This book tells the story of the British Council's seventy-five year involvement in the field of English language testing. The first section of the book explores the role of the British Council in spreading British influence around the world through the export of British English language examinations and British expertise in language testing. Founded in 1934, the organisation formally entered the world of English language testing with the signing of an agreement with the University of Cambridge Local Examination Syndicate (UCLES) in 1941. This agreement, which was to last until 1993, saw the British Council provide substantial English as a Foreign Language (EFL) expertise and technical and financial assistance to help UCLES develop their suite of English language tests. Perhaps the high points of this phase were the British Council inspired Cambridge Diploma of English Studies introduced in the 1940s and the central role played by the British Council in the conceptualisation and development of the highly innovative English Language Testing Service (ELTS) in the 1970s, the precursor to the present day International English Language Testing System (IELTS). British Council support for the development of indigenous national English language tests around the world over the last thirty years further enhanced the promotion of English and the creation of soft power for Britain. In the early 1990s the focus of the British Council changed from test development to delivery of British examinations through its global network. However, by the early years of the 21st century, the organisation was actively considering a return to test development, a strategy that was realised with the founding of the Assessment Research Group in early 2012. This was followed later that year by the introduction of the Aptis English language testing service; the first major test developed in-house for over thirty years. As well as setting the stage for the re-emergence of professional expertise in language testing within the organisation, these initiatives have resulted in a growing strategic influence for the organisation on assessment in English language education. This influence derives from a commitment to test localisation, the development and provision of flexible, accessible and affordable tests and an efficient delivery, marking and reporting system underpinned by an innovative socio-cognitive approach to language testing. This final period can be seen as a clear return by the British Council to using language testing as a tool for enhancing soft power for Britain: a return to the original *raison d'être* of the organisation.

This book investigates the issue of cloze-validity as a measure of second language reading comprehension. It starts off by making a distinction between general reading ability and the more specific reading comprehension followed by a thorough review of the related research on L2 reading comprehension and sorting out the confusion in the literature in this categorization. A comprehensive account of cloze procedure is presented discussing its origin, different versions, its use for teaching and testing purposes, as well the latest research on cloze as measures of readability, language proficiency and second language reading. The book includes studies conducted at several stages on validating cloze as a measure of reading and interview and questionnaire techniques are applied to investigate the validity of eight cloze tests, criterion reading tests, and other cloze and reading tests in general. Two new cloze tests, i.e. reader-centered cloze test and phrase cloze test, are also introduced and researched as measures of reading ability. The book concludes with suggestions for developing tests that can better measure reading comprehension in light of recent research insights on the complex and dynamic nature of reading. This book will appeal to researchers, lecturers and graduate and post-graduate students taking a course in Second Language Acquisition, Applied Linguistics, TESOL, Language Assessment, and Educational Measurement.

As I write this, I reflect on my life - the hits (& misses), the bold and triumphant moments, the mistakes, joys and life lessons - I'm thrown back to a particularly quiet night picking up calls during a graveyard shift at my first job, where I spent most of my time robotically going through verbal scripts to handle customer complaints - not very fun, mind you. "Isn't it nice that our jobs are so easy and we don't have to think or do much?" asked my colleague, Vee, as he played some online games while handling a customer call. "Nice?" I asked. "This can't be what work should be - mind-numbingly, routine tasks requiring almost zero thought. Work must have passion, challenges and purpose - which this place definitely offer. Without these, what's the point?" "You know," Vee continued, "you should do your own business or write a book. All you ever do is write, plus you always have a ton of great ideas." The air around me seemed easier to breathe, as if immersed with opportunity. Now, I recognize why: This was my defining moment. Even though I'd spent much of my time writing, thinking and talking with people my thoughts and ideas - I didn't consider a career or business where I can apply what came naturally to me - my love for writing, ideation and application. Over the next few weeks, I left my job and got myself into a PR & Advertising agency to start learning and applying my craft. You see, our lives are full of defining moments. Some we invite; others we don't. Then, there are those we ignore - moments that would've, could've or should've become defining moments if we only dared to turn left or right, instead of continuing straight on. I've been there; I'm sure you have as well. Having regrets is a horrible thing to feel, let alone dwell on. These defining moments have the power to fundamentally change the course of our lives. As we fast approach the first half of 2015, it's a good time to reflect on how far we've come (or maybe,

where we've fell short), and think about what you're doing (or, not doing) to live the life you want. That's why for this issue of the easyuni University Guidebook, we've re-done how we create our #courses&careers section with the hope that it'll not only educate but inspire you. We also added new sections like #beinspired, #featuredmentor and #featuredstudent that showcases people who dared to chase their dreams. We hope it will help you recognize and react to your defining moments when they come. And trust me, they will come. I always tell my children, "Always step forward when you see an open door, even if you don't know where it will lead you." I've try to live off this mantra. But, doors can be scary when you can't see what's on the other side. My advice to you: Stop. Look around. Spot the open doors. Then choose: Stay put or step forward. You know the right choice. Trust it. The question is, do you dare? Be awesome & enjoy the read,
