As commercial flight is changing dramatically and its future remains unclear, a look at how we got here Grounded: Perpetual Flight . . . and Then the Pandemic considers the time leading up to the COVID-19 pandemic and the ensuing global plummet in commercial flight. Mobility studies scholar Christopher Schaberg tours the newly opened airport terminal outside of New Orleans (MSY) in late 2019, and goes on to survey the broad cultural landscape of empty airports and grounded planes in the early months of the novel coronavirus's spread in 2020. The book culminates in a reflection on the future of air travel: what may unfold, and what parts of commercial flight are almost certainly relics of the past. Grounded blends journalistic reportage with cultural theory and philosophical inquiry in order to offer graspable insights as well as a stinging critique of contemporary air travel.

Taking our food system back is an act of revolution. Restoring the feminine is an act of sacred responsibility. Returning to the cycles of nature is an act of love. Grounding into the soil is an act of hope. The soil, the fertile ground beneath us, holds the key to the future of our planet and our species—yet few people are aware of the critical role soil health plays in reversing climate change. With Grounded, Dr. Erin Yu-Juin McMorrow takes us on a journey to explore the sacred interconnectedness between our soil and ourselves, seamlessly weaving the science of our broken carbon cycle and the oppression of the divine feminine into a powerful tapestry of hope and resilience. McMorrow is the voice of a generation that carries the future of our planet on their shoulders. “There’s no other group of people to pass this on to,” she writes. “If we want to create a world that we can keep living in, it’s time, and it’s us.” In Grounded, McMorrow guides us through the inner and outer work needed to restore the divine feminine and save our planet. Highlights include: The “brass tacks” of climate change—how everything from biodiversity loss to ocean acidification has roots in the killing of the microscopic life in our soil The fertile soil is feminine—and the destruction of our earth and the feminine go hand in hand Sex, birth, life, and death—how our natural cycles parallel the sacred cycles of nature How to create truly regenerative systems that celebrate the natural world’s infinite diversity, resilience, and abundance Practices to help you start making a difference right now—from personal reflections and meditations to seed saving and composting Finding hope in the sacred nature of this work—when we do our part, just as with all of nature, spirit fills in the rest Becoming grounded—root within to remember that you are of the earth, awaken your divine power, and expand in the world Grounded is both a clarion call and a revolutionary guide for restoring the sacred cycles that sustain all life. “With every step we take toward a more regenerative and abundant future,” McMorrow writes, “we engage in the important work of saving our soil—and our souls.”

Beware! Dangerous secrets lie between the pages of this book. OK, I warned you. But if you think I'll give anything away, or tell you that this is the sequel to my first literary endeavor, *The Name of This Book is Secret*, you're wrong. I'm not going to remind you of how we last left our heroes, Cass and Max-Ernest, as they awaited initiation into the mysterious Terces Society, or the ongoing fight against the evil Dr. L and Ms. Mauvais. I certainly won't be telling you about how the kids stumble upon the Museum of Magic, where they finally meet the amazing Pietro! Oh, blast! I've done it again. Well, at least I didn't tell you about the missing Sound Prism, the nefarious Lord Pharaoh, or the

mysterious creature born in a bottle over 500 years ago, the key to the biggest secret of all. I really can't help myself, now can I? Let's face it - if you're reading this, it's too late.

From acclaimed author Dinaw Mengestu, a recipient of the National Book Foundation's 5 Under 35 award, The New Yorker's 20 Under 40 award, and a 2012 MacArthur Foundation genius grant, comes an unforgettable love story about a searing affair between an American woman and an African man in 1970s America and an unflinching novel about the fragmentation of lives that straddle countries and histories. All Our Names is the story of two young men who come of age during an African revolution, drawn from the safe confines of the university campus into the intensifying clamor of the streets outside. But as the line between idealism and violence becomes increasingly blurred, the friends are driven apart—one into the deepest peril, as the movement gathers inexorable force, and the other into the safety of exile in the American Midwest. There, pretending to be an exchange student, he falls in love with a social worker and settles into small-town life. Yet this idyll is inescapably darkened by the secrets of his past: the acts he committed and the work he left unfinished. Most of all, he is haunted by the beloved friend he left behind, the charismatic leader who first guided him to revolution and then sacrificed everything to ensure his freedom. Elegiac, blazing with insights about the physical and emotional geographies that circumscribe our lives, All Our Names is a marvel of vision and tonal command. Writing within the grand tradition of Naipul, Greene, and Achebe, Mengestu gives us a political novel that is also a transfixing portrait of love and grace, of self-determination and the names we are given and the names we earn. This eBook edition includes a Reading Group Guide.

Winner of a Scotsman Fringe First Award 2013. Shortlisted for the Amnesty International Freedom of Expression Award 2013 at the Edinburgh Fringe Festival, 2013. Seamlessly blending the personal and the political, *Grounded* tells the story of a hot-rod F16 fighter pilot whose unexpected pregnancy ends her career in the sky. Repurposed to flying remote-controlled drones in the Middle East from an air-conditioned trailer near Vegas, the Pilot struggles through surreal twelve-hour shifts far from the battlefield, hunting terrorists by day and being a wife and mother by night. A tour de force play for one actress, *Grounded* flies from the heights of lyricism to the shallows of workaday existence, targeting our assumptions about war, family, and the power of storytelling. *Grounded* was the winner of the 2012 Smith Prize.

