatic! Only two men—persons—whatever stand in the way of total global meltdown: Lieutenant Colonel Richard "Dick" Atcherly and Captain Dudley "Mutt" Muller! These fearless, feckless, 50 percent furry fighter pilots must take to the skies in their flying machines to stop the rogue Predator's radioactive cargo from destroying civilization as we collectively pretend to know it! Collecting the entire six-issue miniseries, Dastardly & Muttley is a zany military satire like no other, mashing up Animal Farm, Dr. Strangelove and Wacky Races in the same anything-goes spirit as the smash-hit Flintstones series!

Florios arrive in Sicily, with nothing but the clothes on their back after an earthquake destroys their hometown. Against all odds, the family begins anew despite the looming Napoleonic wars and devastating plagues. But when Vincenzo is spurned by his aristocratic lover, he vows to avenge his honor by becoming the wealthiest man in Italy. Sacrificing love and family, he strives to buy what cannot be his by birth. Not to be outdone by the men, the Florio women unapologetically demand their place outside the restraints of caring mothers, alluring lovers, or wounded wives. Giulia, though only a mistress, is fiercely intelligent and runs the empire from the shadows. Angelina, born a bastard, charts her own future against the wishes of her father. In this epic yet intimate tale of power, passion, and revenge, the rise and fall of a family taps into the universal desire to become more than who we are born as. Tales of Courage and Kindness iPhone All-in-One For Dummies

What makes the Apple iPhone cool? Bang & Olufsen and Samsung's televisions beautiful? Any of a wide variety of products and services special? The answer is not simply functionality or technology, for competitors' products are often as good. The Soul of Design explores the uncanny power of some products to grab and hold attention—to create desire. To understand what sets a product apart in this way, authors Lee Devin and Robert Austin push past personal taste and individual response to adopt a more conceptual approach. They carefully explore the hypothesis that there is something within a "special" product that makes it—well, special. They argue that this *je ne sais quoi* arises from "plot"—the shape that emerges as a product or service arouses and then fulfills expectations. Marketing a special product is, then, a matter of helping its audience perceive its plot and comprehend its qualities. Devin and Austin provide keys to understanding why some products and services stand out in a crowd and how the companies that make them create these hits. Part One of the book introduces the authors' definition of plot in this context; Part Two breaks down the components needed to build a plot; Part Three describes what makes a plot coherent; Part Four takes on the challenges of making coherent products and services attractive to consumers. Part Four also presents detailed casework, which shows how innovators and makers have successfully brought special products to market. Readers will come away with a sensible and clear approach to conceiving of artful products and services. This book will help managers and designers think about engaging with plot, taking aesthetic factors into account to provide consumers with more special things.

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.
