Nature-Inspired Computation and Swarm Intelligence
 ECGBL 2018 12th European Conference on Game-Based Learning
 Web Information Systems Engineering - WISE 2019
 Technology in Education. Innovative Solutions and Practices
 Representations, Constructions and Negotiations
 Second International Joint Conference, APWeb-WAIM 2018, Macau, China, July 23-25, 2018, Proceedings, Part I
 Law, Policy and the Internet
 International Conference, ICSH 2017, Hong Kong, China, June 26-27, 2017, Proceedings
 20th International Conference, HCI International 2018, Las Vegas, NV, USA, July 15-20, 2018, Proceedings, Part II
 Advances in Human Factors in Communication of Design
 10th CCF International Conference, NLPC 2021, Qingdao, China, October 13-17, 2021, Proceedings, Part I
 Sustainable Buildings and Structures: Building a Sustainable Tomorrow
 Natural Language Processing and Chinese Computing
 Information Technology - New Generations
 The Next Wave
 Smart Health
 Proceedings of the 2nd International Conference in Sustainable Buildings and Structures (ICSBS 2019), October 25-27, 2019, Suzhou, China
 Web and Big Data
 Linguistic Perspectives on Sexuality in Education
 Advances in Information Retrieval
 Cybersecurity in China
 21st Annual International Conference, RECOMB 2017, Hong Kong, China, May 3-7, 2017, Proceedings
 Information Theoretic Security
 Reducing Lightning Injuries Worldwide
 Research in Computational Molecular Biology
 Book of abstracts PHOTONICA2017 The Sixth International School and Conference on Photonics & COST actions: MP1406 and MP1402 & H2020-MSCA-RISE-2015 CARDIALLY workshop
 The Migration Conference 2020 Book of Abstracts and Programme
 44th European Conference on IR Research, ECIR 2022, Stavanger, Norway, April 10-14, 2022, Proceedings, Part I
 Blended Learning. New Challenges and Innovative Practices
 Analysis, Design and Construction of Foundations
 10th International Conference, ICITS 2017, Hong Kong, China, November 29 - December 2, 2017, Proceedings
 Computing and Combinatorics
 Law, Economics and Politics
 International Perspectives on Knowledge and Curriculum
 21st Annual International Conference, RECOMB 2017, Hong Kong, China, May 3-7, 2017, Proceedings
 HCI International 2018 - Posters' Extended Abstracts
 Financial Advice and Investor Protection
 Third International Conference, ICTE 2018, Hong Kong, China, January 9-11, 2018, Revised Selected Papers

Nature-Inspired Computation and Swarm Intelligence Frontiers Media SA

This 28-chapter volume provides a comprehensive legal, economic and political analysis of the Belt and Road (BRI) initiative that has emerged since 2013 as the major facet of China's international economic policy.

ECGBL 2018 12th European Conference on Game-Based Learning Springer

This book constitutes the proceedings of the 20th International Conference on Web Information Systems Engineering, WISE 2019, held in Hong Kong, China, in November 2019. Due to the problems/protests in Hong Kong, WISE 2019 was postponed from November 26-30, 2019 until January 19-22, 2020. The 50 full papers presented were carefully reviewed and selected from 211 submissions. The papers are organized in the following topical sections: blockchain and crowdsourcing; machine learning; deep learning; recommender systems, data mining; web-based

applications; entity linkage and disambiguation; graph learning; knowledge graphs; graph mining; and text mining.

Web Information Systems Engineering - WISE 2019 Springer

This book constitutes the refereed proceedings of the 23rd International Conference on Computing and Combinatorics, COCOON 2017, held in Hong Kong, China, in August 2017. The 56 full papers presented in this book were carefully reviewed and selected from 119 submissions. The papers cover various topics, including algorithms and data structures, complexity theory and computability, algorithmic game theory, computational learning theory, cryptography, computational biology, computational geometry and number theory, graph theory, and parallel and distributed computing.

Technology in Education. Innovative Solutions and Practices Springer Nature

This book brings together leading academics and practitioners working in the area of language, gender, sexuality and education, consolidating recent developments and moving the field forward in a contemporary context. This unique and timely volume captures current themes, debates, theories and methods in the field, and will be of interest to scholars and practitioners working

around the world in the areas of Applied Linguistics, Teaching English as a Foreign Language, Education, Sociology and Discourse Studies.

