## TRAVIS ELAINA

**2017 CFR Annual Print Title 49 Transportation Parts 572 to 999** Veloce Publishing Ltd

This book details the evolution of Ford's family car through the golden era of Detroit. It tells how Henry took the no-frills Fairlane, added more zing to create the Torino, and satisfied America's luxury desires with the LTD II; and follows the evolution of Ford's midsize muscle cars, to the creation of the first car-based pickup - the Ranchero.

After a period of post-war austerity, in 1957 Alfa Romeo decided it was time to re-enter the market for luxury/executive class cars with a new range designed for the growing number and prosperity of potential customers. Thus, the first models in the new 2000 series emerged, followed by the 2600 series in 1962. That they were not hugely successful, although some 18,540 were manufactured between 1957 and 1966, can be attributed to a number of factors, principally cost. Largely ignored for many years, these cars are now recognized as a significant element in Alfa Romeo's history and this book is a valuable record of their story. Richly illustrated with over 200 colour and black & white photographs, this book introduces the history of the company and its early designs; describes the early Berlina saloon, Spider convertible and Sprint coupe, and their development into the 2600 series; details the evolution of the 1900-based engine into the 6-cylinder 2600 engine; provides a history of the SZ Sprint Zagato; includes information on prototypes, show specials, specification tables, colour schemes and production numbers and, finally, includes a chapter on owning a 2000 or 2600.

This is the fascinating story of how the Citroen SM came into being, with company politics and Maserati's involvement covered in detail. The text and pictures then follow the car's progress from its world premier at the 1970 Geneva Show until the final production models were built in July 1975. With 200 mainly color photos, full coverage of production models and a buyers guide this book is the complete Citroen SM resource.

Genevieve is the first definitive, documented, ownership history and cinematic record of the 1904 French Darracq motorcar. This car was propelled to international fame as Genevieve, in the record breaking 1953 film that centred around the annual London to Brighton run for veteran cars pre-1905.

*You & Your Jaguar XK/XKR* Veloce Publishing Ltd

The wedge-shaped V12 Lamborghini flagships were always spectacular - in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murcielago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

Revealing why Morgan returned to its original 3 Wheeler concept after a century. How the new 3 Wheeler was created, became a best-seller, and was made, this book shows what it's like to drive, strengths, weaknesses, and factory improvements made since the 2011 launch - from modifications, possible developments, and even why it is - or isn't - your kind of vehicle.

*Enlarged & revised 3rd edition* Wolters Kluwer Italia

A limited edition of 1500 copies. Grand Prix Ferrari is a brilliantly comprehensive, accurate account of the most important team in the history of motor racing. The highly readable and informative text is supported by over 200 interesting, and often striking, photographs.

**The Years of Enzo Ferrari's Power, 1948-1980** e-artnow sro  
 To Boldly Go details 26 sometimes controversial vehicles, from 1911 to present, all solving different design challenges. From the Issigonis Mini that changed design and social mores, to racers so successful they were banned from competition, from cars produced in millions, to one-offs, all created by those marching to the beat of their own drum.

Launched in 1971, the Alfasud was an all-new departure for Alfa Romeo, both in its design and its execution and became the best-selling model in the history of Alfa Romeo. Originally it was developed with the dual intentions of launching the company into large volume production and providing a more affordable model than their highly regarded sports cars. However, its story was far from straightforward. Although respected for its technically brilliant design and universally praised for its ride and handling, the model never quite reached its full sales potential and its reputation was marred by problems that could not have been foreseen. With over 240 colour photographs, the book includes a brief history of Alfa Romeo to the end of the 1960s. The development of the Alfasud's design and the political reasons for building a new factory are given along with the car's reception from both the press and owners. The evolution of the model from initial prototypes, to the improvements to build quality and performance, including the Giardinetta and Sprint variations are covered as well as Alfasuds in competition. The political and labour problems, as well as the early quality control issues are discussed. Finally, there are numerous specification tables, performance data, chassis numbers, engine codes and colour charts.

 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975.

Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.
