 The Book of Consciousness by Dr. Bara H.
 Loveland Have you ever wondered what
 Consciousness is, or the mind, the
 unconscious or Archetypes and Symbols -
 how they work and how to define these?
 Without arriving at the reach of
 Consciousness, there are numerous books
 on "consciousness;" there are conferences
 held, and groups searching for

"consciousness," with dictionaries
 attempting to define it. Why have they not
 found the ultimate definition of
 Consciousness, to this day of the
 publication of The Book of Consciousness,
 in January 2011? Could Bara's new book,
 The Book of Consciousness, hold the
 answer? Can it deliver the ultimate in
 Consciousness? There are many other
 questions, which science has not positively
 answered yet. Why is it that our "brain"
 (cerebrum), seat of the mind, has to be
 calmed from 40+ Hertz to 8 Hertz or less
 (literally put to sleep), in order to reach
 highest states of awareness, although the
 cerebrum is supposed to be the seat of the
 world's highest intelligence? Why is this
 "seat of highest intelligence" polluting the
 earth to the brink of dying of life? Why is
 the unconscious called unconscious, when
 it is able to construct meaningful dreams;
 and is there a difference between an

Archetype and a Symbol, appearing in
 dreams and myths? Could a neurosis not
 be a disease? And what is it the mind
 really knows? Profound contemplation of
 Consciousness must lead to further
 questions about the origins of Archetypes
 and Symbols, about wisdom and
 similarities of ancient Stone Age Symbols,
 East Indian and Egyptian scriptures,
 Runes, Mayan glyphs and biblical Symbols,
 or world religions in general. One may
 wonder, why an Egyptian god is frequently
 named in Christian churches, and is
 mentioned in both, the Old and the New
 Testaments. Is God "He," and could "He"
 exist? Could there be a different world
 behind our visible one, and could we have
 "Bio*Modulators" to sense the other
 world? What can we learn form a
 Germanic "king?" Is it possible that we
 have more than five senses and how many
 diseases could naturally exist? Can the

DNA communicate, and how many laws exist in the universe? What is the meaning of certain Bible verses, and what could have been the message, Jesus gave the world on the cross? Is New Age wisdom contained in the Bible, and could it be that common science limits itself, when excluding miracles it could perform with ease, protecting the animals from harm? Are there more levels of logic than one? How could we realize or activate them? What is the role, our belief plays in our life and in science? The Book of Consciousness begins where common science ends. Be surprised by the innovative answers, with some published about 30 years ago by this author! Be captivated by the author's authentic, new style; by the insights, humor and vivid experiences, enjoy the 40 figures and tables, as well as exercises, to reach altered states of awareness—naturally and at will. May The Book of Consciousness raise into Oneness the conscious of all those who read its 640 pages; may they be the "igniters," inspiring divine Oneness and Love in the perception of all! The scientific world appears highly evolved. But in the absence of some vital facts and Truth, the very Purpose of Science is being defeated. The world is endangered, physically, and spiritually. Physically we see energy in the environment peaking and falling violently bringing huge destructions and upsetting the climatic cycles. We see ecologies and the biosphere collapsing. In the spiritual realm, in the last century, the world experienced an awakening. This has empowered religions and they are emerging as a great threat. Religious fanatics in the absence of Truth of oneness are taking control. In ignorance, they are pushing society into commotion and a possible Great War where all weapons of mass destruction would come into play. Jesus Christ and the Spirit of God that He released is at the center of the New Spiritual Awakening. Religious/spiritual institutions are very powerful. Unless they are illuminated with Truth, the Earth and Humanity are doomed. There is a necessity to discover Calvary as a Science beyond Religions, such that humanity as a whole comes out of the bondage to religions and know Life or God Force within and know their Oneness. Classical science assumed the universe is material and built a machine view. It kept aside God. There was no place for life. Max Planck and Einstein, called attention to the role of the mind and thus brought life into science. Since then the world has shifted to

