The fantasyland of Oz continues to fascinate steadfast Oz fans. They sympathize with the tin woodsman in his need for a heart, the cowardly lion in his need for courage, and with Dorothy as she searches for a way to return home to Kansas. In *The Origin of The Wonderful Wizard of Oz*, author Michele Rubatino reveals the mystery behind the evidence regarding the source of the maps found in *Tik-Tok of Oz*. Rubatino discusses the origin of the maps that Baum claims he discovered, rather than penned from his own imagination. *The Origin of The Wonderful*

Wizard of Oz provides evidence to show the maps found in the Oz books, forty of them in all, were derived from drawing blueprints taken from the text of a King James Version Bible dating from around 1611. This information found by Baum formed the foundation for the creation of this fantasy series. Rubatino's discovery will help Oz enthusiasts, theologians, and all interested in the works of Baum to decipher the many facets he included in his stories. It will help fans gain a better perspective on the mysteries still to be found in the Bible and the Oz series.

Cunningham's Book of Shadows Llewellyn Worldwide
Mercedes Lackey is the New York Times

bestselling author of the Valdemar series and romantic fantasies like *Beauty and the Werewolf* and *The Fairy Godmother*. James Mallory and Lackey have collaborated on six novels. Now these New York Times and USA Today bestselling collaborators bring romance to the fore with *The House of the Four Winds*. The rulers of tiny, impoverished Swansgaard have twelve daughters and one son. While the prince's future is assured, his twelve sisters must find their own fortunes. Disguising herself as Clarence, a sailor, Princess Clarice intends to work her way to the New World. When the crew rebels, Clarice/Clarence, an expert with rapier and dagger, sides with the

handsome navigator, Dominick, and kills the cruel captain. Dominick leads the now-outlawed crew in search of treasure in the secret pirate haven known as The House of Four Winds. They encounter the sorceress Shamal, who claims Dominick for her own--but Clarice has fallen hard for Dominick and won't give him up without a fight. Full of swashbuckling adventure, buoyant magic, and irrepressible charm, *The House of the Four Winds* is a lighthearted fantasy romp by a pair of bestselling writers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In this definitive reference volume, almost fifty leading thinkers and practitioners of autoethnographic research—from four continents and a dozen disciplines—comprehensively cover its vision, opportunities and challenges. Chapters address the theory, history, and ethics of autoethnographic practice, representational and writing issues, the personal and relational

concerns of the autoethnographer, and the link between researcher and social justice. A set of 13 exemplars show the use of these principles in action.

Autoethnography is one of the most popularly practiced forms of qualitative research over the past 20 years, and this volume captures all its essential elements for graduate students and practicing researchers. Perspectives on Method and Theory in the Study of Religion Hay House, Inc
Seppie began writing seven years ago- full of angst, confusion and deep thoughts. Inspired throughout the years by a tumultuous life and brought to writing out of influence from such artists of greatness as

T.S. Eliot and Walt Whitman To The Grateful Dead and Anti-Flag, she discusses every topic of thought such as politics, religion, The supernatural, nature, The mind and simply writing itself. Seppie has compiled quite a musing and superlative collection of poetry during her young life. Through depression, happiness, second-hand insanity, poverty, contentment, drug-induced fantasies and much more- the author shows to us the kind of road one must travel to finally reach that place Where the Four Winds Dwell.
UNM Press
Shamanism, hypnosis, imaginal psychotherapies, and meditation are based on the use of what we in the modern western

world think of as non-ordinary human consciousness. These four modalities have fundamental similarities and differences in purpose, theory, technique, type of alternative consciousness, and their application of non-ordinary reality. Shamanism, the oldest and most intertwined with the cultures in which it is practiced, will be explored as a model for individual healing and transformation and professional training. The shamanic way will also be explored as a model of consciousness and a world-view that offers individuals, groups, and society much needed coping mechanisms, healing techniques, and transformative values

that may be helpful in dealing with this trying and important transition time for humanity. Imaginal therapies, meditation and hypnosis all have their roots in shamanism, although in some parts of the world at certain times in history, shamanism borrowed from meditation in its adaptation and development.

