As a whole, the e-commerce industry is ANTIQUATED. It's out of date! and is way way way behind in terms of what's actually working in the world of online business. Most e-commerce business owners are still doing things in the same way they were done back in the early dot com days. And that my friend is a recipe for disaster. There is SO much more to e-commerce than building a

store, filling it with products, and driving some traffic. If that describes you and your business, then let this be your wake up call! In this *Ecommerce Business Essentials* book, you will discover the 7C Method, an end-to-end brand strategy designed specifically for eCommerce. This book is literally the step-by-step blueprint to building a successful and highly profitable eCommerce business and the private community is the support group that will help you along the way.

Learn the perfect strategy to start and run e-commerce for every end of the year even if you are brand new Do you want to start an e-commerce business but don't know how or when to get started? End of the year is always a guaranteed time to start and create your online dropshipping e-commerce store because it a period of time when everyone is tempted or must purchase a product

for either themselves or loved ones. Think about it, there are over \$5 billion transaction made in the United State (other country is excluded!) on a single day (BLACK FRIDAY) last year, not to even talk of Cyber Monday and some other End of the (December) year promotion strategy that help in generating massive amount of money. What idea does that pump to your brain? Note that the most money transacted in that single day go to dropshipper (people like you) and some other giant e-commerce website like Amazon, eBay, and Walmart e.t.c. Now it another end of the year! Black Friday, Cyber Monday and Christmas (rush-sale period) is on the way and much more transaction is going to be made than last year and people like you (Shopify and other online store owner) are going to make the most money! Whether you are a brand new to e-commerce or you are already into it but looking (1) for a way to triple your income, (2) the right strategy that will help you take your store to the next level, (3) separate yourself from your competitor, (4) own a highly reputable e-

commerce brand and (5) run smarter promotion than your competitor. The blueprint you needed is outlined step by step in this book. Each chapter in this book is meant to deliver a great value that will help you run a better online dropshipping e-commerce business and can also be applied during the year (not only the end of the year) but mostly meant for every end of the year. Below is a glimpse of what you are going to learn in this book. The best strategy to start and run retail product promotion and free + shipping product promotion. How to sell more product, reach more people and quickly Blitz your facebook pixel, fan page and email list. The never revealed blueprint behind selling more product on Black Friday, Cyber Monday, end of the year (Christmas) period of time and how anybody (both beginner and expert) can apply this strategy to their online store businesses. Why you need social proof for your e-commerce business. The best way to get customer to review your product for social proof and how to use that review to get more sales. The secret behind collected (Shopify) customer data and how to

use it for advance facebook targeting and much more!!! Even if you have run e-commerce store several times and failed, the strategy I outlined in this book is proven to help you run a successful online store, create a reliable brand, makes you money you deserve and transform your business. Furthermore, this book is written in plain simple English and easy to follow step by step guide. NOTE; The strategy outlined in this book can also be applied for the beginning of the year. To learn what it takes to run a better black Friday, Cyber Monday, end of the year campaign and own a profitable e-commerce business, click the BUY NOW button at the top right of this page! *Amazon FBA Blueprint* Ajcomfortpublishing. Do you want to build your own website but don't know where to start? Have you been put off by all the jargon and gobbledygook of other Internet guides? If so then this plain, easy WordPress tutorial is the ideal place to start. Now a #1 Amazon Best Seller on Kindle Books, this popular, up-to-date, step-by-step guide by expert Sarah McHarry will walk you

through the essential first steps to building your own website or blog using WordPress. In eight easy lessons you will have your own website up and running - without needing to know any geeky computer code! And, in the remaining 12 lessons, you'll learn all you need to know about creating a website and making it into your own, unique, web presence. What you'll learn in this book: How to register your own domain and get the right WordPress hosting. How to install WordPress with a few clicks of the mouse. How to design a professional-looking website. How to add and format your content. How to use graphics and images. All about themes, plugins, widgets and other WordPress tools ... and lots more.. If you want to make a website that looks like it was designed by a pro then WordPress is the ideal tool to use. Designing a website need not be difficult or expensive if you have the right guidance. Sarah's WordPress tutorial walks you through creating a website yourself using step-by-step lessons that are easy to follow. Making a website as a beginner has never been easier! Why should you build your

