Der schnelle Überblick für
Schüler, Studenten und
jeden, den es sonst noch
interessiert Stehen Sie auf
Kriegsfuß mit der
Biochemie? Diese ganzen
Formeln und Reaktionen
sind überhaupt nicht Ihr

Ding, aber die nächste
Prüfung steht vor der Tür?
Kein Problem! Biochemie
kompakt für Dummies
erklärt Ihnen das
Wichtigste, was Sie über
Biochemie wissen
müssen. Sie werden so
einfach wie möglich und
so komplex wie nötig in
die Welt der
Kohlenhydrate, Lipide,
Proteine, Nucleinsäuren,
Vitamine, Hormone und
Co. eingeführt. So leicht

und kompakt kann
Biochemie sein.

Chemie ist überall, man
muss nur danach suchen!
Mithilfe einfachster
Experimente zeigt der
Autor, wieviel Chemie in
den täglichen Einkäufen

aus dem Supermarkt oder aus dem Baumarkt steckt, vom Puddingpulver bis zur Zahncreme. Die vierte Auflage dieses Klassikers ist um ein Kapitel zur Chemie der Schreibwaren und Büroartikel erweitert, in dem unter anderem Klebstoffe und Farbstifte unter die chemische Lupe kommen. Ideal für alle, die gerne experimentieren und schon einmal ein Reagenzglas in der Hand gehalten haben sowie für alle, die auf anschauliche Weise Chemie vermitteln wollen. "... Wenn Sie

schon immer einmal wissen wollten, warum Rotkohlsaft ein guter Indikator für den pH-Wert ist, wie Sie selber Kunsthonig herstellen können, wie sich echter und falscher Lachs experimentell unterscheiden lassen und was in Farbmaltstiften so alles enthalten ist." (WDR 5, Leonardo - Wissenschaft und mehr) *Rubber Journal* John Wiley & Sons
This second supplement to the Science Fair Project Index 1960-1972 includes science projects and

experiments found in 135 books and five magazines published from 1981 through 1984. The index is intended for use by students in grades five through high school and teachers who are involved in creating science fair projects.
Science Fair Project Index, 1981-1984 Educational Technology Monthly, with annual cumulations.
Comprehensive, current index to periodical medical literature intended for use of practitioners,

investigators, and other workers in community medicine who are concerned with the etiology, prevention, and control of disease.

Citations are derived from MEDLARS tapes for Index Medicus of corresponding date. Arrangement by 2 sections, i.e., Selected subject headings, and Diseases, organisms, vaccines. No author index.

Biochemie kompakt für

Dummies Chemistry

Homework

Includes the periodic table, writing formulas, balancing equations,

stoichiometry problems, and more.

THE Journal Springer

Science & Business Media

Includes science projects and experiments found in

195 books published between 1985 and 1989.

Almost all areas of science and many areas of technology are covered.

Proceedings of NECC

1979, National

Educational Computing

Conference

Includes monthly "Abstracts of recent literature relating to non-ferrous and ferrous metals."

Education Outlook

The impact of computers

on all realms of

Chemistry has been one of the most important factors in the

development of this science during the last

years. In recognition of this fact, in 1971, the

"First International

Conference on Computers in Chemical Research

and Education", was held

at DeKalb, Illinois, USA. A second Conference took place in Ljubljana, Yugoslavia in 1973 and this third Conference in Caracas, Venezuela, in 1976. The aim of these conferences was to provide a high level forum for the leading researchers to exchange information at the frontiers of present day computer applications to the different fields of

Chemistry. The present "Third International Conference on Computers in Chemical Research, Education and Technology", whose proceedings are published in the present volume, was conceived, by means of a series of invited lectures, as a survey of the present-day state of the art in some of the most relevant areas of computer applications in

Chemistry.
