 Over three decades, Gillian Howie wrote at the forefront of philosophy and critical theory, before her untimely death in 2013. This interdisciplinary collection uses her writings to explore the productive, yet often resistant, interrelationship between

feminism and critical theory, examining the potential of Howie's particular form of materialism. The contributors also bring to this debate a serious engagement with Howie's late turn towards philosophies of mortality, therapy and 'living with dying'. The volume considers how differently embodied subjects are positioned within public institutions, discourses and spaces, and the role of philosophy, art, film, photography, and literature, in facing situations such as sexual oppression and life-limiting illness.

Katie Langston is an unlikely convert to Christianity. She grew up in a devout, conservative Mormon family in Utah, served a proselytizing mission to Bulgaria when she was 21, married for "time and all eternity" in the Mormon temple when she was 23. From the outside, she had a typical Mormon life. Inside, she was coming apart at the seams. From childhood, she battled "The Questions"—obsessive-compulsive disorder, though she didn't have a diagnosis for it until much later—and lived inside a complex maze of anxiety and fear. This was compounded by Mormonism's emphasis on "worthiness," a designation of acceptability in Mormon practice, that brought her to the edge of despair as a young mother. Then, almost by accident, she had an encounter with the grace of Jesus Christ—and her world changed. In candid but not sensationalized ways, Langston explores little-understood Mormon practices and teachings while grappling with universal human questions such as the nature of faith, the complexity of family, the process of healing, and what it means to truly belong. This book is intended to be a bridge-builder, a way to help non-Mormons understand Mormonism and Mormons orthodox Christianity through the power of personal narrative. Most of all, it is a testimony of Jesus Christ, in the hopes that those who read it—Mormon, Christian, or neither—will catch a glimpse of the spectacular, life-changing grace of God.

From the mid-20th century to present, the Brazilian art, literature, and music scene have been witness to a wealth of creative approaches involving sound. This is the backdrop for *Making It Heard: A History of Brazilian Sound Art*, a volume that offers an overview of local artists working with performance, experimental vinyl production, sound installation, sculpture, mail art, field recording, and sound mapping. It criticizes universal approaches to art and music historiography that fail to recognize local idiosyncrasies, and creates a local rationale and discourse. Through this approach, Chaves and Iazzetta enable students, researchers, and artists to discover and acknowledge work produced outside of a standard Anglo-European framework.

In the 1970s John Baily conducted extensive ethnomusicological research in Afghanistan, principally in the city of Herat but also in Kabul. Then, with Taraki's coup in 1978, came conflict, war, and the dispersal of many musicians to locations far and wide. This new publication is the culmination of Baily's further research on Afghan music over the 35 years that followed. This took him to Afghanistan, Pakistan, Iran, the USA, Australia and parts of Europe - London, Hamburg and Dublin. Arranged chronologically, the narrative traces the sequence of political events - from 1978, through the Soviet invasion, to the coming of the Taliban and, finally, the aftermath of the US-led invasion in 2001. He examines the effects of the ever-changing situation on the lives and works of Afghan musicians, following individual musicians in fascinating detail. At the heart of his analysis are privileged vignettes of ten musical personalities - some of friends, and some newly discovered. The result is a remarkable personal memoir by an eminent ethnomusicologist known for his deep commitment to Afghanistan, Afghan musicians and Afghan musical culture. John Baily is also an ethnographic filmmaker. Four of his films relating to his research are included on the downloadable resources that accompanies the text.

'For all these years I've told stories. Sometimes these days I also tell them on the radio. I've met some amazing people and their stories need told too. The first time Deacon Blue ever played Wembley Arena I started to introduce a song only to hear, "Get on with it" shouted from Row Z. We proceeded with the song, but I often thought I'd quite like to finish that story.' In 1986, Ricky Ross started a full-time career in music, which has lasted for over 35 years. His earlier working life was spent in youth work and teaching in his home city of Dundee, and his adopted home of Glasgow. It was in these two cities where he spent his formative years learning how to write and play songs. Having always written about the people and places

who've made an impact on his life, it's no surprise that this is how he has approached *Walking Back Home*, his first ever memoir, which takes the reader on a journey from Ricky's childhood to the rollercoaster of leading his band to top of the charts and their break-up, his solo career and Deacon Blue's recent renaissance.