own website on your own domain instead of using a free service? The answer is that, with your own privately registered domain and hosting account, YOU own and control the website, not anybody else. You can put whatever you like on your site and no-one can tell you otherwise. You can make your site look and behave how you like. You're the boss. And, with your own website, you can build your own distinctive 'brand', whether you are a business or a community group, an individual, or whatever... Your domain becomes your own exclusive web address, your own piece of online virtual 'real estate' that plays its part in publicizing your mission or message. Creating a website on your own domain gives you identity, visibility and, indeed, status. But don't you need a professional web designer to make a good job building a website? No, definitely not! This was the case in the early days of the Internet because only a few tech-savvy geeks knew and understood the computer language (HTML) required. But as the technology has advanced, so have the tools to build

websites become more accessible. WordPress is one of these tools and WordPress is the subject of this e-book. But how much does it cost to make a website? The answer is just a few bucks per month for hosting. If you create your own website using WordPress, you don't have to spend another cent. And what if you're looking to start a blog? Well, the same instructions apply. WordPress was originally designed as a blogging platform and this ebook shows you just how to build a blog using the same techniques as designing a website. Whether you want to create a simple WordPress blog or design a full-blown ecommerce site, Sarah's 'WordPress To Go' will start you off on the right foot.

Step-By-Step Blueprint To Launch Your Shopify Store FAST And Make Money Independently Published

Growth and advancements in technology and the internet have made it possible for a number of business models to spring up and new industries created. One of these is the e-commerce industry which as of 2019 was valued at about 9.09

trillion dollars and is estimated to grow at a constant annual growth rate of 14.7 percent over the next seven years from 2020 to 2027. That's massive, isn't it? The e-commerce industry has created multimillion-dollar companies, as well as made more multimillionaires and billionaires than any other sector outside of ICT itself. The likes of Jeff Bezos, Jack Ma, Richard Liu, and many others are billionaires through e-commerce. And not just that, ecommerce has turned thousands of small-scale e-commerce entrepreneurs into millionaires and multi-thousand-dollar businesses. And this trend is not about to stop anytime soon. As more technology and improvements in value delivery systems are made. More billionaires and millionaires would emerge from e-commerce... And this is the reason why you need to put on your entrepreneur spectacles and look closely at the e-commerce space, find opportunities you can take advantage of, and start milking your own dollars from the lucrative e-commerce industry. In this book, I am going to

show you how to start and grow a multimillion-dollar e-commerce business even if you are a complete beginner. This book will point you in the right direction and with adequate planning, execution, and luck on your side, you will start turning in sales and massive profits in no time. Let's dive in. It's getting even more exciting.

For sure, you've heard a lot about selling physical products on Amazon lately. But why Amazon? Simply because it's the biggest online store to ever have been - and probably that will ever be - created! If you're interested in e-commerce, Amazon is the right place for you. Another often-overlooked reason to sell on Amazon is its Prime clients. When you let Amazon handle the shipping, your products become eligible to be sold to millions of Amazon Prime clients that will receive any order of any size in just 2 days. So if you're asking yourself "Should I sell there?" the answer is YES! "But aren't there tons of competitors?" Yes, but IT'S NOT IMPORTANT! By opening its platform to third-party sellers, Amazon immediately created one of the biggest opportunities ever for entrepreneurs: it opened

its store on its pages, selling to over 225 million clients! There are different ways you can sell on Amazon, but probably selling products with the distributor's own label is by far the best method to reach success. You're basically creating a brand with private labelling of a product that already sells well on Amazon. This not only makes you avoid having to reinvent the wheel, trying to create and market something new, but also making you compete for the "buy box". When you create your own brand, you distinguish yourself by being the only seller offering your product. This way you can keep all your profits, 100% of the time! The aim is to find a product, create a brand and sell more products in different countries that buy from Amazon. This book will guide you through the fundamentals of Amazon FBA. You will learn: - What Amazon FBA is - What are and how to use the algorithms - What the best market strategy is - Time is money - Finding products - Getting clicks ...and more! But wait, it's not over yet! You have another possibility to make big money. Have you decided to start your

online activity by selling products? Shopify is the solution. If you're interested in selling any-size products or any services, Shopify is the simplest platform to build your ecommerce. We will now see how to use the Shopify platform in the following chapters: - What Shopify is - Maximize your profit - Shipping fees - Get the right Shopify key word - Backlink Shopify - Steps to build your online shop - Strategies for the correct pricing ...and much more! The term "e-commerce" was coined to indicate any sort of online transaction. E-commerce is a great way to find products straight from home. Shopify has grown significantly since its launch in 2006. The greatest thing about it is that you don't need to own a company to use this resource. You can sell things from home, if you wish. This makes Shopify a great way to sell what you make.
