All Summer in a Day Harper Collins

NINE YEAR OLD Margot remembers the sun. "[A] yellow crayon or a coin large

enough to buy the world with . . . a warmness, like a blushing in the face, in the body, in the arms and legs and trembling hands." In Ray Bradbury's revered short story, "All Summer in a Day," the last time Margot saw the sun was when she was four years old and still living on Earth. After her family moved to Venus a year later, she longed to see the sun again and to feel its warmth on her skin. On the one day every seven years when it stops raining on Venus and the sun breaks through the perpetual cloud cover to brighten the landscape for a brief two hours, Margot is locked away in a dark closet by her jealous classmates. Readers familiar with the graceful and poetic writing of Ray Bradbury - and those new to his literary magic - will find themselves empathetic toward a young girl who is kept from feeling and seeing the sunlight by her mean-spirited peers. Jump forward in time and meet Margot at 16. In the story "When the Rain Stops," Jason Marchi provides one plausible and satisfying answer to the question left in readers' minds at the end of Bradbury's classic tale of aloneness - whatever happened to Margot?? Foreword by William F. Nolan, co-author of *Logan's Run*, one of the most seminal novels in the annals of science fiction.? Introduction by Dr. Jonathan R. Eller, Director of the Center for Ray Bradbury Studies at Indiana University Purdue University Indianapolis (IUPUI).? Discussions section for creative writing students.? Bonus letter from Bradbury to Marchi in March of 2002.

SHORTLISTED FOR THE BOOKER PRIZE 202100A soaring, breathtakingly ambitious novel that weaves together the astonishing lives of a 1950s vanished female aviator and the modern-day

Hollywood actress who plays her on screen. From the night she is rescued as a baby out of the flames of a sinking ship; to the day she joins a pair of daredevil pilots looping and diving over the rugged forests of her childhood, to the thrill of flying Spitfires during the war, the life of Marian Graves has always been marked by a lust for freedom and danger. In 1950, she embarks on the great circle flight, circumnavigating the globe. It is Marian's life dream and her final journey, before she disappears without a trace. Half a century later, Hadley Baxter, a scandal-ridden Hollywood actress whose own parents perished in a plane crash is irresistibly drawn to play Marian Graves, a role that will lead her to probe the true mystery behind the vanished pilot.

This masterfully crafted horror classic, featuring a brand-new introduction by Dan Simmons, will bring you to the edge of your seat, hair standing on end and blood freezing in your veins. It's the summer of 1960 and in the small town of Elm Haven, Illinois, five twelve-year-old boys are forging the powerful bonds that a lifetime of change will not break. From sunset bike rides to shaded hiding places in the woods, the boys' days are marked by all of the secrets and silences of an idyllic middle-childhood. But amid the sundrenched cornfields their loyalty will be pitilessly tested. When a long-silent bell peals in the middle of the night, the townsfolk know it marks the end of their carefree days. From the depths of the Old Central School, a hulking fortress tinged with the mahogany scent of coffins, an invisible evil is rising. Strange and horrifying events begin to overtake everyday life, spreading terror through

*All Summer Long*, a coming-of-age middle-grade graphic novel about summer and friendships, written and illustrated by the Eisner Award-winning and New York Times–bestselling Hope Larson. Thirteen-year-old Bina has a long summer ahead of her. She and her best friend, Austin, usually do everything together, but he's off to soccer camp for a month, and he's been acting kind of weird lately anyway. So it's up to Bina to see how much fun she can have on her own. At first it's a lot of guitar playing, boredom, and bad TV, but things look up when she finds an unlikely companion in Austin's older sister, who enjoys music just as much as Bina. But then Austin comes home from camp, and he's acting even weirder than when he left. How Bina and Austin rise above their growing pains and reestablish their friendship and respect for their differences makes for a touching and funny coming-of-age story.

Contrary to optimistic visions of a free internet for all, the problem of the 'digital divide' – the disparity between those with access to internet technology and those without – has persisted for close to twenty-five years. In this textbook, Jan van Dijk considers the state of digital inequality and what we can do to tackle it. Through an accessible framework based on empirical research, he explores the motivations and challenges of seeking access and the development of requisite digital skills. He addresses key questions such as: Does digital inequality reduce or reinforce existing, traditional inequalities? Does it create new, previously unknown social inequalities? While digital inequality affects all aspects of society and the problem is here to stay, Van Dijk outlines policies we can put in place to mitigate it. *The Digital Divide* is required reading for students and scholars of media, communication, sociology, and related disciplines, as well as for policymakers. *Summer of Brave* John Wiley & Sons  
 The summer's day in question is the 24 hours of one June 26, as endured by a police department in the north of England. This masterful police procedural is more convincing than those of Joseph Wambaugh--because the events of June 26 are all too terribly believable.

