Here's how to start your personal service business. Develop an icon, logo, and motto for your coaching clients. As a job or career coach, an executive coach, or a life coach, you will be presenting and classifying your client's competencies, writing resumes, cover letters, and creating a wide variety of business correspondence including sales letters, news releases, and direct mail copy. You will be planning events for your clients and their prospective employers. You'll need to really work a room to find clients as well as niches or jobs for clients when networking at professional associations and trade shows. Most frequently, you'll be asked to write,

evaluate, and repackage resumes, cover letters, and other summaries of qualifications of your clients. A resume is a summary of qualifications. A career coach helps clients find success by taking step-by-step detailed, concrete strategies that solve specific problems, get results, and reach a defined goal. A resume writing business online can be combined with a career coaching enterprise. The steps are outlined here for you to follow in chronological order to open and operate a resume-writing service business and also a career coaching enterprise, online from your home, mobile location, or office. You can telecommute online and still help people find direction by offering information, training, or consulting services. Here's how to open an online business at home presenting and packaging your clients' competencies. Make your living writing resumes, business letters, and

being a job coach. Help clients obtain appoints for interviews that may eventually lead to finding work. Write and repackage resumes and all types of business correspondence-from cover letters and follow-ups to direct mail or trade show sales letters.

It's the result you've gotten for yourself—and if you package it, you can offer your life coaching client a shortcut to the

success that you have had in your life. So, once you know the result you want to achieve with your life coaching client, you need to break down HOW you are going to life coach them to this end goal. and much, much more.....

An Action Research Study of Life Coaches

W. W. Norton & Company
Being happy doesn't have to be hard, says prominent personal coach Laura Berman Fortgang. We each possess an internal compass that expresses our individual wisdom and points to the things that would most fulfill us. Personal and professional satisfaction, Fortgang believes, comes from tapping into this wisdom. In *Living Your Best Life*, she offers ten tried-and-true strategies that help us to access our own inner knowledge to achieve what she calls a "best life"-a life that awaits all of us, in which gains come more easily because we've learned to honor our true desires and work with our individual talents rather than exhausting our energy on

a traditional model of achievement. Her techniques focus on asking ourselves what we really want instead of frenetically trying to "have it all." We learn to ask questions that move us forward, not backward, to discover our own unique "lucrative purpose," and to design a "magnet" life plan that draws to us the more rewarding existence we deserve.

Parenting a teenager may be the toughest job you'll ever have, says Roger Cross. But it is also one of the most important. Research confirms that parents are still the biggest influence on their children. And the way you parent your teenager in turn influences how your teen handles issues like goals, balance, anger and failure. Drawing on more than twenty-five years of experience working with Youth For Christ and raising two teens of his own, Cross unpacks the essential characteristics of a good coach and introduces five principles that will transform your relationship with your teen. Cross shows you how to help your teenager develop goals, find

balance in life, fail "forward" and cope with anger. Most importantly, he shows you how to come alongside your teenager to offer challenge, support and guidance in preparation for adult life.

The PDE study resulted in a comprehensive life coaching business plan template designed specifically for the life coaching industry. An action research methodology was utilized to offer a solution to a practical concern for life coaches starting a new business. In an effort to generate more successful life coaches and enhance the profession of coaching, the study

investigated two research questions: How is a business plan creation tool designed specifically for the life coaching profession useful for starting a life coaching business? What is the efficacy and effect of a specified life coaching business plan template? Six free workshops were held for life coaches and evaluated by a series of two debriefing questionnaires to contribute new knowledge on the usefulness and benefits associated with using a specialized business plan writing template. the majority of life coaches in the sample revealed they had not written a business plan for their life coaching business. Although coaches create a blueprint life plan with their clients, they are remiss in designing a blueprint to guide their life coaching business. Nearly all the life coaches in the study reported some benefit associated with use of the specialized life coaching business plan template, which included, but was not limited to: a moderate increase in income and clients; meeting business goals with moderate effectiveness; greater focus and clarity of the

business; a plan to follow; and enhanced optimism and confidence related to the success of the business. the most common benefit was the template was specific and unique for life coaches and the profession of life coaching. A secondary phenomenon was also observed. Although the life coaches in the study expected positive results from the use of their new business plan, a large percentage did not comply with implementation of their business plan written from the specialized template. In conclusion, recommendations from the results of the study included: the specialized business plan template could be further enhanced by a mechanism to increase implementation of the completed business plan; life coaches who refer to their specialized business plan template at least once a month or more will increase their number of clients and income; and recommendations by the subjects to improve the template may improve its value.

LifeCoach Your Teens McGraw Hill Professional University adult programs are recruiting and retaining the fastest growing student segment in higher education. Yet, two of the biggest challenges faced by organizations today are declining enrollment and decreasing retention rates. In this time of globalization, artificial intelligence, and shifting consumer preferences, it is not business or education as usual. The leading challenges faced by business and education sectors both are a declining workforce and enrollment retention

rates. Organizations, comprised of adult learners, need to adapt to accommodate this complex population. The updated Power of Life Coaching offers a how-to guide for business owners, organizational leaders, human resource development personnel, as well as enrollment personnel, seeking to address these challenges while transforming the lives of those they lead and serve along the way. Comparative research contrasting key missional alignment indicators determined that life coaching has the most significant transformational impact on adult learners' lives. In response, this ethical coaching model was developed based on adult experiential learning and values-based institutional assessment, all in alignment with the International Coach Federation's ethically founded competencies. This text is theoretically based, delivering a coaching technique for adult learner satisfaction, leading to increased retention rates. The Power of Life Coaching is a manual for assisting personnel and teams to fully embrace and live out their mission and values.

Group Life Coaching Blueprint Being a life coach is a fulfilling way to make money doing what you love, while making a difference! But, the truth is that not all life coaches are successful. Some never learn the skills they need to create a thriving business, and others get stuck because they're only able to reach a certain level of success, and income, by meeting one-on-one with clients. There is only so much time in a day, some of which is spent on marketing and other business-related-stuff. Once a coach fills their schedule with clients, they reach the ceiling of their growth. Their only option is to raise their rates, but this isn't always easy or even appropriate, depending on the population they serve. The good news is that there is a way to serve more people and increase revenue at the same time. The secret to creating a successful life coaching business is offering group life coaching programs. Think about it, much of what you do with each client is exactly the same. If you say the same thing 10 times to 10 different people, why not say it to

all of them at once? If you develop a program out of your coaching process, you can walk a group of people through the same coaching activities and steps, together. By creating a group coaching business, you can: 1) reach more people in less time, 2) offer an easy-to-sell low-cost option, 3) upsell your favorite clients to one-on-one coaching, 4) create a more predictable schedule and income, and 5) increase your per-hour revenue (\$50 x 10 is greater than \$150 x 1). In this book, you will find the exact blueprint that thousands of our life coaching students have used to create their own group life coaching programs. You'll learn everything you need to: 1) turn the process you use with your clients into a complete group coaching curriculum, 2) learn professional communication and facilitation skills so you can effectively manage and lead your group, and 3) structure your offer, set your price, and create marketing campaigns that fill your groups.