The riveting first book in Bruce Gamble's critically acclaimed Rabaul trilogy, originally published in hardcover as *Darkest Hour*, which chronicles the longest battle of World War II. January 23, 1942, New Britain. It was 2:30 a.m., the darkest hour of the day and, for the tiny Australian garrison sent to defend this Southwest Pacific island, soon to be the darkest hour of the war. Lark Force, comprising 1,500 soldiers and six nurses, faced a vastly superior Japanese amphibious unit poised to overrun Rabaul, capital of Australia's mandated territories. Invasion Rabaul, the first book in military historian Bruce Gamble's critically acclaimed Rabaul trilogy, is a gut-wrenching account of courage and sacrifice, folly and disaster, as seen through the eyes of the defenders who survived the Japanese assault. Gamble's gripping narrative follows key individuals—soldiers and junior officers, an American citizen and an Army nurse among them—who were driven into the jungle, prey to the unforgiving environment and a cruel enemy that massacred its prisoners. The dramatic stories of the Lark Force survivors, told here in full for the first time, are among the most inspiring of the Pacific War—and they lay a triumphant foundation for one of today's most highly praised military nonfiction trilogies.

"A satire of writerly ambition wrapped in a psychological thriller . . . An homage to Patricia Highsmith, Oscar Wilde and Edgar Allan Poe, but its execution is entirely Boyne's own."—Ron Charles, *The Washington Post* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND MINNEAPOLIS STAR TRIBUNE Maurice Swift is handsome, charming, and hungry for fame. The one thing he doesn't have is talent—but he's not about to let a detail like that stand in his way. After all, a would-be writer can find stories anywhere. They don't need to be his own. Working as a waiter in a West Berlin hotel in 1988, Maurice engineers the perfect opportunity: a chance encounter with celebrated novelist Erich Ackermann. He quickly ingratiates himself with the powerful – but desperately lonely – older man, teasing out of Erich a terrible, long-held secret about his activities during the war. Perfect material for Maurice's first novel. Once Maurice has had a taste of literary fame, he knows he can stop at nothing in pursuit of that high. Moving from the Amalfi Coast, where he matches wits with Gore Vidal, to Manhattan and London, Maurice hones his talent for deceit and manipulation, preying on the talented and vulnerable in his cold-blooded climb to the top. But the higher he climbs, the further he has to fall. . . . Sweeping across the late twentieth century, *A Ladder to the Sky* is a fascinating portrait of a relentlessly immoral man, a tour de force of storytelling, and the next great novel from an acclaimed literary virtuoso. Praise for *A Ladder to the Sky* "Boyne's mastery of perspective, last seen in *The Heart's Invisible Furies*, works beautifully here. . . . Boyne understands that it's far more interesting and satisfying for a reader to see that narcissist in action than to be told a catchall phrase. Each step Maurice Swift takes skyward reveals a new layer of calumny he's willing to engage in, and the desperation behind it . . . so dark it seems almost impossible to enjoy reading *A Ladder to the Sky* as much as you definitely will enjoy reading it."—NPR "Delicious . . . spins out over several decades with thrilling unpredictability, following Maurice as he masters the art of co-opting the stories of others in increasingly dubious ways. And while the book reads as a thriller with a body count that would make Highsmith proud, it is also an exploration of morality and art: Where is the line between inspiration and thievery? To whom does a story belong?"—Vanity Fair

"Here is how monstrous humans are." A sentient, murderous prosthetic leg; shadowy creatures lurking behind a shimmering wall; brutal barrow men: of all the terrors that populate *The Glassy, Burning Floor of Hell*, perhaps the most alarming are the beings who decimated the habitable Earth: humans. In this new short story collection, Brian Evenson envisions a chilling future beyond the Anthropocene that forces excruciating decisions about survival and self-sacrifice in the face of toxic air and a natural world torn between revenge and regeneration. Combining psychological and ecological horror, each tale thrums with Evenson's award-winning literary craftsmanship, dark humor, and thrilling suspense.

#1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In *Atlas of the Heart*, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make

us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The Golden Age of Aviation is brought to life in this story of the giant Zeppelin airships that once roamed the sky—a story that ended with the fiery destruction of the Hindenburg. "Genius . . . a definitive tale of an incredible time when mere mortals learned to fly."—Keith O'Brien, *The New York Times* At the dawn of the twentieth century, when human flight was still considered an impossibility, Germany's Count Ferdinand von Zeppelin vied with the Wright Brothers to build the world's first successful flying machine. As the Wrights labored to invent the airplane, Zeppelin fathered the remarkable airship, sparking a bitter rivalry between the two types of aircraft and their innovators that would last for decades, in the quest to control one of humanity's most inspiring achievements. And it was the airship—not the airplane—that led the way. In the glittery 1920s, the count's brilliant protégé, Hugo Eckener, achieved undreamed-of feats of daring and skill, including the extraordinary Round-the-World voyage of the Graf Zeppelin. At a time when America's airplanes—rickety deathtraps held together by glue, screws, and luck—could barely make it from New York to Washington, D.C., Eckener's airships serenely traversed oceans without a single crash, fatality, or injury. What Charles Lindbergh almost died doing—crossing the Atlantic in 1927—Eckener had effortlessly accomplished three years before the Spirit of St. Louis even took off. Even as the Nazis sought to exploit Zeppelins for their own nefarious purposes, Eckener built his masterwork, the behemoth Hindenburg—a marvel of design and engineering. Determined to forge an airline empire under the new flagship, Eckener met his match in Juan Trippe, the ruthlessly ambitious king of Pan American Airways, who believed his fleet of next-generation planes would vanquish Eckener's coming airship armada. It was a fight only one man—and one technology—could win. Countering each other's moves on the global chessboard, each seeking to wrest the advantage from his rival, the struggle for mastery of the air was a clash not only of technologies but of business, diplomacy, politics, personalities, and the two men's vastly different dreams of the future. *Empires of the Sky* is the sweeping, untold tale of the duel that transfixed the world and helped create our modern age.
