Contents include: Synonyms/Antonyms, Word Origins, Figures of Speech, Using Context Clues, Analogies, Formal/Informal Language.

**Building a Strong Vocabulary** Wadsworth Publishing Company  
"In *Unlocking the Power of Academic Vocabulary*, Dr. Yu Ren Dong, an associate professor of English education at Queens College, City University of New York, helps secondary teachers expand their instructional repertoire to teach academic vocabulary in a systematic, meaningful, contextualized, and exciting way. Every secondary, subject-matter teacher will find strategies, easy-to-integrate activities, and tips on selecting words and planning lessons. As you teach with these strategies, your English language learners will be able to:

- tap into prior knowledge through cross-language transfer and cross-cultural comparisons;
- use concept-based vocabulary, such as analogies, metaphorical language, themes, sources, inquiry, and graphic organizers;
- interact with new words in context to decipher euphemisms, words with multiple meanings, connotation, and context clues;
- engage in interactive read-alouds, think-alouds, and wordplay; and
- master vocabulary through writing.

Charts, student examples, suggested resources, and subject-matter vocabulary lists give teachers the hands-on tools they need to teach the concepts behind words as well as the actual definitions, spelling, and sounds. Transform your academic vocabulary instruction into an engaging, skill-building mix that carries over

into students' reading, writing, thinking, and conversations in all subject areas."

**A Camping Spree with Mr. Magee** John Wiley & Sons

"Edward Fry has the uncanny as well as canny (choose your word) ability to take a complex concept?in this case vocabulary?and present it in a form useful to students and teachers." Allen Berger, Heckert Professor of Reading and Writing, Miami University "The Vocabulary Teacher?s Book of Lists will serve as an invaluable reference tool to any instructor involved in teaching English or designing project work. The content spans the grades from 4th up to college and is characteristic of Edward Fry?s contribution to be both comprehensive and creative." Pat Costigan, learning consultant, Bordentown Regional School District, New Jersey "Teachers who want to mix test-prep with life-success-prep will welcome The Vocabulary Teacher?s Book of Lists as an easy-to-use resource for lively lessons. They?ll enjoy the wry humor of Dr. Edward Fry?s teaching suggestions as he marries word work to wordplay." Lee Mountain, professor, curriculum and instruction, College of Education, University of Houston The Vocabulary Teacher?s Book of Lists offers content for literally hundreds of vocabulary improvement lessons for elementary and secondary teachers, self-improving adults, home schoolers, and students studying for their SATs. While there are dozens of shorter high interest lists of words, the core of the book is based on Latin and Greek roots and prefixes. But the largest list is Homophones. In fact it is one of the largest lists of homophones you will ever use. This list, like many others, is appropriate for spelling lessons or writer?s reference as well as vocabulary improvement. There are two dozen teaching methods in the Methods chapter and teaching suggestions to help improve reading and writing are scattered throughout the book. The lessons can be as short as a word-a-day or as long as a school year. The range of difficulty can go from upper elementary to college freshman classes, and be as diverse as adult education to English language learners.
