*Nations Rise and Fall Why?* BRILL

Since the 1950s the world has witnessed a period of extraordinary religious revival in which religious political parties and non-governmental organizations have gained power around the globe. At the same time, the international community has come to focus on the challenge of promoting global human security. This groundbreaking book explores how these trends are interacting. In theoretical essays and case studies from Turkey, Egypt, Pakistan, the Americas, Africa and Europe, the contributors address such crucial questions as: Under what circumstances do religiously motivated actors advance or harm human welfare? Do certain state policies tend to promote security-enhancing behavior among religious groups? The book concludes by providing important suggestions to policymakers about how to factor the influence of religion into their evaluation of a population's human security and into programs designed to improve human security around the globe.

*Correspondence Between Maulana Maudoodi and Maryam Jameela* Wipf and Stock Publishers

Maulana Maududi was an influential personality among Muslims of the World, in General and particularly among the Indian Muslims. Many of the Western writers regard him as the rejuvenator of the Political Islam in twentieth century. Many of them ascribed the present terrorism to him and his ideology, though it is yet to be proved. This work provides an immense insight into his political ideology, his vision of state as an instrument of social change, his coined term Theo-democracy, Form of Govt and relations among various organs of state in his proposal, his views on Fundamental Rights, status of Non-Muslims, his assigned role for Women in his proposed state whether she has to be segregated from the men's world or what?. all these questions are answered in this book. This work also analyses about his handi-work, Jamaat -e Islami, that became a political force in Pakistan Politics and spread across borders. After the reader would be in a better position to judge him and his ideology impartially

This book examines the political dimension of Islam in predivided Pakistan (1947-1971), one of the first new Muslim nations to commit itself to an Islamic political order and one in which the national debate on Islamic, political, and ideological issues has been the most persistent, focused, and rich of any dialogues in the contemporary Muslim world. Nasim Jawed draws on the findings of a survey he conducted among two influential social groups—the ulama (traditional religious leaders) and the modern professionals—as well as on the writings of Muslim intellectuals.

He probes the major Islamic positions on critical issues concerning national identity, the purpose of the state, the form of government, and free, socialist, and mixed economies. This study contributes to an enhanced understanding of Islam's political culture worldwide, since the issues, positions, and arguments are often similar across the Muslim world. The empirical findings of the study not only outline the ideological backdrop of contemporary Islamic reassertion, but also reveal diversity as well as tensions within it.

This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans, there is ever increasing need to examine and understand Islam as a religion and historical force. Islam: A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction, followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive, authoritative overview of Islam, this work also specifically addresses many controversial related issues, including jihad, violence in Islam, polygamy, and apostasy.

*Islamic Way of Life, by Sayyid Abul A'la Maududi. Translated & Edited by Khurshid Ahmad* Simon and Schuster

The author acknowledges the great services rendered to Islam by Maulana Saiyyid Abul 'Ala Maududi in molding the thinking of modern educated classes and restoring in them the confidence in Islamic values and thought as well as rescuing them from the sense of inferiority or defeatism. In his view, this was a sterling work performed by Maulana Maududi which must be acknowledged and for which the latter was rightly bestowed the title of 'Spokesman of Islam' by many a man of letters. The author, however, deprecates that Maulana Maududi, unfortunately, took up the task of modernizing Islamic thinking and started reorientation of Islamic metaphysics through interpretation of certain definitive terminological concepts of Islam in his famous work titled the 'Four Basic Quranic Terms'. In Maulana Maududi's view these terms assumed, during the course

of centuries, meanings different from those understood at the time of the descent of the Quran with the result that, barring a limited period, they came to be applied in a very narrow and ambiguous sense and obscured the real spirit of more than three fourths of the Quran. The author discusses in this book how the interpretation and emphasis on certain aspects of these terminological concepts by Maulana Maududi have led to a new type of exegesis of the Quran and Islam which has a political coloring and revolves around the 'Kingdom of God' and 'Sovereignty of God', and reduces the purpose of revelation of the Quran to the establishment of an 'Islamic State'. He fears that the new generation influenced by such ideas and 'researches' would not be prepared to accept any other disposition and a new religious temper would be developed which will have nothing to do with the spirit that was generated by the company and guidance of the holy Prophet. Devoid of any personal prejudice or objective to serve any personal end, this study of the interpretation of certain Quranic concepts by one for whom the author has greatest regard, has been undertaken with scholarly detachment for upholding what the author considers to be right and essential for the Ummah.

Is the Muslim world really a seething mass of anti-Western hatred, or is the true situation more complicated than that? In this important and ambitious new work, Mark Levine presents a vivid and compelling picture of the human face behind the veil of the 'Axis of Evil' and sets out an alternative roadmap for better relations between the West and the Muslim world. Going beyond the stereotypes and below the media radar, this book explains why, contrary to the popular perception, 'they' don't hate 'us' - or at least, not yet.