visualize the universe as a living one. Physicists today even tell us that the universe could be a giant mind. Research on consciousness in the modern west is mind centered and is aimed at developing intelligent supercomputers. Consciousness in the spiritual east is understood as a base field that creates and sustains the material world. Here the mind is not given importance. However, how creation happens is not explained. Creation according to science comes from Big Bang from the black hole from a Seed Atom and Particle. A black hole is known to destroy space-time, matter, and even energy, leaving the question of what banged at Big Bang? Time and death are a throne in the flesh of both scientists and spiritualists. Explaining the conquering of time and death and eternal existence in simplicity and sensibly has become Inevitable for both scientists and spiritualists. Both seem to fail. Life is known to be a conscious and intelligent system. It has parallel worlds [Male and female] and it has mechanisms by which it conquers time and death. Here the dominant male conceives in the recessive female to develop a New Physical Body and emerges to start a New Time Cycle. The east visualizes Universe as a Living Being [Lord Shiva] in whom both Masculine and feminine exist as one. He is understood as Lord of Meditation and source of Knowledge of Rishis. One can find many parallels between Lord Shiva and Jesus Christ. India has a Unique and profound knowledge of Life and Nature. The God of the East seems to be incarnated as God of the West [Jesus Christ] and is striving to bring back the memory of the lost knowledge. But some forces are resisting this leading the world into the destructive path. The Spirit of God or Creator that Jesus released is leading humanity into New Life and the illumination of his Mind such that we humans gain the lost Knowledge and Wisdom and emerge from darkness to light, from death to life. A Divine Plan is unfolding from Calvary for the Restoration of we humans back into the Golden Age. Calvary is a science of Conscious Creation. It is well in line with the First and Second law of Energy. The Physical reality remains largely the same but the Spiritual Backbone of the Universe shrinks to conceive and manifest in the physical as a UNIQUE PERSON [Jesus]. As he sacrifices His, Life, New Template is exposed into a creative state with free will to all souls- What Banged at Big Bang is the Consciousness and Intelligence of the Creator. We are Called to Transform and Translate into it.

Path of the Soul is an inspiring story of the spiritual unfoldment of Jesus as a man, a soul, and a spirit. In vivid detail, it reveals how Jesus was able to experience God as love, perform miracles, attain Christ consciousness, and ascend into the realm of pure light, wisdom, and love. Before Jesus became the way shower and messenger for the teachings of the Piscean Age, He was first and foremost a seeker of truth. Path of the Soul is a story of encouragement for all who are on a quest for universal truth and wisdom. It reveals how people progress from step to step and from one initiation to a higher initiation, regardless of their religion, nationality, ethnicity, or gender. In great detail, it explains how people can use the energies and forces streaming through the seven planes of earth to unfold, develop, and master successively higher states of mind and realization. You too can attain Christ Consciousness or buddhic Enlightenment. For you are a god-in-the-making with the potential to attain perfection and the inherent ability to serve as an agent of divine love, will, and purpose. This is the message of the way shower during these early days of the Age of Aquarius.

We live in a world characterized by intolerance, war, environmental degradation and economic collapse. In contrast, might it be possible to build a society in which tolerance, love and peace are the abiding principles? In this positive and inspiring book Danielle van Dijk shows how, beginning with our personal development, we can contribute to such a new, transformed world. She describes how we can develop a universal spiritual consciousness - what she refers to as 'Christ Consciousness'. Van Dijk emphasizes that the Christian mysteries took place on the physical plane, and distinguishes with great clarity between Jesus as a human being, the incarnation of Christ on earth, and the cosmic Christ. She builds bridges between the spiritual

research of Rudolf Steiner, the Nag Hammadi writings and the gospels of Mary Magdalene and Judas, culminating in a comprehensive and wide-ranging picture of Christ. By gaining insight into the nature of Christ's being, and undertaking practical exercises described here, each of us can achieve the new Christ Consciousness. In ancient times, selected individuals underwent rites of initiation within secret mystery schools. Disclosing the knowledge obtained there was punishable by death. In our time, however, the spiritual mysteries have become open and available to all. Initiation, says the author, involves 'walking the inner path to all-embracing love, which is known in gnostic and esoteric lore as Christ, the highest divine Being', leading to 'a sublime cosmic-orientated consciousness, which comes into existence when the higher self wholly exists within the individual human being.

