Crazy long range wireless video kit with multiple cameras Intelligent Wireless Video Camera Using Abstract. The Intelligent Wireless Video Camera described in this paper is designed using wireless video monitoring system, for detecting the presence of a person who is inside the restricted zone. This type of automatic wireless video monitors is quite suitable for the isolated restricted zones, where the tight security is required. The principle of remote sensing is utilized in this, to detect the presence of any person who is very near to reference point with in the zone.
