Medical-Surgical Nursing E-Book Jones &

Bartlett Learning

With just the right level of information to equip you to effectively care for adults and older adults, Linton's Introduction to Medical-Surgical Nursing, 5th Edition is the leading LPN/LVN text in its field.

Covering both med-surg and psychiatric mental health conditions and disorders, it addresses your role in a variety of care settings, emphasizes culturally competent care and holistic nursing, and thoroughly covers all relevant NCLEX-PN Test Plan content. Abundant real-life case studies clearly show how to apply what you've learned to clinical practice. Features separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), providing an in-depth understanding for patient care. Offers foundational units on

basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoiding repetition later in the text. Includes a separate, comprehensive unit on the older adult and related disorders — no other LPN/LVN med-surg text has as much coverage of this primary patient group. Includes a separate, comprehensive unit on psychosocial responses to illness, psychiatric disorders, and substance abuse — eliminating the need for a separate psychiatric mental health nursing text. Emphasizes content related to the NCLEX-PN Test Plan, including health promotion, nutrition, legal/ethical issues,

HIPAA, and prevention of medication/medical errors. Offers in-depth pharmacology coverage: the Pharmacology Tutorial covers drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes provide medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables in body systems chapters include classification, use/action, side/adverse effects, and nursing interventions — all with the goal of reducing medication errors on the job and equipping you to pass the NCLEX exam. Assists with assignment and supervision, helping you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and making sure you

understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. Features Diagnostic Tests and Procedures tables for a quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Highlights timely information with Health Promotion boxes, Cultural Considerations boxes, Nutrition Considerations boxes, and Complementary and Alternative Therapies boxes. Provides bulleted lists of nursing instructions for Patient Teaching Plans, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Provides consistent Nursing Care Plans that reinforce the nursing process and focus on critical thinking, and Put on Your Thinking Cap

Critical Thinking boxes encourage you to pause and consider the practical implications of what you have just read. Study Guide for Understanding Medical Surgical Nursing F.A. Davis Lewis's Medical-Surgical Nursing ANZ 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the

new edition responds to key health priorities, providing an innovative approach to addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment. This now includes Elsevier Adaptive Quizzing for Medical Surgical Nursing, ANZ 5e. Corresponding chapter-by-chapter to the core text, EAQ prepares students for tutorials, lectures and exams, with access to thousands of exam-style questions at your fingertips. Includes Elsevier Adaptive Quizzing for Potter & Perry's Fundamentals of

Nursing, ANZ 6e Over 4,200 self-quizzing localised questions and rationales that allows students to advance at their own pace - based on performance - through multiple mastery levels for each chapter A comprehensive dashboard allows students to view their progress, and identify areas of strength and weakness Additional resources on Evolve eBook on VitalSource Student and Instructor Resources Review Questions Conceptual Care Map creator Student Case studies Fluids and Electrolytes tutorial Nursing Care Plans Instructor Resources Test Bank PowerPoint slides Image bank Now available in either hard cover or 2-volume set paperback formats New chapters: Chapter 3: Stress and coping. This chapter explores theoretical models of stress, the impact of stress on human

functioning, and strategies for coping with stress in the context of nursing practice and healthcare delivery Chapter 5: Working with Indigenous peoples of Australia and New Zealand. Co-authored by highly respected Indigenous and non-Indigenous academics from Australia and New Zealand, the chapter role-models Indigenous and non-Indigenous health professionals working alongside each other to improve health outcomes, and the practical role that nurses can play to improve the healthcare experiences of Indigenous people. Chapter 69: Recognising and responding to the deteriorating patient. Authored by one of Australia's leaders in emergency response education, this chapter is designed to develop capability in relation to the National Safety and Quality Health

Service Standards 2017, specifically Standard 8: Recognising and responding to acute deterioration. Chapter 70: Cardiopulmonary resuscitation: basic and advanced life support. Based on the Australian and New Zealand Committee on Resuscitation (ANZCOR) guidelines, this chapter promotes a problem-solving approach to the management of a patient in cardiac arrest by providing the science behind the techniques and interventions used to treat a patient in cardiac arrest.