Representations, Constructions and Negotiations Springer

This book constitutes the proceedings of the 21th Annual Conference on Research in Computational Molecular Biology, RECOMB 2017, held in Hong Kong, China, in May 2017. The 22 regular papers presented in this volume were carefully reviewed and selected from 184 submissions. 16 short abstracts are included in the back matter of the volume. They report on original research in all areas of computational molecular biology and bioinformatics

Second International Joint Conference, APWeb-WAIM 2018, Macau, China, July 23-25, 2018, Proceedings, Part I Transnational Press London

This book constitutes the proceedings of the 21th Annual Conference on Research in Computational Molecular Biology, RECOMB 2017, held in Hong Kong, China, in May 2017. The 22 regular papers presented in this volume were carefully reviewed and selected from 184 submissions. 16 short abstracts are included in the back matter of the volume. They report on original research in all areas of computational molecular biology and bioinformatics

Law, Policy and the Internet Springer

The City of Manchester, once the birthplace of the 1st Industrial Revolution, is today a pioneering hub of the 4th Industrial Revolution (Industry 4.0), offering Industry 4.0 solutions in advanced materials, engineering, healthcare and social sciences. Indeed, the creation of some of the city's greatest academic institutions was a direct outcome of the industrial revolution, so it was something of a homecoming that the Sustainable Smart Manufacturing (S2M) Conference was hosted by The University of Manchester in 2019. The conference was jointly organised by The University of Manchester, The University of Lisbon and The Polytechnic of Leiria - the latter two bringing in a wealth of expertise in how Industry 4.0 manifests itself in the context of sustainably evolving, deeply-rooted cities. S2M-2019 instigated the development of 61 papers selected for publication in this book on areas of Smart Manufacturing, Additive Manufacturing and Virtual Prototyping, Materials for Healthcare Applications and Circular Economy, Design Education, and Urban Spaces.

International Conference, ICSH 2017, Hong Kong, China, June 26-27, 2017, Proceedings Allied Publishers

This book is a resource for understanding why Lightning continues to be a major health hazard, especially in the developing world, and equips researchers, governments, and public health advocates with the knowledge and techniques needed to reduce lightning casualties worldwide.

Institut za nuklearne nauke VINČA

This This book is open access under a CC BY 4.0 license. This book offers a comprehensive guide, covering every important aspect of computational thinking education. It provides an in-depth discussion of computational thinking, including the notion of perceiving computational thinking practices as ways of mapping models from the abstraction of data and process structures to natural phenomena. Further, it explores how computational thinking education is implemented in different regions, and how computational thinking is being integrated into subject learning in K-12 education. In closing, it discusses computational thinking from the perspective of STEM education, the use of video games to teach computational thinking, and how computational thinking is helping to transform the quality of the workforce in the textile and apparel industry.

20th International Conference, HCI International 2018, Las Vegas, NV, USA, July 15-20, 2018, Proceedings, Part II CRC Press

This book constitutes the refereed proceedings of the 10th International Conference on Blended Learning, ICBL 2017, held in Hong Kong, China, in June 2017. The 42 papers presented were carefully reviewed and selected from 100 submissions. The papers are organized in topical sections named: Keynotes; Experiences in Blended Learning; Strategies in Blended Learning; Assessment for Blended Learning; Computer-Support Collaborative Learning; Improved Flexibility of Learning Processes; Open Educational Resources; Pedagogical and Psychological Issues.

This book offers the first benchmarking study of China's response to the problems of security in cyber space. There are several useful descriptive books on cyber security policy in China published between 2010 and 2016. As a result, we know quite well the system for managing cyber security in China, and the history of policy responses. What we don't know so well, and where this book is useful, is how capable China has become in this domain relative to the rest of the world. This book is a health check, a report card, on China's cyber security system in the face of escalating threats from criminal gangs and hostile states. The book also offers an assessment of the effectiveness of China's efforts. It lays out the major gaps and shortcomings in China's cyber security policy. It is the first book to base itself around an assessment of China's cyber industrial complex, concluding that China does not yet have one. As Xi Jinping said in July 2016, the country's core technologies are dominated by foreigners.

Sustainable Buildings and Structures: Building a Sustainable Tomorrow Academic Conferences and publishing limited
Analysis, Design and Construction of Foundations outlines methods for analysis and design of the construction of shallow and deep foundations with particular reference to case studies in Hong Kong and China, as well as a discussion of the methods used in other countries. It introduces the main approaches used by geotechnical and structural engineers, and the precautions required for planning, design and construction of foundation structures. Some computational methods and computer programmes are reviewed to provide tools for performing a more realistic analysis of foundation systems. The authors examine in depth the methods used for constructing shallow foundations, deep foundations, excavation and lateral support systems, slope stability analysis and construction, and ground monitoring for proper site management. Some new and innovative foundation construction methods are also introduced. It is illustrated with case studies of failures and defects from actual construction projects. Some advanced and modern theories are also covered in this book. This book is more targeted towards the understanding of the basic behavior and the actual construction of many geotechnical works, and this book is not dedicated to any design code or specification, though Euro codes and Hong Kong code are also used in this book for illustration. It is ideal for consulting geotechnical engineers, undergraduate and postgraduate students.

