Reflections on Redecorating Nature

Beastly Body
A surprising, humorous, and graphically exquisite presentation of sixteen classic animal poems that spark with fun and cleverness.
Beastly Edinburgh
eBookIt.com
Bats, beetles, wolves, butterflies,

bulls, panthers, apes, leopards and spiders are among the countless creatures that crowd the pages of literature of the late nineteenth century. Whether in Gothic novels, science fiction, fantasy, fairy tales, journalism, political discourse, realism or naturalism, the line between the human and the animal becomes blurred.
Beastly Journeys

examines these bestial transformations across a range of well-known and less familiar texts and shows how they are provoked not only by the mutations of Darwinism but by social and economic shifts that have been lost in retellings and readings of them. The physical alterations described by George Gissing, George MacDonald, Arthur Machen, Arthur Morrison, W.T.

Stead, Bram
 Stoker, H.G.
 Wells, Oscar
 Wilde, and
 many of their
 contemporaries,
 are responses to
 changes in the
 social body as
 Britain
 underwent a
 series of social
 and economic
 crises.
 Metaphors of
 travel social,
 spatial,
 temporal,
 mythical and
 psychological
 keep these
 stories on the
 move,
 confusing
 literary genres
 along with the
 indeterminacy
 of physical
 shape that
 they relate.
 Beastly

Journeys will
 appeal to
 anyone
 interested in
 the
 relationship
 between
 nineteenth-
 century
 literature and
 its contexts
 and especially
 to those
 interested in
 the fin de
 siècle and in
 metaphors of
 travel, animals
 and shape-
 changing.

 Strange. In

the great tradition of poets like Ogden Nash, Marianne Moore, and Edward Gorey, Strange's strange 21st-century bestiary offers a roaring good time, horselaughs aplenty, and the inevitable purrs of cuddlesome readerly contentment. With slitheringly seductive wordplay, strange molts words into new meanings. He hatches high-soaringly delightful lines and swallows

common-sense headfirst until only a smile remains and the piggy toes of reality are left wriggling. *Beastly Bestiary-A tender treat of soft chewy poems guaranteed not to create intellectual indigestion or starve one's funny bone.* *A Beastly Christmas* Oxford University Press An engaging, thoughtful look at the science and ethics of research into animal behavior.

Beastly Menagerie Routledge Bacteria are unicellular organisms found in nearly every corner of the globe. Some can be found in the most extreme places where no human could ever survive while others are vital for keeping the human body working. Unfortunately, even good bacteria can make a person sick. Through these colorful illustrations and fun narrative,

young readers will learn about bacteria and how different kinds affect different creatures. The inviting, conversational tone keeps readers interested in the fascinating and complex inner workings of bacterial infections.

The Big Book of Beastly

Mispronunciations Bradt Guides
Discover how the natural world inspires innovation in science and technology to create the latest and

greatest breakthroughs and discoveries in this exciting book. Did you know that scientists have developed a bionic tool shaped like an elephant's trunk that helps lift heavy objects? Or that the needle-like pointed beak of the kingfisher bird encouraged engineers in Japan to change the design of the Shinkansen "bullet trains" to reduce noise? Across multiple fields

of study and methods of problem-solving, scientists are turning to biomimicry, or engineering inspired by biology or nature, to make all kinds of cool technological advancements . From robots that protect people and gather information to everyday inventions, like reflectors on the roads and ice-proof coatings for airplanes, to new sources of renewable energy, this book dives into the ways

that nature can give us ideas on how to improve our world.

Discover more than 40 examples of technology influenced by animals, learn about some of the incredible creatures who have inspired multiple creations, and meet some of the scientists and the stories behind their inventions.

creatures such as rat warriors.

The Beastly Island Murder

Lerner Publications™
In *Beastly Possessions*, Sarah Amato chronicles the unusual ways in which Victorians of every social class brought animals into their daily lives.

Captured, bred, exhibited, collected, and sold, ordinary pets and exotic creatures – as well as their representations – became commodities within

Victorian Britain's flourishing consumer culture. As a pet, an animal could be a companion, a living parlour decoration, and proof of a household's social and moral status. In the zoo, it could become a public pet, an object of curiosity, a symbol of empire, or even a consumer mascot. Either kind of animal might be painted, photographed, or stuffed as a taxidermic specimen. Using

evidence ranging from pet-keeping manuals and scientific treatises to novels, guidebooks, and ephemera, this fascinating, well-illustrated study opens a window into an underexplored aspect of life in Victorian Britain.

Beastly Brains
Pronoun
Ancient dragons breathed fire and gobbled up humans. Fierce mythical griffins had the heads of eagles and the

bodies of lions. More recently, people have reported chupacabras drinking the blood of farm animals. These monsters and more have frightened people for centuries, and have made their way into the books, movies, and games we love. Are these beasts real or imaginary? That's not always clear. Tear into this book to learn the facts and fiction of beastly monsters . . .

if you dare!

Beastly Body
Temple University Press
In 1892, New Fiddleham, New England, things are never quite what they seem, especially when Abigail Rook and her eccentric employer, R. F. Jackaby, are called upon to investigate the supernatural. First vicious shape-shifters disguise themselves as a litter of kittens, and a day later, their owner is found murdered. Then in

nearby Gad's Valley, now home to the exiled New Fiddleham police detective Charlie Cane, dinosaur bones from a recent dig mysteriously go missing, and an unidentifiable beast starts attacking animals and people, leaving mangled bodies behind. Charlie calls on Abigail for help, and soon Abigail and Jackaby are on the hunt for a thief, a monster, and a murderer.