Mrs. Beggs and the Wizard Llewellyn Worldwide Transform Your Life and Empower Your Soul through the Mystical Union of Qabalah and Shamanism Take a journey into the Mysteries with Shamanic Qabalah. Fusing Hermetic Qabalah and Peruvian shamanic practices, this book lays out a

template for exploring the inner and outer worlds in the tradition of the ancients.

Discover how you can make your own way through the Great Work—communing with the unseen entities and elements of the universe and achieving union with the Divine. Trained in Peruvian shamanism and in Qabalah, author Daniel Moler leads a journey through the dimensions of consciousness to help you live a sacred life in connection with the unseen and unknown Other and where you stand on the earth right now.

Strong Winds from Nowhere is the story of Tasha, who is banished at the age of ten to eternal exile by the

people of her village for being too beautiful. Along with Ceyon, her guide and teacher, Tasha heads to the vast expanse of Nowhere in search of freedom, truth, and friendship. On her journey, she meets the Shohonks, a mysterious people who capture her heart through their clear sight and immense powers. Gradually she discovers that under their impeccable facade lurks a dark and frightening shadow that consumes people's hopes and aspirations. Tasha becomes determined to face this shadow, despite the personal price. *Strong Winds from Nowhere* is an empowering story of change, bravery, and the triumph of free spirit. It is a

combination of fantasy and wisdom, filled with depth and layers, yet simple and intimate in language, keeping readers close to their hearts.

Wizard of the Crow

Moon Books

Medical systems need to be understood from within, as experienced by healers, patients, and others whose minds and hearts have both become involved in this important human undertaking. Exploring how the performance of healing transforms illness to health, initiate to ritual specialist, the authors show that performance does not merely refer to, but actually does something in the world. These essays on the performance of healing in societies ranging from rainforest horticulturalists to

dwellers in the American megalopolis will touch readers' senses as well as their intellects.

WIZARD OF THE FOUR WINDS: A SHAMAN'S STORY

The current ecological crisis is a matter of urgent global concern, with solutions being sought on many fronts. In this book, Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated, if not actually caused, by the reductionist view of nature that has been advanced by modern secular science. What is needed, he believes, is the recovery of the truth to which the

great, enduring religions all attest; namely that nature is sacred. Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans. His goal is to negate the totalitarian claims of modern science and to re-open the way to the religious view of the order of nature, developed over centuries in the cosmologies and sacred sciences of the great traditions. Each tradition, Nasr shows, has a wealth of knowledge and experience concerning the order of nature.

The resuscitation of this knowledge, he argues, would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth.

Sudden Death in Infancy, Childhood and Adolescence Lulu.com

In a uniquely personal account of the lives and healing arts of female shamans in northern Peru, the author alternates diaristic writings about her own experiences with ethnographic description. These alternate with chapters in which she describes the crisis that rocked her identity, her first contact with a female healer, and her own tumultuous but ultimately rewarding healing journey under two female shamans.

Historical Dictionary of Shamanism Free Press
When Ross Heaven, a psychologist and ex-pharmaceutical industry consultant, embarks on a shamanic apprenticeship in the rainforests and mountains of South America his intention is to unlock the secrets of San Pedro, the mescaline cactus that has been used as a sacrament and teacher plant in Peru for millennia, and to learn about love and healing. What he finds is more remarkable, painful, enriching, liberating and extraordinary than he could have imagined.

 Icons of Power
 investigates why the image of the cat has been such a potent symbol in the art, religion and mythology of indigenous American cultures for three thousand years. The jaguar and the puma epitomize ideas of sacrifice, cannibalism, war, and status in a startling array of graphic and enduring

images. Natural and supernatural felines inhabit a shape-shifting world of sorcery and spiritual power, revealing the shamanic nature of Amerindian world views. This pioneering collection offers a unique pan-American assessment of the feline icon through the diversity of cultural interpretations, but also striking parallels in its associations with hunters, warriors, kingship, fertility, and the sacred nature of political power. Evidence is drawn from the pre-Columbian Aztec and Maya of Mexico, Peruvian, and Panamanian civilizations, through recent pueblo and Iroquois cultures of North America, to current Amazonian and Andean societies. This

well-illustrated volume is essential reading for all who are interested in the symbolic construction of animal icons, their variable meanings, and their place in a natural world conceived through the lens of culture. The cross-disciplinary approach embraces archaeology, anthropology, and art history.