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY CHICAGO TRIBUNE AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Los Angeles Times • The Boston Globe • The Seattle Times • The Independent In such acclaimed novels as *Let the Great World Spin* and *TransAtlantic*, National Book

Award-winning author Colum McCann has transfixed readers with his precision, tenderness, and authority. Now, in his first collection of short fiction in more than a decade, McCann charts the territory of chance, and the profound and intimate consequences of even our smallest moments. "As it was, it was like being set down in the best of poems, carried into a cold landscape, blindfolded, turned around, unblindfolded, forced, then, to invent new ways of seeing." In the exuberant title novella, a retired judge reflects on his life's work, unaware as he goes about his daily routines that this particular morning will be his last. In "Sh'khol," a mother spending Christmas alone with her son confronts the unthinkable when he disappears while swimming off the coast near their home in Ireland. In "Treaty," an elderly nun catches a snippet of a news report in which it is revealed that the man who once kidnapped and brutalized her is alive, masquerading as an agent of peace. And

in "What Time Is It Now, Where You Are?" a writer constructs a story about a Marine in Afghanistan calling home on New Year's Eve. Deeply personal, subtly subversive, at times harrowing, and indeed funny, yet also full of comfort, *Thirteen Ways of Looking* is a striking achievement. With unsurpassed empathy for his characters and their inner lives, Colum McCann forges from their stories a profound tribute to our search for meaning and grace. The collection is a rumination on the power of storytelling in a world where language and memory can sometimes falter, but in the end do not fail us, and a contemplation of the healing power of literature. Praise for *Thirteen Ways of Looking* "Extraordinary . . .

incandescent."—Chicago Tribune "The irreducible mystery of human experience ties this small collection together, and in each of these stories McCann explores that theme in some strikingly effective ways. . . . [The first story] is as fascinating as it is poignant. . . . [The second] captures the mundane and mysterious aspects of shaping characters from the gray clay of words, placing them in realistic settings and breathing life into their lungs. . . . That he makes the story so emotionally compelling is a sign of his genius. . . . The most remarkable [piece] is *Sh'khol*. . . Caught in the rushing currents of this drama, you know you're reading a little masterpiece."—The Washington Post "McCann is a writer of power and subtlety and beauty. . . . The powerful title story loiters in the mind long after you've read it."—Sarah Lyall, *The New York Times* "[McCann] unspools complex and unforgettable stories in this, his first collection in more than a decade."—The Boston Globe "McCann is a passionate writer whose impulse is always toward a

generous understanding of his diverse characters.”—The Wall Street Journal  
 “Powerful, profound, and deeply empathetic, McCann’s beautifully wrought writing in *Thirteen Ways of Looking* glides off the page.”—BuzzFeed  
 “McCann weaves the magic that made *Let the Great World Spin* so acclaimed.”—The Huffington Post  
*An American Crisis* Sally Henson  
 One of The New York Times’ 16 New Books to Watch for in March One of Publishers Weekly’s Most Anticipated Books of the Year One of Newsweek’s Most Highly Anticipated Books of the Year One of BuzzFeed’s Most Anticipated Books the Year Based on the acclaimed series—a finalist for the Pulitzer Prize—an intimate account of the devastating effects of gun violence on our nation’s children, and a call to action for a new way forward In 2017, seven-year-old Ava in South Carolina wrote a letter to Tyshaun, an eight-year-old boy from Washington, DC. She asked him to be her pen pal; Ava thought they could help each other. The kids had a tragic connection—both were traumatized by gun violence. Ava’s best friend had been killed in a campus shooting at her elementary school, and Tyshaun’s father had been shot to death outside of the boy’s elementary school. Ava’s and Tyshaun’s stories are extraordinary, but not unique. In the past decade, 15,000 children have been killed from gunfire, though that number does not account for the kids who weren’t shot and aren’t considered victims but have nevertheless been irreparably harmed by gun violence. In *Children Under Fire*, John Woodrow Cox investigates the effectiveness of gun safety reforms as well as efforts to manage children’s trauma in the wake of neighborhood shootings and campus massacres, from

Columbine to Marjory Stoneman Douglas. Through deep reporting, Cox addresses how we can effect change now, and help children like Ava and Tyshaun. He explores their stories and more, including a couple in South Carolina whose eleven-year-old son shot himself, a Republican politician fighting for gun safety laws, and the charlatans infiltrating the school safety business. In a moment when the country is desperate to better understand and address gun violence, *Children Under Fire* offers a way to do just that, weaving wrenching personal stories into a critical call for the United States to embrace practical reforms that would save thousands of young lives.