Study Guide for Brunner & Suddarth's

Textbook of Medical-Surgical Nursing

Mosby Incorporated

Focus on Adult Health: Medical-Surgical Nursing 2E separates the wheat from the chaff by drilling down to the essential content that students need to know. This book provides the foundation of medical-surgical nursing with core content, values, and skills. Focus on Adult Health: Medical-Surgical Nursing 2E is not designed to answer every question related to internal medical and surgical care. Instead the intentional design of the book is to give depth and breadth to the essentials. Written by nurses active in clinical practice, these expert clinicians know what qualifies as “need-to-know” content. This book includes rigorously researched current references and innovative technologies.

Lewis's Medical Surgical Nursing

Elsevier Health Sciences

Master the role and skills of the medical-surgical nurse in Canada with the book that has it all! Lewis's Medical-Surgical Nursing in Canada: Assessment and Management of Clinical Problems, 5th Edition reflects the expertise of nurses from across Canada with evidence-informed guidelines, a focus on clinical

trends, and a review of pathophysiology. Clear examples make it easy to understand every concept in nursing care — from health promotion to acute intervention to ambulatory care. An Evolve website includes new case studies to enhance your skills in clinical judgement and prepare you for the Next Generation NCLEX®, CPNRE®, and REx-PNTM. From Canadian educators Jane Tyerman and Shelley L. Cobbett, this comprehensive guide provides a solid foundation in perioperative care as well as nursing care of disorders by body system. Easy-to-understand content is written and reviewed by leading experts in the field, ensuring that information is comprehensive, current, and clinically accurate. More than 800 full-colour illustrations and photographs

demonstrate disease processes and related anatomy and physiology. Focus on key areas includes the determinants of health, patient and caregiver teaching, age-related considerations, collaborative care, cultural considerations, nutrition, home care, evidence-informed practice, and patient safety. Nursing Assessment chapters focus on individual body systems and include a brief review of related anatomy and physiology, a discussion of health history and non-invasive physical assessment skills, and note common diagnostic studies, expected results, and related nursing responsibilities. Unfolding case studies in each assessment chapter help you apply important concepts and procedures to real-life patient care. UNIQUE! Levels of

Care approach organizes nursing management into three levels: health promotion, acute intervention, and ambulatory and home care. Nursing Management chapters focus on the pathophysiology, clinical manifestations, laboratory and diagnostic study results, interprofessional care, and nursing management of various diseases and disorders, and are organized to follow the steps of the nursing process (assessment, nursing diagnoses, planning, implementation, and evaluation). Safety Alerts and Drug Alerts highlight important safety issues in patient care. Informatics boxes discuss the importance and use of technology with topics such as use of social media in the context of patient privacy, teaching patients to manage

self-care using smartphone apps, and using Smart infusion pumps. Cultural Competence and Health Equity in Nursing Care chapter discusses culture as a determinant of health, especially in regard to Indigenous populations; health equity and health equality issues as they relate to marginalized groups in Canada; and practical suggestions for developing cultural competence in nursing care. More than 60 comprehensive nursing care plans on the Evolve website include defining characteristics, expected outcomes, specific nursing interventions with rationales, evaluation criteria, and collaborative problems. Brunner and Suddarth's Textbook of Medical-Surgical Nursing Mosby Incorporated Text Connects the concepts students are

learning in class to the real world in which they will practice. Creates a learning environment that strengthens their understanding and mastery of the content. Promotes critical thinking and clinical decision making. Emphasizes patient care by highlighting the how and why of clinical presentation and treatment plans. Focuses on the patient-centered role of the nurse. Presents nursing management using the nursing process to identify and reinforce the nurse's responsibilities as a member of an inter-professional care team. Focuses on the diseases and disorders that will be encountered most frequently in practice. Correlates nursing interventions with the relevant physiologic and pathophysiologic content. Incorporates the critical care