The Dark Book Of Shadows - A Grimoire of Sorcery and Dark Witchcraft McFarland
Drei vordergründig widersprüchliche Fakten bestimmen das religiöse Bild Südamerikas: der traditionell starke Katholizismus, seit dem 19. Jh. erstarkte protestantische und pfingstkirchliche Denominationen und Religionen präkolumbischer

Herkunft, die sich erhalten und weiterentwickelt haben. Der vorliegende Band beschreibt diese als lebendige Religionen heutiger Menschen, die von Ethnologen und Religionswissenschaftlern befragt werden können. Dabei folgt der Band der religionskundlichen Gliederung Südamerikas in zwei Räume: Der Zentralandenraum, wo schon in der Kolonialzeit voreuropäische Traditionen vielerorts ins lokale Christentum integriert wurden und das Gebiet östlich der Anden (in geringerem Maße die Nord- und Südanden), wo eigene Religionen autonomer erhalten blieben, allerdings im 20. Jh. durch neue, intensive

christliche Mission einen Großteil ihrer Anhänger verloren haben.

Indigene Religionen

Südamerikas BRILL

Geißel in den weniger entwickelten tropischen Ländern sind die (im weitesten Sinne) infektiösen Erkrankungen, und gerade gegen sie vermag die Val ksmedizin zumeist weniger auszurichten als unsere hochentwickelte Pharmazie (vgl. H. VELIMIROVIC in diesem Band). Es mag einen "unspezifischen Heiler-Effekt" geben, etwa das, was man hierzulande z. T. etwas abschätzig als die "Droge Arzt" bezeichnet. Wenn man einige Hei 1 er aus einer gegebenen Ethni e quasi als Consi 1 i ari i zu einem Patienten

rufen würde, kämen sie, das ist jedenfalls die Erfahrung aus Melanesien, wahrscheinlich selten zu einer einheitlichen Diagnose. Daß sie desungeachtet ihre Rolle als Ärzte, wenn auch selbstverständlich mit unterschiedlichem Erfolg, ausfüllen, ist vermutlich gerade in dem 'Heiler-Effekt' begründet, zu dessen Wirksamwerden ohne Zweifel eine gehörige Portion Wissen und (im besten Sinne) Intuition, also Heilkunst nötig ist. Die Antwort des menschlichen Organismus auf materielle und immaterielle Stressoren ist trotz der unleugbaren Verschiedenheit der Kulturen prinzipiell ähnlich. Wenn aber die unendlich bunt

erscheinende Palette der therapeutischen Ansätze nichts destoweniger dazu führt, daß Patienten überall auf der Erde immer wieder von den Heilern ihrer Heimat Behandlung erbitten, müssen Vorgänge eine Rolle spielen, die im Heilungssuchenden selbst, nicht in der Weise der Therapie begründet sind.

Cunningham's Encyclopedia of Magical Herbs Oxford University Press

The role of the religious specialist in Andean cultures of the sixteenth, seventeenth, and eighteenth centuries was a complicated one, balanced between local traditions and the culture of the Spanish. In *The Power of Huacas*, Claudia Brosseder reconstructs

the dynamic interaction between religious specialists and the colonial world that unfolded around them, considering how the discourse about religion shifted on both sides of the Spanish and Andean relationship in complex and unexpected ways. In *The Power of Huacas*, Brosseder examines evidence of transcultural exchange through religious history, anthropology, and cultural studies. Taking Andean religious specialists—or hechizeros (sorcerers) in colonial Spanish terminology—as a starting point, she considers the different ways in which Andeans and Spaniards thought about key cultural and religious concepts. Unlike previous studies, this important

book fully outlines both sides of the colonial relationship; Brosseder uses extensive archival research in Bolivia, Chile, Ecuador, Peru, Spain, Italy, and the United States, as well as careful analysis of archaeological and art historical objects, to present the Andean religious worldview of the period on equal footing with that of the Spanish. Throughout the colonial period, she argues, Andean religious specialists

retained their own unique logic, which encompassed specific ideas about holiness, nature, sickness, and social harmony. The Power of Huacas deepens our understanding of the complexities of assimilation, showing that, within the maelstrom of transcultural exchange in the Spanish Americas, European paradigms ultimately changed more than Andean ones.
