WALNECK'S CLASSIC CYCLE TRADER, FEBRUARY 2007 Causey Enterprises, LLC

For the first time the life of Edward Turner, one of Britain's most talented motorcycle designers, is revealed in full, so this is much more than just another book about Triumph motorcycles. Although seen by many as an irascible man who ran a very tight ship, it is an inescapable fact that that his was a highly profitable company. His hugely successful sales campaign after World War 2 stunned America's own manufacturers and had long lasting repercussions on their own home market. As Bert Hopwood once said to the Author, Turner was an inventive genius who had the flair for pleasing shapes and an uncanny ability to perceive what the buying public would readily accept, to produce it at the right price. No one will deny the impact made at the annual Motor Cycle Show by his aerial Square Four in 1931, his superbly-styled single cylinder Tiger models in 1936, and his revolutionary Speed Twin that dominated the Show in 1937. Even more was to follow with his post-war Thunderbird and Bonneville twins.

Packed with more than a hundred marvelous motorbikes, this revved-up collection will delight the motorcycle enthusiast. Expert author Hugo Wilson has loaded the book with the most exceptional machines ever to rule the roads. Superb, museum-quality photography and a clean and classic DK layout showcases each machine, while the text celebrates the appeal of each and every brilliant bike in the book. Test drive this essential visual history of the motorbike and you'll want to take it home.

BSA was once the world's most successful motorcycle company, manufacturing more machines than any other in the world by the mid-1950s. And yet, after winning the Queens Award to Industry for exports in 1967 and 1968, it collapsed into bankruptcy in 1973. This is an epic story of rise and fall, even by the precarious standards of the British motorcycle industry. With over 170

illustrations, this book recalls the founding of the company and its foray into bicycle and then motorcycle production. It describes the evolution of the various models of motorcycles including specification tables and discusses the diversification into cars, commercial vehicles and guns for Spitfires. It recounts the successes - two Maudes Trophies and numerous racing victories, and documents the fall from grace to bankruptcy and beyond.

While the history of European competition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.

Heroes of 1960s Motorcycle Sport Redline Books

The BSA and Triumph motorcycles designed for the 1971 model year, including Ariel 3 and the 750cc Triumph Hurricane. A study of related promotional and racing events, the US organisation, and BSA's financial position prior to 1971's devastating trading loss announcement.

If you remember off-road stars like the Rickman brothers' Vic Eastwood, Lew Coffin, and John Avery, then this is a must-have book for your collection. They're big names who brought the thrills and spills of the golden era of motorcycle sport to a whole generation. For the author, it's a personal trip down memory lane, as he was lucky enough to see many of these men and women at the height of their racing careers. Seventeen of the rider profiles in this book originally appeared over a three-year period in the pages of The Classic Motorcycle magazine, but the profile on the Rickman brothers - two of scrambling's true greats - has never been seen in print before. Accompanied by a totally new set of over 100 stunning photographs, this is a book that will evoke fond memories for all who share the author's love of motorcycle sport in a golden age.

Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of the many vehicles they worked on together

(Viper, Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby's larger-than-life personality, energy, interests and the many unpublished projects Carroll was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire 'Daisy,' the last Shelby Cobra. To his many fans, Carroll Shelby was truly 'the most interesting man in the world.'
