"An art appreciation text that makes students want to "Explore" art"--

Art Appreciation Routledge

Experience the uplifting power of art on this breathtaking visual tour of 2,500 paintings and sculptures created by more than 700 artists from Michelangelo to Damien Hirst. This beautiful book brings you the very best of world art from cave paintings to Neoexpressionism. Enjoy iconic must-see works, such as Leonardo da Vinci's Last Supper and Monet's Waterlilies and discover less familiar artists and genres from all parts of the globe. *Art That Changed the World* covers the full sweep of world art, including the Ming era in China, and Japanese, Hindu, and Indigenous Australian art. It analyses recurring themes such as love and religion, explaining key genres from Romanesque to Conceptual art. *Art That Changed the World* explores each artist's key works and vision, showing details of their technique, such as Leonardo's use of light and shade. It tells the story of avant-garde works like Manet's *Le Dejeuner sur l'herbe* (Lunch on the Grass), which scandalized society, and traces how one genre informed another - showing how the Impressionists were inspired by Gustave Courbet, for example, and how Van Gogh was influenced by Japanese prints. Lavishly illustrated throughout, look no further for your essential guide to the pantheon of world art.

Dance Appreciation is an exciting exploration of how to understand and think about dance in all of its various contexts. This book unfolds a brief history of dance with engaging insight into the social, cultural, aesthetic, and kinetic aspects of various forms of dance. Dedicated chapters cover ballet, modern, tap, jazz, and hip-hop dance, complete with summaries, charts, timelines, discussion questions, movement prompts, and an online companion website all designed to foster awareness of and appreciation for dance in a variety of contexts. This wealth of resources helps to uncover the fascinating history that makes this art form so diverse and entertaining, and to answer the questions of why we dance and how we dance. Written for the novice dancer as well as the more experienced dance student, *Dance Appreciation* enables readers to learn and think critically about dance as a form of entertainment and art.

Philosophy of Art Taylor & Francis

Music moves through time; it is not static. In order to appreciate music we must remember what sounds happened, and anticipate what sounds might come next. This book takes you on a journey of

music from past to present, from the Middle Ages to the Baroque Period to the 20th century and beyond!

A Philosophical Perspective Teacher Created Resources

From the BBC Proms to Bernstein's Young People's Concerts, initiatives to promote classical music have been a pervasive feature of twentieth-century musical life. The goal of these initiatives was rarely just to reach a larger and more diverse audience but to teach a particular way of listening that would help the public "appreciate" music. This book examines for the first time how and why music appreciation has had such a defining and long-lasting impact—well beyond its roots in late-Victorian liberalism. It traces the networks of music educators, philanthropists, policy makers, critics, composers, and musicians who, rather than resisting new mass media, sought to harness their pedagogic potential. The book explores how listening became embroiled in a nexus of modern problems around citizenship, leisure, and education. In so doing, it ultimately reveals how a new cultural milieu—the middlebrow—emerged at the heart of Britain's experience of modernity.

Contemporary television has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art. In *Appreciating the Art of Television*, Nannicelli contends that televisual art is not a recent development, but has in fact existed for a long time. Yet despite the flourishing of two relevant academic subfields—the philosophy of film and television aesthetics—there is little scholarship on television, in general, as an art form. This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature, while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate. It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars, critics, students, and fans—namely the comprehension, interpretation, and evaluation of specific televisual artworks.

Principles of art appreciation John Wiley & Sons

Written in English by a Japanese scholar in 1906, "The Book of Tea" is an elegant attempt to explain the philosophy of the Japanese Tea Ceremony, with its Taoist and Zen Buddhist roots, to a Western audience in clear and simple terms. One of the most widely-read English works about Japan, it had a profound influence on western understanding of East Asian tradition.

This book is more than an introduction to the psychology of art appreciation, it puts into perspective the research carried out within the area and offers a new understanding of the relationship between art and viewer. A number of studies within the psycho-physical, cognitive, psychoanalytic, and existential-phenomenological schools of thought are presented in order to demonstrate how their views on the appreciation of visual art vary. Five different types of art appreciation, ranging from a spontaneous preference for a work of art to a blissful experience of transcendence, are identified and described.

Written for those who are new to the study of art, *Art Appreciation: An Introduction to the Formal Elements and Mediums* familiarizes readers with foundational concepts of art appreciation and teaches them all they need to know in order to consider and discuss what artists create. The book concentrates on the formal elements and mediums, and introduces art-related vocabulary commonly used by artists and art historians. The accessible content is organized into four primary units. In the first section, students begin with an introduction and learn how art functions within the public sphere. The second section discusses the formal elements of art including line, space, color, motion, and pattern and texture. It also addresses balance, emphasis and focal point, and scale,

repetition, and unity. The third section explores various art mediums such as drawing, printmaking, painting, photography, sculpture, and architecture. In the final section students are introduced to specific time periods of the renaissance and modern art era as well as a chapter devoted exclusively to Vincent van Gogh. Featuring an extensive glossary for easy reference and devoted to necessary fundamentals in the discipline, *Art Appreciation* is ideal for art survey courses, art history, and introductory art appreciation.

From a leading art instructor at the Pennsylvania Academy of Fine Arts in Philadelphia, a complete survey of drawing as an art form covering its history, materials, and key techniques, alongside step-by-step demonstrations. *Foundations of Drawing* is a comprehensive and authoritative overview of the history, aesthetics, methods, and materials of the drawing medium. Throughout, clearly defined demonstrations provide easy access to the practice of drawing as well as the history and development of core drawing techniques. Richly illustrated, the book contains reproductions of the finest master drawings from the fifteenth century to the present. Unlike other drawing instruction books that focus on step-by-step lessons exclusively, *Foundations of Drawing* provides readers with the context and background to help understand just why these materials and methods are so vital for successful drawing.