Allah is widely believed to have ninety-nine names, each of which has a meaning and is indicative of a desirable quality. This copiously researched book, *The Names Of Allah*, contains the most popularly accepted and several lesser-known titles of Allah. These sacred names are given in Arabic and phonetic English, with English translations and explanatory notes. Enhancing the appeal of the book is a comprehensive introduction. It deals with several canons, each of which differs in the names included and the sequence followed. Drawing upon the views of various scholars regarding the names and attributes of Allah, the categorization of these names and most importantly, the benefits of reciting them, the author gives us perhaps the most thorough and accessible contemporary interpretation of the different aspects of the Supreme Being.

*Toward Understanding Islam* SAGE

Maulana Maududi is the founder of one of the largest political parties in Pakistan and India, the Jamaat-e-Islami, a religious party. His teachings are read and believed in by millions of devoted followers in Pakistan, India and Afghanistan.

Unfortunately, his teachings have been taken to their logical extreme and have been adopted by the Taliban who are fighting against the US Army in Afghanistan and against the military in Pakistan. It is important to study this book to find out what they really think, what you will find is everything said by Maulana Maududi is perfectly logical, rational and reasonable.

The *Jamaat Question* in Bangladesh addresses the complex intersection of global politics and local dynamics in Bangladesh, particularly in relation to Bangladesh Jamaat-e-Islami (Jamaat). With multidisciplinary insights and perspectives, the contributors to this volume provide an objective socio-historical analysis of Islam, politics and society in Bangladesh. Separating fact from fiction, they attempt to uncover the truth about Jamaat, the largest Islam-based political party in the country. Suppressed and marginalized by the BAL regime, Jamaat remains active in the social landscape of Bangladesh. What makes Jamaat so resilient against all odds? Can it peacefully coexist with rival political parties in a polarised nation such as Bangladesh? This book seeks to answer these crucial questions. An essential read for those

interested in Bangladeshi politics and political Islam.

Drawing on the work of Hegel, this book proposes a framework for understanding modernity in the Muslim world and analyzes the discourse of prominent Muslim thinkers and political leaders with reference to some of the most significant markers of modernity.

This study closely examines the works of nine major Islamic thinkers in twentieth and twenty-first centuries: Mohammad Iqbal, Abul Ala Maududi, Sayyid Qutb, Fatima Mernissi, Mehdi Haeri Yazdi, Mohammad Mojtahed Shabestari, Mohammad Khatami, Seyyed Hussein Nasr and Mohamad Arkoun. By discussing these thinkers, the book traces the genealogy of major strands of consciousness in some crucial parts of the contemporary Islamic world and their relations to significant features of the modernity, such as human and individual subjectivity and agency, freedom, domination, culture of mass democracy, human rights, women's rights, political activism and participation, economic ethos and views on forms of property ownership, as well as social and cultural pluralism.

In Christine Schirrmacher's postdoctoral thesis, for the first time one finds reviews of original voices coming from Islamic theology on the topic of religious freedom and apostasy. Arabic, English, French, and Urdu texts have been translated and analyzed and thus made accessible. There are basically three positions which are defended on falling away from the Islamic faith: Complete advocacy of religious freedom, the complete denial of religious freedom with a call for the immediate application of the death penalty for apostates, and the centrist position. The centrist position, however, which allows inner freedom of thought and warns against premature persecution, calls for the death penalty

in the case of open apostasy (e.g., in the case of conversion to another faith). Within established Islamic theology, the latter approach is nowadays the most frequent point of view found. These three main positions on apostasy are introduced in this postdoctoral thesis by means of the publications of three influential 20th century theologians: Yusuf al-Qaradawi (b. 1926), Abdullah Saeed (b. 1960), and Abu I-'ala Maududi (1903-1979). They all have followings of many millions of people and have political influence at their disposal. The study explains why in many Muslim majority countries there is still today only very limited or sometimes no freedom of religion (in the sense of the Universal Declaration of Human Rights adopted by the United Nations in 1948) for converts, critical intellectuals, artists and progressive Quranic studies specialists, journalists and secularists, agnostics and confessing atheists, enlightened thinkers, women's rights and human rights activists as well as adherents of non-recognized minorities.

This booklet actually was a historical speech delivered by Maulana Sayyid Abul A'la Maududi (R) at Darul Islam Pathankot in East Punjab on the 10th May 1947 before three months of Independence Partition of India. Besides the Muslims the audience was consisted of several Hindus and Shikhs. In this speech the Maulana clearly clarified the nature of Divine Law of the rise and fall of nations. He surveyed the history of Muslim rule in India subcontinent and of their dismissal from the rule. He also surveyed the rule of British in India and their expulsion. In the speech the Maulana also pointed the elements causing deterioration and elements of reform. We think, our nation-makers will be benefited from this unique booklet.
