 the in-house preparation of quality control materials (QCMs)(PDF)
 The new ISO Guide 80: Guidance for the in-house ...ISO Guide 80
 outlines the essential characteristics of reference materials for
 quality control (QC) purposes, and describes the processes by
 which they can be prepared by competent staff within the facility
 in which they will be used (i.e. where instability due to
 transportation conditions is avoided). The content of this Guide
 also applies to inherently stable materials, which can be
 transported to other locations without risk of any significant
 change in the property values of interest.ISO - ISO Guide 80:2014
 - Guidance for the in-house ...ISO/REMCO, the ISO Committee on
 Reference Materials, has prepared ISO Guide 80, a guidance
 document for the in-house preparation of quality control
 materials (QCMs). QCMs are mostly used to monitor the
 performance of laboratory methods that have already been
 validated over time to be able to detect change or when a
 method goes out of statistical control.The new ISO Guide 80:
 Guidance for the in-house ...ISO Guide 80 - Guidance for the in-
 house preparation of quality control materials (QCMs) Reference
 materials (RMs) are widely used in measurement laboratories for

a variety of purposes, and it is important to recognise that the material most appropriate for a particular application should be used.