Contemplation with Jesus Prayer Christian Alternative

Aquila H.I. Lee explores the development of early Christian understanding of Jesus as the preexistent Son of God. He first reviews recent attempts to explain the development as a result of the influence of Jewish angelology and similar speculations. In the second part he argues that neither the personification of various attributes of God, including wisdom, nor speculations about principal angels and a preexistent messiah in Second Temple Judaism ever provided a ready-made category for viewing Jesus as a divine and preexistent being alongside God. An examination of the Synoptic evidence for Jesus' self-consciousness of divine sonship and divine mission in the whole context of his life and teaching shows that his self-understanding was open to interpretation in terms of pre-existence. The author also examines the early Christian use of Pss 110:1 and 2:7 against this background. He proposes that the root of preexistent Son Christology is to be found in early Christian exegesis of these two messianic psalms (the catalyst) in the light of Jesus' self-consciousness of divine sonship and divine mission (the foundation). The tremendous impact left by the resurrection event and the resulting conception of Jesus literally enthroned to God's right hand led them to see Jesus as the preexistent Lord and Son of God. In the final part of this book Aquila Lee argues that the pre-Pauline 'sending' formula God sent his Son (Gal 4:4-5; Rom 8:3-4; Jn 3:16-17; and 1 Jn 4:9) derives from this understanding of Jesus as the preexistent Son of God rather than from divine wisdom christology.

Born in the Ukraine, educated in Munich, and having practiced medicine in the United States, author Alexis Georg Hoen has been exposed to widely differing political systems and religious beliefs, and he has always maintained an interest as to the origin of these beliefs and their relation to the innermost nature of man. In Christianity and Cosmic Consciousness, he interprets the words and the sacrifice of Jesus as pointing the way toward a realization of our innermost nature—the will to live and love that exists within all. Sharing his experiences and ideas about Christ's words and sacrifices, Hoen uses personal anecdotes and biblical examples to illustrate the nature of Christian belief. He provides a host of examples, including key illustrations from the Bible and relevant source material from other writers who address this topic. He shows us that through sacrifice we live in and for others. That is eternal life. Christianity and Cosmic Consciousness represents the core of Christian teaching without resorting to the supernatural and miraculous, yet doesn't try to disprove it.

On earth today, many Christians and humanity have now reached a stage where they must make a shift into the next level of their consciousness to enable them to communicate with Jesus Christ through prayer, meditation, and fasting to receive the baptism of the holy spirit to complete their rapture or ascension. In his book, *The Great Mission of Jesus Christ*, John Entsuah explains the most important key points. The first key point are the hidden teachings of Jesus Christ, which is also known as the spiritual gospel of Jesus Christ, where many teachings of Jesus Christ were rejected by the Christian council organized by King Constantine during his reign as the Roman emperor in the second century. The second key point is the great mission of Jesus Christ, where he came to give humanity the power of the Holy Spirit to awaken their Christ

consciousness to conquer sin and death. In the third key point, John Entsuah explains the second coming of Christ, which is about Christ conception and Christ-consciousness awakening in the heart of every soul on earth through prayer, meditation, and fasting to connect directly with Jesus Christ to receive the atonement power as the grace. Last of all, he explains that the human consciousness separates us from God because of the spiritual fall of Adam and Eve caused by Satan. Christ consciousness reconnects us back to God through Jesus Christ by receiving the atonement power through the baptism of the Holy Spirit and the light of Christ in the heart of our souls. This transform us all into Christ like beings with Christ body, Christ blood, and Christ consciousness to inherit the kingdom of God.

Yeshua is the real name of Jesus... so what does Yeshua mean? We call Yeshua Jesus due to Greek translations and an replacement of Y with J. Yeshua is the original Hebrew name of Jesus Christ who originally taught that mystic christianity is the way to Christ Consciousness Yeshua is the more common spelling of Yehoshuah which means God is Salvation. Aramaic was the language spoken by the original Jews and Jesus the Christ was a title meaning the anointed. More importantly, Jesus taught that Christ Consciousness was a mystic path to Truth attainable by all when he stated "The Kingdom Of God Is Within You " This book, inspired by William Walker Atkinson, begs the question: "Will the REAL Jesus Please Stand Up?" Most know Jesus Christ's true name is Yeshua and no historical figure has been more studied, scrutinized and examined. Yet most of what we have learned has been told strictly through the written works of the Bible. Many Christians today take this book to be the written word of God. However, anyone who has truly studied history and the Bible know that much has been altered and misinterpreted over time through language translations and the intentional "revisions" of church priests, Caesars and councilmen with less than best intentions. This book about Jesus is an effort to tell the most accurate depiction possible from an eastern mystic point of view. Unfortunately, the Orthodox church has attempted to make sense of and elaborate on metaphysical matters they hardly understood. Some call this occultism, gnosticism or secret esoteric doctrine but the yogis state this is ancient wisdom that has always been available to the sincere Truth Seeker This work was

