A Novel John F Blair Pub

The People's Advocate is the autobiography of American Constitutional Trial Attorney Daniel Sheehan. Sheehan traces his personal journey from his working-class roots through Harvard Law School and his initial career in private practice. His early

disenchantment led to his return for further study at Harvard Divinity School, and rethinking the nature of his career. Eventually his role as President and Chief Trial Counselor for the famous Washington, D.C.-based Christic Institute would help define his role as America's preeminent cause lawyer. In The People's Advocate, Sheehan details "the inside story" of over a dozen historically significant American legal cases of the 20th Century, all of which he litigated. The remarkable cases covered in the book include both The Pentagon Papers Case in 1971 and The Watergate Burglary Case in 1973. In addition, Sheehan

served as the Chief Attorney on The Karen Silkwood Case in 1976, which additionally revealed the C.I.A.'s Israeli Desk had been smuggling 98% bomb-grade plutonium to the State of Israel and to Iran. In 1984, he was the Chief Trial Counsel on The American Sanctuary Movement Case, establishing the right of American church workers to provide assistance to Central American political refugees fleeing Guatemalan and Salvadorian "death squads." His involvement with the sanctuary movement ultimately led to Sheehan's famous Iran/Contra Federal Civil Racketeering Case against the Reagan/Bush Administration, which he investigated, initiated, filed, and then litigated. The resulting "Iran/Contra Scandal" nearly brought down that Administration, leading Congress to consider the impeachment over a dozen of the top-ranking officials of the Reagan/Bush Administration. The People's Advocate is the "real story" of these and many other historic American cases, told from the unique point of view of a central lawyer.

The Everyday Life of Law in the Indian Republic Wayne State University Press

We live in a moral world in which reasons come in different kinds as well as different weights, so that the claims of one reason upon us are often different from but no greater than the claims of

some other reason. Yet law, in its self-presentation and in theoretical accounts of it, proceeds as if its rational pull was conclusive, as if there were no sensible alternative to compliance with its terms. In itself that should not be surprising: each of us often acts as if the reasons that animate us were morally determinative. Why should law operate in any other way? Yet we know that in fact reasons are usually not determinative of action, and while pretence to the contrary may not much matter in individual settings, it matters very much in the setting of the law. The ability of the law to build a life in common, of whatever kind, is dependent on its ability to function, most of the time at least, as if its claims were pre-eminent, rather than undefeated at best. If law is to succeed in its basic project of binding people to its aims, it must buttress its limited rational claims with arational appeals. It needs partners, not only in the prudential considerations that force gives rise to, but also in the beguilement that shared imaginings make possible. This book is an exploration of those partnerships, in principle and in their most important details.

From a young age Albie Sachs played a prominent part in the struggle for justice in South Africa. As a result he was detained in solitary confinement, tortured by sleep deprivation and eventually blown up by a car bomb which cost him his right arm and the sight of an eye. His experiences provoked an outpouring of creative thought on the role of law as a protector of human dignity in the modern world, and a lifelong commitment to seeing a new era of justice established in South Africa. After playing an important role in drafting South Africa's post-apartheid Constitution, he was appointed by Nelson Mandela to be a

member of the country's first Constitutional Court. Over the course of his fifteen year term on the Court he has grappled with the major issues confronting modern South Africa, and the challenges posed to the fledgling democracy as it sought to overcome the injustices of the apartheid regime. As his term on the Court approaches its end, Sachs here conveys in intimate fashion what it has been like to be a judge in these unique circumstances, how his extraordinary life has influenced his approach to the cases before him, and his views on the nature of justice and its achievement through law. The book provides unique access to an insider's perspective on modern South Africa, and a rare glimpse into the working of a judicial mind. By juxtaposing life experiences and extracts from judgments, Sachs enables the reader to see the complex and surprising ways in which legal culture transforms subjective experience into objectively reasoned decisions. With rare candour he tells of the difficulties he has when preparing a judgment, of how every judgment is a lie. Rejecting purely formal notions of the judicial role he shows how both reason and passion (concern for protecting human dignity) are required for law to work in the service of justice.

The perfect gift for the lawyers in your life -- for law school graduation, birthdays, firm holiday gifts, retirement, or just because. More than 70 vignettes from life in the practice of law are rendered here as wryly humorous poems. Each one stands alone as the sort of snapshot one lawyer might forward along to another for a laugh or a knowing nod. Together, they comprise a collection to be treasured by anyone who has lived through law school, first jobs, thrilling victories, eye-opening disappointments, and the lifestyle particular to this career choice. This book is not about laughing at lawyers. It's about laughing with them. It's for everyone who's in on the joke: Everyone who has witnessed the madness and met the quirky characters in this field. Everyone who, even just for a second, has wondered if they should have gone to medical school, culinary school... anything other than law

school. Everyone who has ever sat down at the end of an evening and thought, "No one would even believe me if I told them about my day." We believe you. Editorial reviews: "In many of the poems, the authors capture perfectly the oddities of law practice and law school. 'Sisterhood' may be one of the most insightful poems that could be enjoyed within any profession. These poems... took the mundane and made it soar." - Arizona Bar Association "A book of candid truths and palpable honesty, with a sincerity that can only come from experience." - North Carolina Bar Association "A must-read for lawyers persisting in long-term practice who like to keep it light, who continue to muse on the sometimes bizarre world in which a lawyer finds himself or herself, and who simply enjoy a good poem." - Colorado Bar Association Featured on Above the Law and Bitter Lawyer. Named the SmallLaw Pick of the Week by TechnoLawyer. (Authors donate a portion of book proceeds to WomensLaw.org, The WomensLaw Project of the National Network to End Domestic Violence.)

