 Army RD & A Bulletin Surplus Record
 Sponsored jointly by the American Society of Mechanical Engineers and International Material Management Society, this single source reference is designed to meet today's need for updated technical information on planning, installing and operating materials handling systems. It not only classifies and describes the standard types of materials handling equipment, but also analyzes the engineering specifications and compares the operating capabilities of each type. Over one hundred professionals in various areas of materials handling present efficient methods, procedures and systems that have significantly reduced both manufacturing and distribution costs.
 Port of Karachi Magazine Index of Specifications and StandardsMaterials Handling Handbook
 With the construction boom reaching over \$300 billion by the early 1990s in the United States alone,