content important for new nurses. Personalized Learning Plans for Students Creates a Personalized Learning Plan for each student, beginning with a pre-test for each module that assesses their strengths and weaknesses. Charts the path for each student to follow to ensure they master the content. Creates personalized learning plans that ensure students master the content. Offers multiple paths to learning success through an immersive, interactive, multi-media experience with a wealth of quizzes, animations, and dynamic exercises. Tracks each student's progress every step of the way in their Gradebooks; students know exactly how they're doing and where they need to focus their studies. Davis Edge Med-Surg Features progressive quizzing,

customized to each student's knowledge level that challenges them to reach higher levels of understanding, and identify the areas in which they need additional review. Provides comprehensive rationales for correct and incorrect answers that teach students how to analyze questions critically--ensuring they understand why they answered a question correctly, and when they don't, how to improve. Includes self-grading that provides immediate feedback as each quiz is completed. Test-taking strategies and tips prepare students for course exams, ATI, HESI, and NCLEX(R) exams. Alternate-format questions build confidence for these more difficult question types, including "select all that apply" and "ordered response." Quiz builder lets students

select practice quizzes by specific topics or concepts. Student Success Center monitors students' overall progress and identifies their strengths and weaknesses.

Test Bank to Accompany Medical-surgical Nursing Elsevier Health Sciences LEARN-APPLY-ASSESS Davis Advantage for Understanding Medical-Surgical Nursing is a complete, integrated solution that combines the power of a student-focused textbook with an interactive, personalized learning, clinical judgment, and quizzing experience to engage students, help them make the connections to key topics, and prepare them for the Next Gen NCLEX®. An access code inside new, printed textbooks unlocks access to Davis Advantage as well as an ebook.

THE TEXTBOOK A student-oriented focus helps LPN/LVN students to master safe and effective nursing care by developing the critical-thinking and clinical judgment skills they need to excel on the Next Generation NCLEX and in clinical practice. Clear, concise, readable, well organized, and easy to follow, it's the text that prepares LPN/LVN students to think critically and make the best patient care decisions. **ONLINE (DAVIS ADVANTAGE)** Using a unique and proven approach across a Learn-Apply-Assess continuum, Davis Advantage engages students to help them make the connections to key topics. Whether teaching in-person or online, this complete, integrated solution aligns seamlessly with the textbook and equips instructors with actionable analytics to

track students' progress, remediate where needed, and facilitate an active learning environment.

LEARN—Personalized Learning
Personalized Learning immerses students in an online learning experience tailored to their individual needs. Students are assessed on their comprehension of key topics from the text, and then are guided through animated mini-lecture videos and interactive activities to engage students, reinforce learning, and bring concepts to life. **APPLY**—Clinical Judgment
Clinical Judgment develops students' critical thinking and clinical reasoning, helping them to build the clinical judgment skills they need to practice safe and effective nursing care and to prepare for the Next Generation NCLEX with confidence.

Progressive case studies align with the new Next Gen NCLEX & NCSBN Clinical Judgment Measurement model feature real-life, complex clinical situations that challenge students to apply knowledge, make informed decisions, and evaluate outcomes. **ASSESS**—Quizzing
Quizzing uses thousands of NCLEX-style questions for assessment and remediation, including item types found on the Next Generation NCLEX. Its adaptive, question-based format provides the additional practice students need to test their knowledge, master course content, and perform well on course exams and the NCLEX.

Testbank to Medical Surgical Nursing
Elsevier Health Sciences

The leading medical-surgical text for LPN/LVN students, Linton's Introduction to Medical-Surgical Nursing, 6th Edition offers just the right level of information

to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and

nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile

disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including

classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at

appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally-competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-based practice and the most current research findings include specific examples of how scientific

evidence can justify and support patient care. NEW! Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance.