Lawyers, You Can Revitalize Your Career Starting Today. Whether you are in law school or a senior partner at an Am Law 100 firm, this book can help you revitalize your career to find the perfect job and create your ideal career. Benjamin Barton, a law professor at the University of Tennessee, in his recent book on the legal profession, stated that only "44 percent of BigLaw lawyers report satisfaction with their careers." According to a 2014 Gallup poll, only 32.4% of professionals in the United States were engaged with their jobs. And over 15% were actively

disengaged. There is a disconnect between lawyer's passions and their work. Some lawyers detest their jobs. Others tolerate their work for the paycheck. Either way, these lawyers are detached and dissatisfied with their jobs. They desire something deeper and more meaningful in their work and career. This book can help you revitalize your career and achieve success, prosperity, and personal fulfillment. Success, prosperity, and personal fulfillment as you, and only you, define those terms. The Professional Prosperity For Lawyers System Through the career revitalization system in this book, you will use your strengths to achieve goals reflecting your personal vision of an ideal career. You will explore jobs aligned with who you are and create a career path you have only dreamed of pursuing. Your career revitalization is based on two central premises. First, lawyers must view their career as a business. Whether you are a lawyer at the largest law firm in the world or are a sole practitioner, you are a business. Your career should be run like a business. Second, run your business as an entrepreneur if you want to be successful, prosperous, and personally fulfilled. If you want to realize your dreams of a perfect job and ideal career, the career revitalization process provides the framework. Use the framework, follow the process, and take the actions. You will get your perfect job and create your ideal career. A career giving you the freedom to do the work you want to do. When you want to do it. And, with the people you want to do it with. Imagine getting up in the morning looking forward to your day. Being rested and full of energy. Controlling your schedule. Working on projects that interest and excite you. Collaborating with people you like and respect. Taking time off to spend with family and friends. Having time for leisure activities or

working on projects outside your job. This career revitalization system is grounded in the practices, processes and actions of many lawyers who are successful, prosperous and personally fulfilled. You will live your dreams by implementing the career revitalization process. Why I Can Help You Revitalize Your Career I had a successful legal career, developed a book of business over \$3.5 million, was an equity partner at two Am Law 100 firms, was an in-house counsel at a publicly traded investment bank, went from in-house counsel to a law firm partner and left the law on several occasions. Most importantly, I know how you can achieve success, prosperity and personal fulfillment, and I have a strong desire to help you discover the path to your ideal career and life. I also endured decades of boredom and stress as a practicing lawyer. I disliked much of my work and was frequently disengagement from it. Substance abuse, bouts of depression, divorce, and financial issues are part of my career story. And, consideration of suicide on more than one occasion. I could not enjoy the fruits of my career "success" story. I am now on a mission. A mission to help you create an epic career of success, prosperity and personal fulfillment. Now is the time to take action. Start today by buying and reading this book.

The People and Cases that Have Shaped Our Society, from King Alfred to Rodney King The People's Lawyer The Life and Times of Frank J. Kelley, the Nation's Longest-Serving Attorney General

Law is intended to apply to common life and should be comprehensible to ordinary folk, but increasingly, it is not. The meaning of the law is becoming inaccessible, not only to the public but to the bar itself. In The Life of the Law, Alfred H. Knight

outlines how some of the main contours of American law came to be as he recounts twenty-one stories beginning with Alfred the Great in the late ninth century and ending with the Rodney King trials in 1993. Knight gives us a veritable "biography" of our legal tradition by focusing on the key individuals, and the pivotal cases that have helped to mold the law as we know it today. *The Life of the Law* finds a riveting story behind each historic decision and recounts the tales with both narrative flair and ironic wit. The law is a living organism, constantly changing as new cases are decided, building on and modifying decisions that went before. Every case, no matter how lofty the principles involved, represents a human drama, a clash of competing desires. Alfred Knight's reflections on how twenty-one of these cases have left their mark on our society will inform and fascinate anyone interested in the law.

