Introduction to Advertising and Promotion Page Two

Review: "This book is a fantastic guide to online marketing, and the Internet in general. As a marketing practitioner, I've been finding my way own way through the online world for some time now but have always wondered if what I was doing was 'correct' and it would take me ages to find out what I needed to know through researching online articles, blogs, etc. I found this book to be fairly concise and focused. The references to other online articles that it includes are vast and can they be very absorbing. The best part about this is that it is written by someone that clearly has vast experience in the field and, unlike with some online articles, you get the feeling that what is advised is really 'best practice'. I'd recommend this book for anyone interested in digital marketing." Adam Butchart, Digital Marketing student Blurb: We love the Internet. We love digital and the connected world that we live in. We have spent the last six months gleaning every bit of knowledge, skill and opinion from the creative minds at Quirk.
