HESS ENRIQUE

MRCS Picture Questions CRC Press

This new book is targeted at higher trainees in orthopaedic surgery preparing for the second part of the FRCS (Tr & Orth) exam. The exam involves a set of vivas during which a range of topics is discussed, the aim being to demonstrate trauma safety and competence rather than trauma expertise. Examiners may use props such as models, clinical pictures, clinical studies, and x-rays to introduce topics and initiate discussion. This book uses a similar model to allow the candidate to practise key topics for discussion with common presentations and histories, and high quality x-rays. The book lends itself to individual and small group learning as trainees prepare for their examinations.

Examination Surgery JP Medical Ltd

A concise and highly visual guide to postgraduate physical examination for the MRCS exam, from an expert panel of surgeons.

FRCS General Surgery CRC Press

This new edition of the Care of the Critically Ill Surgical Patient (CCrISP) course manual has been fully updated and revised by a multidisciplinary team of surgeons and anaesthetists. It remains true to the original aims of the course: to encourage trainees to take responsibility for critically ill patients, to predict and prevent problems that patients might encounter while in hospital, to function well within the surgical team and communicate

effectively with colleagues from other disciplines. CCrISP is a valuable adjunct to traditional ward training and continues to provide young surgeons with the structure and confidence they require to safely and effectively care for their patients on the ward and in theatre. Designed to develop skills that are necessary in the management of critically ill patients, CCrISP integrates knowledge, practical skills, communication and leadership.

A revision guide CRC Press

The FRCS examination is the last hurdle on the road to independent practice as a consultant surgeon in the United Kingdom and Ireland. The voce viva portion of the exam can be particularly challenging for candidates who must demonstrate not only their knowledge of various surgical topics, but also their reasoning and decision-making abilities. Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide provides the framework and knowledge to pass the non-subspecialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. Highlights: Layout: A unique approach recreates the structure and content of each individual viva Past questions: Actual viva questions pooled from successful FRCS candidates are included so you know what worked Contributors: Insight from experienced clinicians who have trained in the UK higher surgical training system This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam.

500 SBAs and EMIs JP Medical Ltd

This second edition presents medical students and trainees with step by step long cases in general surgery. Thoroughly revised, the second edition covers inguinal hernia, thyroid gland, breast cancer, stomach, jaundice, varicose veins and more. More than 270 full colour images and illustrations enhance learning – the previous edition published in 2008. Key points New, revised edition presenting medical students and trainees with long cases in general surgery Includes more than 270 full colour images and illustrations Previous edition published in 2008

Viva Practice for the FRCS(Urol) Examination Cambridge University Press

This book has been designed for undergraduates preparing for the final year MBBS examination in surgery. The book begins with a detailed classification of instruments according to their use, followed by the points for identification. It, then provides an elaborate description of different operative procedures used as well as sterilization methods of instruments. Finally, a separate chapter X-rays Commonly Asked during Examination, has also been added to help students face viva-voce. The question-answer format of the book including the frequently asked questions would greatly help students in preparing for their exams. About the Author : - MM Kapur, Professor (formerly) of Surgery, AIIMS, New Delhi, obtained his MBBS and FRCS degrees from Calcutta University and Royal College of Surgeons, London in 1955 and 1961, respectively. From 1964 to 1986, he imparted teaching and training to undergraduate and postgraduate students at the All India Institute of Medical Sciences, New Delhi. Due to his distinguished service to the speciality of surgery he was conferred Commonwealth Fellowship in 1968-69 and was awarded WHO Visiting Scientist Award in 1978. For a brief period (1989-92), he was Regional Advisor, Medical Research, WHO South East Asia Regional Office, New Delhi.

PasTest Ltd

Part of the Masterpass series, this highly authoritative guide covers all the required topics, with emphasis on important areas ensuring candidates are thoroughly tested. MCQs in Geriatric Medicine for Postgraduate Examinations is ideal for postgraduate doctors wanting to succeed in elderly medicine biased MCQs such as candidates for the Diploma in Geriatric Medicine and registrars in geriatric medicine reading for their specialty certificates. It is also highly recommended for Part I MRCP candidates requiring a grasp of this rapidly increasing branch of medicine in terms of information, number of patients and cost to the state. The overall proportions of topics are suggested by the Royal College of Physicians, London but I have added more questions proportional to the importance of some topics. When you have cracked all 350, you will have the MCQ examiners on toast. Roger Gabriel, in the Preface.

Postgraduate Orthopaedics CRC Press

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed.

Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

A Revision Guide CRC Press

FRCS General Surgery: 500 SBAs and EMIs offers the most comprehensive coverage of practice questions for trainees preparing for the FRCS General Surgery exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 500 Single Best Answers and Extended Matching Items, reflecting topics encountered in the exam Answers feature concise, case-based descriptions to consolidate knowledge Highly illustrated to improve understanding of key concepts Extensive evidence-based references to relate theory to clinical practice

MCQs and EMQs for the FRCS (Tr & Orth) Cambridge University Press

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics.

Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

Care of the Critically Ill Surgical Patient, 3rd Edition Elsevier Health Sciences

A sound knowledge of basic sciences is vital for any doctor with an interest in ophthalmology, and is a significant part of all postgraduate examinations in the subject. Featuring 640 multiple choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl

Preparation for the FRCS (ORL-HNS) Radcliffe Publishing

This is the new edition of the concise but comprehensive handbook that should be owned by all surgical trainees specialising in plastic surgery.

Taking a pithy systematic approach, Key Notes on Plastic Surgery offers the latest developments within the field in bullet point form and includes key papers for viva voces. It is informed by the current FRCS (Plast) curriculum, making it ideal preparation for the UK exit examination or equivalent

international board exam. Key features Fully covers the entire scope of plastic surgery Clearly divided into 10 sections with logical subheadings for easy fact-finding Acts as an adjunct to the established longer texts Brand new chapter on ethics and the law – a compulsory component of the oral examination Illustrations outlining key surgical procedures and relevant anatomy Fully revised to include all the latest clinical guidelines, Key Notes on Plastic Surgery is the perfect rapid reference tool for trainees in plastic surgery and dermatologic surgery who require quick, accurate answers.

FRCS General Surgery Viva Topics and Revision Notes CRC Press

Describes the anatomical knowledge required for the 45 most common general surgical procedures. Throughout, the emphasis is on helping the surgeon prepare for, and successfully and safely complete the operation. The choice of operations covered and the level of detail make the book ideal for higher surgical trainees in General Surgery. More experienced surgeons will also use it as a source of reference.

An Aid to the MRCS OSCE Elsevier Health Sciences

This book is an open access book with CC BY 4.0 license. This comprehensive open access textbook provides a comprehensive coverage of principles and practice of oral and maxillofacial surgery. With a range of topics starting from routine dentoalveolar surgery to advanced and complex surgical procedures, this volume is a meaningful combination of text and illustrations including clinical photos, radiographs, and videos. It provides guidance on evidence-based practices in context to existing protocols, guidelines and recommendations to help readers deal with most clinical scenarios in their daily surgical work. This multidisciplinary textbook is meant for postgraduate trainees, young practicing oral surgeons and experienced clinicians, as well as those preparing for university and board certification exams. It also aids in decision-making, the implementation of treatment plans and the management of complications that may arise. This book is an initiative of Association of Oral and Maxillofacial Surgeons of India (AOMSI) to its commitment to academic medicine. As part of this commitment, this textbook is in open access to help ensure widest possible dissemination to readers across the world.

Surgical Finals Elsevier India

A useful revision guide to assist MRCS candidates, this book contains information from candidates and examiners, and details the common operations along with other. It covers over 60 topics, with exam style questions and complete answers for each.

Oral and Maxillofacial Surgery for the Clinician FRCS General Surgery Viva Topics and Revision Notes

In recent years the basic science viva of the Final FRCA has evolved a more clinical perspective. The new edition of the highly successful Anaesthesia Science Viva Book incorporates this new clinical emphasis, giving candidates an insight into the way the viva works, offering general guidance on exam technique, and providing readily accessible information relating to a wide range of potential questions. Questions are divided broadly into the four areas covered by the exam: applied anatomy, physiology, pharmacology and clinical measurement. Answers have been constructed to provide candidates with more than enough detail to pass the viva. Covering the full scope of the basic science syllabus, and written by an experienced FRCA examiner, The Anaesthesia Science Viva Book, second edition, is an essential purchase for every Final FRCA candidate.

Introduction to Surgical Instruments and Procedures OUP Oxford

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

Cracking the Intercollegiate General Surgery FRCS Viva CRC Press

The FRCS Oral and Maxillofacial Surgery (OMFS) exam is split into three parts: written, viva and mock clinical consultations with an examiner and an actor in the role of a patient. These consultations fall into two formats: 'short case', where the examiner poses questions specific to the patient's case, and 'long case' where the candidate must diagnose the patient's presenting problem and suggest an appropriate course of treatment. FRCS (Oral & Maxillofacial Surgery) Part 2: 100 Clinical Cases focuses on the clinical component of the exam and is structured according to the FRCS OMFS syllabus. Each chapter starts with cases devoted to examination of the patient, history taking and investigations. Subsequent cases feature 'short case' clinical scenarios commonly encountered in the exam. Where relevant to exam practice, a 'long case' is included at the end of each chapter. The 'short cases' feature mock questions, while the 'long cases' also include an examiner's mark sheet listing the answers and actions candidates must perform to achieve full marks. First book to cater specifically for the clinical component of the FRCS OMFS exam Ideal for practising scenarios with colleagues and taking turns to play role of either candidate or examiner

The Anaesthesia Science Viva Book Oxford University Press

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination, which tests the required standard of a recognised Urology specialist. It provides a selection of common clinical scenarios together with a guide to answering the FRCS(Urol) questions. Each chapter is written by Consultant Urological Surge

Companion Cases for the Intercollegiate Exam in General Surgery Anshan Pub

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma and Orthopaedic Surgeon, North Staffordshire Royal Infirmary and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format. Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! Specialist registrars preparing for the FRCS (Trauma and Orthopaedics) examination will find this an essential revision aid. It is also useful for Basic Surgical Trainees preparing for the Membership of the Royal College of Surgeons (MRCS) examination.