Written by Harvard-trained ex-law firm partner Liz Brown, *Life After Law: Finding Work You Love with the J.D. You Have* provides specific, realistic, and honest advice on alternative careers for lawyers. Unlike generic career guides, *Life After Law* shows lawyers how to reframe their legal experience to their competitive advantage, no matter how long they have been in or out of practice, to find work they truly love. Brown herself moved from a high-powered partnership into an alternative career and draws from this experience, as well as that of dozens of former practicing attorneys, in the book. She acknowledges that changing careers is hard much harder than it was for most lawyers to get their first legal job after law school but it can ultimately be more fulfilling for many than a life in law. *Life After Law* offers an alternative framework and valuable analytic tools for potential careers to help launch lawyers into new fields and

make them attractive hires for non-legal employers.

Spiritual development is an individual perception where we all must search for personal growth and for maximizing our capacities. We are not able to share our minds with anybody. From the first till the last breath of life we need other people to be a part of our life. We need a human connection to survive and thrive. Some people retreat themselves to a state of hermitic life. They escape from the world by searching for the inner self in places hidden from others. Every person has had or will have times when he/she wants to be alone. There is a need to get your mind focused and clear and being alone can help to reach that target. The time we need to alone vary from person to person.

 Where have we come from and where do we go? Why are human beings born? Are our lives just random events or do they have some greater purpose? What is the meaning of death? Nichiren Buddhism, based on the Lotus Sutra, is a teaching of hope that provides answers to these and other important questions for modern life. Ranked among the most important works in Mahayana Buddhism, Nichiren's 13th-century writings were revolutionary. They sought to give people a deep sense of confidence and self-reliance in this lifetime by exploring the topics of death and eternal life. In his *The Heritage of the Ultimate Law of Life*, Nichiren explains the ultimate Buddhist view, which frees people from both their fear of death and their unhealthy attachment to self. Daisaku Ikeda's simple and straightforward commentary brings alive this important writing for the modern world. Thoughtful people of all faiths will resonate with his compassionate insights on the universal teaching of happiness that is Nichiren Buddhism.

The most famous lawyer in America talks about the law, his life, and how he has won. Johnnie Cochran has been a lawyer for almost forty years. In that time, he has taken on dozens of groundbreaking cases and emerged as a pivotal figure in race relations in America. Cochran gained international recognition as one of America's best - and most controversial lawyers - for leading 'the Dream Team' defense of accused killer O.J. Simpson in the Trial of the Century. Many people formed their perception of Cochran based on his work in that trial. But long before the

Simpson trial and since then Johnnie Cochran has been a leader in the fight for justice for all Americans. This is his story. Cochran emerged from the trial as one of the nation's leading African-American spokespersons - and he has done most of his talking through the courtroom. Abner Louima. Amadou Diallo. The racially-profiled New Jersey Turnpike Four. Sean "P. Diddy" Combs. Patrick Dorismond. Cynthia Wiggins. These are the names that have dominated legal headlines - and Cochran was involved with each of them. No one who first encountered him during the Simpson trial can appreciate his impact on our world until they've read his whole story. Drawing on Cochran's most intriguing and difficult cases, *A Lawyer's Life* shows how he's fought his critics, won for his clients, and affected real change within the system. This is an intimate and compelling memoir of one lawyer's attempt to make us all truly equal in the eyes of the law.

If you've picked this book up, you fall into one of two categories. Chances are, if you go to law school you're someone who would be considered a "nontraditional" student. Or you're a "traditional" student (i.e., a student planning to go straight from college to law school) who is looking for a different perspective on the law school game. Either way, you'll find this book to be a valuable resource—from the initial stages of planning for law school through admissions, the first year, and right up to graduation and the bar exam. Other law school books focus on largely irrelevant factors such as rankings and employment in "prestigious" law firms. In short, while a large fraction of law students today would be considered nontraditional, there is little accurate, relevant

material to help nontraditional students navigate the admissions process and ultimately succeed in law school. That's where this guide steps in. This book is a distillation of the collective wisdom and experience of thousands of law students (including, yes, law review editors). With hundreds of excerpts, the information in this book is applicable to all law students... traditional and nontraditional alike. After combining parenting with law school, Charles Cooper practices law in Virginia (and continues as a practicing parent). As mid-life is upon him, he's considering a transition from yardwork to motorcycles. Book jacket.

Young People Who Challenged the Law-and Changed Your Life
Harvard University Press

Your life is impacted daily by decisions made in courts. The U.S. judicial system exists to provide "justice for all," including teenagers. But minors don't have the same legal rights as adults, so what happens when teens take it to court? *Young People Who Challenged the Law - and Changed Your Life* The teens in this book fought for issues that matter. The facts and real outcomes of their cases are here, along with information on related cases, tough questions to consider, and a follow-up "Get on the Case" section that further explores the big-picture possibilities for each issue. You'll deliberate over the cases, just as a judge would. It's up to you to weigh questions like: Can a parent of a minor give police permission to search a child's personal belongings - over the child's objection? Should it be illegal to wear gang colors or symbols? If a prayer at a school function is voluntary, does it violate the separation of church and state? Do parents have a right to prevent their daughter from getting an abortion? Once you know the facts and consider all the questions, you'll decide:

Did justice prevail or were teens denied? To be a fair judge, you need the whole story plus the background information.
