### **FINANCIAL AND MANAGERIAL ACCOUNTING** McGraw-Hill Companies

"As our eyes are drawn upward to the skyline of great cities, it's important to remember that these impressive constructions are able to reach such heights only because their foundations are strong. In much the same way, being successful in the business world begins with fundamental courses like financial and managerial accounting. It is only when students have a firm grasp of concepts like the accounting cycle and managerial decision making that they have a base on which to stand, a strong foundation on which to grow. In this edition, as before, the Williams team has revised the text with a keen eye toward the principle of helping students establish the foundation they will need for future success in business. However, through new coverage of International Financial Reporting Standards and a revised globalization chapter, the Williams book also introduces students to larger themes and evolving concerns. This dual emphasis allows students to keep their eyes trained upward even as they become solidly grounded in accounting fundamentals"--

Accounting: Text & Cases is a product of lifelong dedication to the discipline of accounting. Covering both financial and managerial accounting as well as broader managerial issues, the book incorporates a breadth of experience that is sure to enrich your course and your students. The approximately 109 cases that make up most of the end of chapter material are combination of classic Harvard style cases and extended problems, with 12 complete new cases added to the 13th edition. The text is covered as two parts. Part 1 deals with chapters 1 -14 which cover financial accounting, while part 2 covers Chapters 15-28 which in essence is associated with management accounting. The tale end of part 2 also focuses on broader issues of control and corporate strategy. Both parts have been updated to reflect the current changes relevant to Accounting.

Working Papers, Volume 1, Chapters 1-15 to accompany Financial Accounting 14e, and Financial & Managerial Accounting 15e McGraw-Hill Education

What is my theory? How do I choose a theory? Why and how should I employ a particular method for collecting the empirical data? These basic questions concern everyone involved in research. A research study can be a voyage of discovering or choice of theoretical perspective as well as gathering empirics or facts on a problem or situation. This book provides a good guideline as to why and how to choose a particular theory or method to study an organisational phenomenon such as accounting. All the chapters provide both retrospective and contemporary views by scholars in the field. Each chapter documents the latest developments and research in accounting and control systems and provides valuable insights into methodological perspectives in accounting research. This second edition has also introduced a number of new chapters covering strategy-management control as practice, grounded theory approach, institutional logic and rhetoric, social interaction theory, actor-network theory and practice theory. The book is primarily intended for research students and academic researchers. It can also be used for undergraduate Honours course as well as postgraduate accounting and business methodology courses. Research organisations and consulting firms in accounting and business fields may also find this book useful. The principal aims of this second edition are (1) to update the chapters previously published in 2006 and (2) to introduce new chapters documenting recent developments in accounting research.

**Instructor's Resource Manual, Volume 2, Chapters 15-26 to Accompany Financial and Managerial Accounting** McGraw-Hill/Irwin

This book explores recent developments in the theory, strategic perspective and international

practice of corporate social responsibility. In particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment. It consists of three parts: Part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility. It takes into account social and governmental expectations for the new and extended role of companies in the economy and in society, and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility. Part two discusses the practical aspects relating to strategic management and corporate governance, corporate disclosure and reporting, as well as the empowerment of stakeholders. Lastly, part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings. Using numerous case studies, the book explores the challenges and tasks of CSR in emerging markets, in the fashion industry and in global and family companies. It identifies the changes that can be detected following the financial crisis, closing the loop and linking the empirical findings with the revised theoretical framework.