written in an honest effort to expound on the mystical interpretation of Jesus' teachings. To remain as authentic as possible we've made an effort to present Jesus in a way that is most likely accurate to the culture and climate of his times. Firstly, we've decided to address Jesus by his Aramaic birth name of Yesoshuah in which the more common alternative spelling is Yeshua. Yeshua of course means "God is Salvation." Yeshua known as the Son of God proclaimed ""not to throw pearls before swine"" because those that don't understand and appreciate the True meaning will merely "trample" on the message. He often spoke in parable and this presentation will seek to shine the Light on the Eternal Truth of man's spiritual Being ""Many rivers... One Ocean; many branches... One Tree; many paths... One Destination; many stories... One Truth "" 1 S.O.U.L. Publishing"

Excerpt from The Consciousness of Jesus Christ that the evangel was uttered, but, rather, that men should receive Christ and live into his conscious being, as he in the house of his humanity lived into the conscious life of the Father. A too great exhibit of the detail of the earthly walk of Jesus would have defeated the exclusive ends of that which was written that, reading, we might believe, and that, believing, we might be saved. A strictly scientific study of the consciousness of Jesus would fall short of the ends at which we aim. Every thoughtful student of modern-day theological literature has noted the too frequent absence of both the spirit and the letter Of subjective inquiry from the methods of criticism. The critics have contented themselves with examining the aspects of the Old and New Testament Scriptures rather than looking deeply into the spirit and purpose of their writers. Stress is laid upon his torical accidents, textual peculiarities and difficulties, rather than upon the tremendous facts symbolized by, and latent in, the writings, whose peculiarities and difficulties are. Why are we born? For what purpose are we here? The longer we remain unaware of what is taking place within us of what drives us and what can liberate us from the bonds of egocentric behavior the longer we allow what the Buddha called the sorrow of life to hold sway. The sorrow of life is the sum and consequence of our total identification with the world that is created by self. The word Consciousness means something more than what the mind of self thinks, imagines, or conceives. Awareness in Pure Consciousness is an awareness that is other than self and beyond thought. Contrary to traditional thinking, the so-called unseen, unknown world is nothing more than Consciousness of which we are unaware. Unawareness in Consciousness has been evolving into Awareness in Consciousness since before time began. The author of this work comprehensively sets forth a meaning of ancient scripture that likely has not been advanced to you before. He demystifies ancient legends and myths so the essential truth of ancient teachings shines through. Using ancient scripture as a guide, he insightfully explores a growing conscious awareness that has been emerging within mankind over the last few thousand years. A must read for anyone looking to discover the deeper meaning of ancient scripture beyond a literal interpretation of the words.

The Witness of the Oriental Consciousness to Jesus Christ O Books

The self-consciousness and human knowledge of Christ is a contemporary christological issue which seeks to understand the awareness that the God-man, Jesus Christ, possessed of himself during his life on earth. The present question primarily concerns itself with exploring how the Son knows that he is the Son in his human mind. Traditionally this question has been asked and answered that, through the beatific vision, the Son knew himself as divine in his human mind. However, recent theories advanced by scholars seem to preclude any notion of beatific knowledge in the Incarnate Son. This book explores the perspectives of three main authors, Jacques Maritain, Karl Rahner, and Thomas Weinandy, in relation to the present question, and attempts to provide an answer for how the Incarnate Son apprehended his divine identity through his human operations. Considered also is

the scope of Christ's human knowledge with regard to two specific objects of knowledge. These concern whether the Son as man had an awareness of those for whom he gave his life (Gal 2:20) and whether the Son was really ignorant of the eschatological final "day and hour" (Mark 13:32; Matt 24:36).
