The 4th Marine Division in World War II World Health Organization  
'A timely book and a conversation starter on race in Britain.'  
Rachel Edwards, Author of Darling and Lucky 'A timely book in a year that has made clear that Britain still has a very long way to go towards becoming the model of racial equality it aims to be.'  
Kenya Hunt 'Powerful and sometimes painful testimonies but they also provide uplifting and enriching experiences.' Stephen Bourne 'I'm so proud to hold this book in my hand. We are here in all our richness.' Adjoa Andoh, Actor, Director 'This book is such a moving read for everyone of all ages and races.' Colin Jackson, CBE 'A reinforcement of evocative truths that hurt and sting deeply but also empower tremendously.' Sharon Duncan-Brewster  
The whole world is watching. 25 May, 2020. George Floyd, a 46-year-old black man, is killed in Minneapolis while being arrested. His death, witnessed by horrified bystanders, is captured on camera - and within hours has spread far and wide across social media. We're all bystanders now. The protests that follow express shock, sorrow, and outrage. Because what's happened, has happened before - away from witnesses and cameras. The story didn't begin here, and this is not where it ends... STILL BREATHING assembles a cast of 100 black voices to talk about their experiences of racism in Britain. Actresses Suzette Llewellyn (Eastenders) and Suzanne Packer (Holby City) are joined by musicians, Members of Parliament, poets, artists, athletes, civil servants, doctors, lawyers, and more. Touching on Windrush and the workplace, race riots and reforms, these essays seek to educate, to bear witness - and to offer hope for a better future, in Britain and around the world.

Music moves through time; it is not static. In order to appreciate music we must remember what sounds happened, and anticipate what sounds might come next. This book takes you on a journey of music from past to present, from the Middle Ages to the Baroque Period to the 20th century and beyond!

"Cover Down Yuh Bucket is a credit to the persistence of those who have sought to recuperate aspects of the lost cultural heritage of a people.... The size of this volume and the wide sweep of its comparative data speak to the enthusiasm which Mottley and his co-writers have brought to this enterprise." [Prof. Maureen Warner-Lewis]"What is special about us is our people and their achievements. Sticklicking is one of these achievements, and should have a prominent place in our consciousness." [Elombe]

Focused on central nervous system (CNS) drug discovery efforts, this book educates drug researchers about the blood-brain barrier (BBB) so they can affect important improvements in one of the most significant - and most challenging - areas of drug discovery.

- Written by world experts to provide practical solutions to increase brain penetration or minimize CNS side-effects
- Reviews state-of-the-art in silico, in vitro, and in vivo tools to assess brain penetration and advanced CNS drug delivery strategies
- Covers BBB physiology, medicinal chemistry design principles, free drug hypothesis for the BBB, and transport mechanisms including passive diffusion, uptake/efflux transporters, and receptor-mediated processes
- Highlights the advances in modelling BBB pharmacokinetics and dynamics relationships (PK/PD) and physiologically-based pharmacokinetics (PBPK)
- Discusses case studies of successful CNS and non-CNS drugs, lessons learned and paths to the market