Beastly

Questions
 Random House Books for Young Readers
 A creepy Victorian house, secretive aunties, and a great escape combine in this debut that is part Mysterious Benedict Society, part Roald Dahl, and all quirky, smart, hilarious storytelling. Join the League. . . . Anastasia is a completely average almost-eleven-year-old. That is, UNTIL her parents die in

a tragic vacuum-cleaner accident. UNTIL she's rescued by two long-lost great-aunties. And UNTIL she's taken to their delightful and, er, "authentic" Victorian home, St. Agony's Asylum for the Criminally Insane. But something strange is going on at the asylum. Anastasia soon begins to suspect that her aunties are not who they say they are. So when she meets Ollie and

Quentin, two mysterious brothers, the three join together to plot their great escape! "Marvelously inventive and utterly demented, THE LEAGUE OF BEASTLY DREADFULS is nasty good fun from beginning to end!" -- Bruce Coville, My Teacher is an Alien "WONDERFULLY WITTY. It reminds me of Roald Dahl's The Twits only in an insane asylum."—Chris Grabenstein, Escape from Mr. Lemoncello's Library * "A yummy debut."—Kirkus Reviews, starred review "Just the right mix of humor, magic, maliciousness, and suspense"—Booklist "Anastasia is anything but average, and her adventures are just beginning."—Publishers Weekly "Enough mystery and humor to keep readers wondering what will happen next. A solid debut reminiscent of Lemony Snicket's "A Series of Unfortunate Events."-- School Library Journal "Abundant humor.... Charmingly offbeat ...sure to entertain."-- The Bulletin of the Center for Children's Books Beastly Morality Booktango Not everyone is born with the firm, round, sculpted, or strong calves, biceps, and glutes of their dreams. Whether you want a body that is defined, aesthetic, muscular,

lifted, shredded, or strong, Beastly Body can help make your dreams a reality. Beastly Body contains the entire Beastly Body fitness series, including: Beastly Biceps, Killer Calves, and Glorious Glutes For those who want to banish their lagging body parts to the distant past, Beastly Body will help turn your challenging areas into sculpted perfection. For those who want to be fit,

bring variety to their exercise routines, add bicep, calf, and glute development, or maintain what they have already worked so hard to attain, Beastly Body is for you too. Beastly Body offers a broad range of tools, exercises, insights, and ideas to help shape and sculpt your body, particularly your biceps, calves, and glutes. So, if you're a hard gainer who has tried everything—or think you

have—to build your biceps, calves, and glutes, Beastly Body will give you many novel ways to push your limits and help your muscles grow. If you're looking to sculpt and tone, Beastly Body will provide you with a host of options to achieve the look you're after. Or, if you're already jacked and looking to add a bit of variety and new options to your routines, Beastly Body will give you innovative ideas and

programs to torture yourself both at home and in the gym. Whether you're a fitness beginner looking for help, a seasoned bodybuilder or fitness professional looking for that little edge, someone who wants to get in shape, or an exercise enthusiast looking for new approaches and concepts, *Beastly Body* will help you improve your body. Everyone

deserves a pair of beastly biceps, killer calves, and glorious glutes! *A Frog Prince Retelling* Harper Collins A beast. Not quite wolf or bear, gorilla or dog but a horrible new creature who walks upright—a creature with fangs and claws and hair springing from every pore. I am a monster. You think I'm talking fairy tales? No way. The place is New York City. The time is now. It's no deformity, no disease. And

I'll stay this way forever—ruined—unless I can break the spell. Yes, the spell, the one the witch in my English class cast on me. Why did she turn me into a beast who hides by day and prowls by night? I'll tell you. I'll tell you how I used to be Kyle Kingsbury, the guy you wished you were, with money, perfect looks, and the perfect life. And then, I'll tell you how I became

perfectly . . .
 beastly.
*Beastly

 Proceedings of
 the Ever So
 Strange, each
 entry is an
 enlightening
 and marvelous
 foray into our
 world and all
 its wonders . .
 . topped off
 with a
 soupçon of

silliness. An excerpt
Sharks are pretty pleased with themselves, and so they should be. You see, they are basically rippling slabs of muscle in gunmetal grey, with row upon row of huge razor-sharp teeth—awesome eating machines that have remained unchanged for millennia. . . . Of course, some sharks don't look so tough. Think of the bizarre hammerhead, goblin, and frilled sharks.

Not that they're to be trifled with. And then there's the cookie cutter shark, a sniveling little guttersnipe who looks more like a fat lady's arm holding a kitchen utensil than the pinnacle of predatory evolution. Beastly Bionics Gareth Stevens Publishing LLLP David Attenborough, Dion Leonard (Finding Gobi), Dervla Murphy and Brian Jackman are just four of the authors whose

work features in this new anthology from Bradt focusing on true stories about travelling with animals. In Beastly Journeys, there are 46 tales of extraordinary animal travel experiences, from hilarious holidays with pets to journeys on which wild animals somehow came along for the ride, including: David Attenborough tries to get an armadillo through Paraguayan

customs;
