Intermediate Financial Theory

Cengage Learning
The only textbook written specifically for Intermediate or Advanced Corporate Finance courses, Brigham/Daves' INTERMEDIATE FINANCIAL MANAGEMENT, 12E equips students with a solid understanding of both conceptual theories and practical financial skills. Offering a clear presentation, this comprehensive text from renowned author team Gene Brigham and Phillip Daves reinforces coverage from earlier corporate finance courses while providing new, progressive material to challenge even the most advanced learners. The authors use corporate valuation as a unifying theme to emphasize the theoretic groundwork for value maximization and the practical skills to analyze business decisions. The book's reader-friendly approach incorporates actual business examples and integrated cases as well as Excel spreadsheet

models to demonstrate how financial theory in practice leads to solid financial decisions.

Intermediate Accounting: IFRS Edition provides the tools global accounting students need to understand IFRS and how it is applied in practice. The emphasis on fair value, the proper accounting for financial instruments, and the new developments related to leasing, revenue recognition, and financial statement presentation are examined in light of current practice. Global Accounting Insights highlight the important differences that remain between IFRS and U.S. GAAP, and discuss the ongoing joint convergence efforts to resolve them. Comprehensive, up-to-date, and accurate, Intermediate Accounting: IFRS Edition includes proven pedagogical tools, designed to help students learn more effectively and to answer the changing needs of this course.

An Active Approach to Help You Achieve Financial Literacy McGraw-Hill College

"Intermediate Financial Accounting Volume 1 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for a first course in Intermediate Financial Accounting, and presumes that students have already completed one or two Introductory Financial Accounting courses. The textbook reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 – Revenue from Contracts With Customers. This textbook provides a review of introductory accounting concepts and

covers all topics essential to a first level Intermediate Accounting course: the conceptual framework and current landscape of financial reporting; statements of financial position; comprehensive income; cash flows and shareholders' equity; cash and receivables; revenue; inventory; property, plant and equipment; intangible assets; and intercorporate investments. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. It also focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here."--

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current

International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. CA Inter Financial Management John Wiley & Sons

Targeting readers with backgrounds in economics, *Intermediate Financial Theory, Third Edition* includes new material on the asset pricing implications of behavioral finance perspectives, recent developments in portfolio choice, derivatives-risk neutral pricing research, and implications of the 2008 financial crisis. Each chapter concludes with questions, and for the first time a freely accessible website presents complementary and supplementary material for every chapter. Known for its rigor and intuition,

Intermediate Financial Theory is perfect for those who need basic training in financial theory and those looking for a user-friendly introduction to advanced theory. Completely updated edition of classic textbook that fills a gap between MBA- and PhD-level texts Focuses on clear explanations of key concepts and requires limited mathematical prerequisites Online solutions manual available Updates include new structure emphasizing the distinction between the equilibrium and the arbitrage perspectives on valuation and pricing, and a new chapter on asset management for the long-term investor *Fundamentals of Financial Management, Concise Edition* Cengage Learning Written specifically for upper-level undergraduate finance courses that focus on short-term financial management, working capital, and treasury management, this revised 5th edition of *Short-Term Financial Management* provides a comprehensive overview of topics that are vital for anyone interested in a career in corporate finance. The opening chapter reviews the time value of money

and the basics of financial statement analysis. This edition also emphasizes benchmarking the cash conversion cycle, revises the discussion of bank relationship management, and expands the section on account analysis statements. In addition, there is new material on the application of statistical tools through the use of Excel. Each chapter includes student learning objectives, discussion questions, and sample problems. "Focus on Practice" sections introduce students to real-world articles and case studies. The book also features resources that will allow students to practice and apply the target concepts. An excellent introduction to many topics covered by the Certified Treasury Professional (CTP) certification, *Short-Term Financial Management* is suitable for courses in intermediate financial management and advanced corporate finance. Matthew Hill holds the Ph.D. in finance from Mississippi State University. Dr. Hill is the co-director of the Center for Strategic Finance and Corporate Treasury Management at Arkansas State University. John Zietlow earned his D.B.A

at the University of Memphis. A former financial analyst for Ford Motor Company, Dr. Zietlow is now a professor of finance at Southwest Baptist University in Bolivar, Missouri. Terry Maness completed his D.B.A at Indiana University, Bloomington. Dr. Maness is the dean of the Hankamer School of Business at Baylor University.

Acca - F9 Financial Management Routledge "Intermediate Financial Accounting Volume 2 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University

and Lyryx, is intended for the second of two in Intermediate Financial Accounting courses. It presumes that students have already completed the Introductory Financial Accounting, and the first Intermediate Financing Accounting course. The textbook reflects both current International Financial Reporting Standards (IFRS) and ASPE. This textbook covers all topics essential to a second level Intermediate Accounting course: current, long-term and complex liabilities, income taxes, pensions,

leases, shareholders' equity, earnings per share, statement of cash flows including the direct approach, effects of changes and errors, and disclosures and analysis. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com."-- BCcampus website.
