 "A little masterpiece of originality and clarity."—George Steiner
 "A necessary book."—Roberto Saviano "A wonderful little book that will delight you."—François Busnel International Best Seller / Now in English for the First Time In this thought-provoking and extremely timely work, Nuccio Ordine convincingly argues for the utility of useless knowledge and against the contemporary fixation on utilitarianism—for the fundamental importance of the liberal arts and against the damage caused by their neglect. Inspired by the reflections of great philosophers and writers (e.g., Plato, Dante, Montaigne, Shakespeare, Borges, and Calvino), Ordine reveals how the obsession for material goods and the cult of utility ultimately wither the spirit, jeopardizing not only schools and universities, art, and creativity, but also our most fundamental values—human dignity, love, and truth. Also included is Abraham Flexner's 1939 essay "The Usefulness of Useless Knowledge," which originally prompted Ordine to write this book. Flexner—a founder and the first director of the Institute for Advanced Study in Princeton—offers an impassioned defense

of curiosity-driven research and learning.

Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

So much of the experience of everyday life, says Osho in this insightful guide, is shaped by religious and social conditioning — and we are not even aware of the fact. We are constantly being pulled away from the unique nature that is our birthright. In place of that original and unique self, a false self called the "ego" is constructed that eventually gains control of our creativity, our ideas about what it means to be successful, our relationships, and our very experience of who we are. At the same time, he argues, the collection of egos known as "society" shapes our political, educational, and religious institutions, which in turn combine to force the same old patterns onto new generations. In this book, Osho shows how to discard these old patterns in favor of a new and nurturing trinity of watchfulness, awareness, and alertness. The bundled DVD lets readers directly experience the insights of this important modern mystic.

Major New York Times bestseller Winner of the National Academy of Sciences Best Book Award in 2012 Selected by the New York Times Book Review as one of the ten best books of 2011 A Globe and Mail Best Books of the Year 2011 Title One of The Economist's 2011 Books of the Year One of The Wall Street Journal's Best Nonfiction Books of the Year 2011 2013 Presidential Medal of Freedom Recipient Kahneman's work with Amos Tversky is the subject of Michael Lewis's *The Undoing Project: A Friendship That Changed Our Minds* In the international bestseller, *Thinking, Fast and Slow*, Daniel Kahneman, the renowned psychologist and winner of the Nobel Prize in Economics, takes us on a groundbreaking tour of the mind and explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how

the two systems shape our judgments and decisions. Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by The New York Times Book Review as one of the ten best books of 2011, *Thinking, Fast and Slow* is destined to be a classic.

George Orwell's *Nineteen Eighty-Four* is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.

'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the *Daodejing* or *Classic of the Way and Life-Force* is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Think and Grow Rich is a motivational personal development and self-help book by Napoleon Hill. The book was heavily inspired by the work of Andrew Carnegie. One of the most influential works of this century, *The Myth of Sisyphus and Other Essays* is a crucial exposition of existentialist thought. Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning. With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.

When *The Unbearable Lightness of Being* was first published in English, it was hailed as "a work of the boldest mastery, originality, and richness" by critic Elizabeth Hardwick and named one of the best books of 1984 by the New York Times Book Review. It went on to win the Los Angeles Times Book Prize for Fiction and quickly became an international bestseller. Twenty years later, the novel has established itself as a modern classic. To commemorate the anniversary of its first English-language publication, HarperCollins is proud to offer a special hardcover edition. A young woman in love with a man torn between his love for her and his incorrigible womanizing; one of his mistresses and her humbly faithful lover -- these are the two couples whose story is told in this masterful novel. Controlled by day, Tereza's jealousy awakens by night, transformed into ineffably sad death-

dreams, while Tomas, a successful surgeon, alternates loving devotion to the dependent Tereza with the ardent pursuit of other women. Sabina, an independent, free-spirited artist, lives her life as a series of betrayals -- of parents, husband, country, love itself -- whereas her lover, the intellectual Franz, loses all because of his earnest goodness and fidelity. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence we feel, says the novelist, "the unbearable lightness of being" -- not only as the consequence of our private acts but also in the public sphere, and the two inevitably intertwine. This magnificent novel encompasses the extremes of comedy and tragedy, and embraces, it seems, all aspects of human existence. It juxtaposes geographically distant places (Prague, Geneva, Paris, Thailand, the United States, a forlorn Bohemian village); brilliant and playful reflections (on "eternal return," on kitsch, on man and animals -- Tomas and Tereza have a beloved doe named Karenin); and a variety of styles (from the farcical to the elegiac) to take its place as perhaps the major achievement of one of the world's truly great writers.
