2019 California Plumbing Code Createspace Independent Publishing Platform

The 2019 Edition of the California Plumbing Code© (CPC) contains plumbing design and construction standards. Provisions contained in the CPC provide minimum standards to safeguard life or limb, health, property and public welfare. It also protects against hazards that may arise from the use of plumbing piping and systems by regulating and controlling the design, construction, installation, quality of materials, location and operation of plumbing piping systems within the State of California.

We create these self-practice test questions module (with 120 questions) referencing both the requirements set forth in the adopted IPC as well as some CT specific information currently valid in the

plumbing trade. The focus is on code compliance - an answer can be correct only if it does not violate the code. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 6 or 7. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. You should use this product together with other study resources for the best possible exam prep coverage.