Natural Language Processing and Chinese Computing

Bloomsbury Publishing

This book focuses on the emerging role of human factors in understanding, communicating with and engaging users. It reports on innovative approaches, highlighting visual cues, such as new typographies, geometries and graphics for mobile and computer interfaces. The book also covers image and video processing, user-focused data compression, generative visuals, computational photography, and interactive design. Further topics include creative and empathetic design, human touch in digital graphics and experiential graphics. Based on the AHFE 2019 International Conference on Human Factors in Communication of Design, held on July 24-28, 2019, in Washington D.C., USA, this book reports on new findings, best-practices and case studies, providing readers with a fresh perspective and novel insights into the applications of human factors for enhancing the communication of design to users. *Information Technology - New Generations* Springer Nature Drawing on the idea of powerful knowledge, this book interrogates the epistemic quality of education in schools, in terms of what students are expected to know, make sense of and be able to do through the curriculum. In doing so the authors acknowledge the significance of transformation processes through which specialized knowledge, developed in subject disciplines, is reshaped and re-presented in educational environments. Moving beyond the narrow knowledge vs skills debate of the 20th century, the authors look at how we might democratise and open up access to 'knowledge of the powerful' for all through the school curriculum. Arising from the work of the Knowledge and Quality across School Subjects and Teacher Education network (KOSS), funded by the Swedish Research Council (2019-22), this book draws on studies conducted in a range of national contexts, including from Finland, France, Germany, Norway, Sweden and the UK, and considers the implications for curriculum innovation at policy, programmatic and classroom level.

The Next Wave Edward Elgar Publishing

This volume presents a collection of peer-reviewed, scientific articles from the 15th International Conference on Information Technology - New Generations, held at Las Vegas. The collection addresses critical areas of Machine Learning, Networking and Wireless Communications, Cybersecurity, Data Mining, Software Engineering, High Performance Computing Architectures, Computer Vision, Health, Bioinformatics, and Education.

Smart Health Springer

Sustainable Buildings and Structures: Building a Sustainable Tomorrow collects the contributions presented at the 2nd International Conference on Sustainable Buildings and Structures

(Suzhou, China, 25-27 October 2019). The papers aim at sharing the state-of-the-art on sustainable approaches to engineering design and construction, and cover a wide range of topics: Sustainable Construction Materials Sustainable Design in Built Environment Green and Low Carbon Buildings Smart Construction and Construction Management Sustainable Buildings and Structures: Building a Sustainable Tomorrow will be of interest to academics, professionals, industry representatives and local government officials involved in civil engineering, architecture, urban planning, structural engineering, construction management and other related fields.

[Proceedings of the 2nd International Conference in Sustainable Buildings and Structures \(ICSBS 2019\), October 25-27, 2019, Suzhou, China](#) Springer Nature

This is an authoritative introduction to Computing Education research written by over 50 leading researchers from academia and the industry.

Web and Big Data CRC Press

This comprehensive textbook by the editor of *Law and the Internet* seeks to provide students, practitioners and businesses with an up-to-date and accessible account of the key issues in internet law and policy from a European and UK perspective. The internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work, rest and play. As such, an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society. This book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology, economics and politics. Policy developments are closely analysed as an intrinsic part of modern governance. *Law, Policy and the Internet* focuses on two key areas: e-commerce, including the role and responsibilities of online intermediaries such as Google, Facebook and Uber; and privacy, data protection and online crime. In particular there is detailed up-to-date coverage of the crucially important General Data Protection Regulation which came into force in May 2018.

[Linguistic Perspectives on Sexuality in Education](#) Springer These proceedings present selected research papers from CSNC 2018, held during 23rd-25th May in Harbin, China. The theme of CSNC 2018 is Location, Time of Augmentation. These papers discuss the technologies and applications of the Global Navigation Satellite System (GNSS), and the latest progress made in the China BeiDou System (BDS) especially. They are divided into 12 topics to match the corresponding sessions in CSNC 2018, which broadly covered key topics in GNSS. Readers can learn about the BDS and keep abreast of the latest advances in GNSS techniques and applications.