Understanding Medical Surgical Nursing Lippincott Williams & Wilkins

This popular text, now in full color, provides information on today's nursing practices, patient/family education and health promotion and prevention. MEDICAL-SURGICAL NURSING CONCEPTS AND CLINICAL PRACTICE is well known for its solid, balanced presentation of medical and nursing management issues and thoroughly detailed content on diagnosing and treating major adult illnesses. The sixth edition includes entire chapters on cultural care nursing in a diverse health care arena, home care considerations, gerontologic care

and other timely issues. You also receive FREE an exciting, interactive CD-ROM with critical thinking exercises, case studies, NCLEX review questions, and a vocabulary review with sound pronunciations. * Employs a consistent 5-step nursing process to encourage students to use problem solving skills in practice * Includes nursing care plans that allow students to test their knowledge in clinical situations * Dedicates an entire chapter to basic home care issues and includes home care considerations within the discussion of appropriate medical conditions * Dedicates an entire chapter to gerontologic issues and includes important considerations within presentation of major conditions * Integrates research boxes throughout

the text to provide useful applications of today's nursing practices * Provides a computerized test bank for flexibility in creating tests (Includes FREE CD-ROM and MERLIN website

Medical-surgical Nursing Elsevier

The perfect companion to Brunner & Suddarth's Textbook of Medical-Surgical Nursing, this exemplary study tool helps you better understand the concepts, disease processes, and nursing care detailed in the textbook. Designed to help you review and apply important concepts from the textbook to prepare for exams as well as for your nursing career, each fully revised chapter includes three sections: Assessing Your Understanding (including fill-in-the-

blank, short answer, and matching questions), Applying Your Knowledge (comprised of case-based questions), and Practicing for NCLEX (containing both multiple-choice and alternate-format NCLEX-style questions). An Answer Key is included at the end of the book.

Instructors Manual and Testbank to Accompany Introductory Medical Surgical Nursing Independently Published

Awarded first place in the 2017 AJN Book of the Year Awards in the Medical-Surgical Nursing category. Learn how to become an exceptional caregiver in today's evolving healthcare environment! Written by a dedicated team of expert authors led by Sharon Lewis, *Medical-Surgical Nursing*, 10th

Edition offers up-to-date coverage of the latest trends, hot topics, and clinical developments in the field. Completely revised and updated content explores patient care in various clinical settings and focuses on key topics such as patient safety, NCLEX exam preparation, evidence-based practice, and teamwork. A variety of helpful boxes and tables make it easy for you to find essential information and the accessible writing style and building-block approach make even the most complex concepts easy to grasp. Best of all — a complete collection of learning and study resources helps you learn more effectively and offers valuable, real-world preparation for clinical practice. Highly readable format offers you a strong foundation in medical-surgical

nursing. Content written and reviewed by leading experts in the field ensures that information is comprehensive, current, and clinically accurate. Informatics boxes discuss how technology is used by nurses and patients in healthcare settings. Expanded coverage of evidence-based practice helps you understand how to apply the latest research to real-life patient care. Expanded Safety Alerts throughout the book highlight patient safety issues and focus on the latest National Patient Safety Goals. UNIQUE! "Levels of Care" approach explains how nursing care varies for different levels of health and illness. Bridge to NCLEX Examination review questions at the end of each chapter reinforce key content while helping you prepare for the NCLEX

examination with both standard and alternate item format questions. Unfolding case studies included throughout each assessment chapter help you apply concepts and procedures to real-life patient care. Managing Care of Multiple Patients case studies at the end of each section help you apply your knowledge of various disorders and prioritize and delegate patient care. Separate chapter on genetics focuses on the practical application to nursing care of patients. Genetics in Clinical Practice boxes address key topics such as genetic testing, Alzheimer's disease, sickle cell disease, and genetics-related ethical issues. Genetic Risk Alerts and Genetic Link headings highlight specific genetic issues related to body system assessments and disorders.

Lewis's Medical-Surgical Nursing: Assessment and Management of Clinical Problems, 5th ANZ Edition Lippincott Williams & Wilkins

Lewis's Medical-Surgical Nursing ANZ 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the new edition responds to key health

priorities, providing an innovative approach to addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment.
