security guard, stationary players must monitor an overnight shift through a bank of security cameras at a children's pizza joint, and keep an eye out for the animatronic animal robots, which have a tendency to mischievously move around at night. From the just-off-screen action, to the clever use of creepy noises, to the murky onscreen mayhem, this game requires players to achieve set

goals in a fixed amount of time, and treats them to a fright fest with a fresh twist that keeps them coming back for more. The "Five Nights" are levels, and they get progressively more difficult to survive. Five Crazy Nights: The Survival Guide to Five Nights at Freddy's and Other Mystery Games celebrates the ingenuity of the game, and gives readers the tips and tools they need to not just survive,

but thrive, into the sixth night at Freddy's and learn more about the ever-evolving FNaF world. CONTENT INCLUDES: • History of the Game: The interesting back-story of the creation of the game and the Five Nights at Freddy's world. • Tips & Tricks: Including how to maximize your power supply and getting the most out of your doors. • Opponent Tendencies: Learn the tendencies of

each terrifyingly cute robotic animal. Halloween Truth Or Dare Independently Published Siblings Gabrielle and Michael are taken on an adventure of a lifetime as they go in search of artefacts and truth. On their adventure, they meet some very unlikely companions and lifelong friends, as well as foes. Gabrielles journey will take her on a dangerous path, one of self-discovery

and pain, love and loss. With a path already chosen for her, can she fight fate and destiny, or will she be doomed by her prophecy? **The Broken Places** Triangle Interactive, Inc. Ghosts. Spooks. Specters. We've all heard stories of things that bump in the night. Tortured spirits, restless souls. The stories contained in the pages are much like the first Spooky Tales and

Scary Things, and that is that they are based on true events. Spirits in the Attic: A lowly writer must find somewhere to stay for the night after traveling. Is the bed and breakfast he happened upon too good to be true? What tragedies befell this place? The Fall: Andrew couldn't sleep. He did all that he could. If it was on the market, he tried it. Pills, diets, machinery; nothing did the trick.

Nothing, that is, until a chance advertisement about a miracle sleep aid scrolled by his social media news feed. It's worth a shot, right? What could go wrong? Father Figure: A family is protected by the patriarch of the family. When that member is unable to protect them, who will save them? (Based on a true story from my grandmother) The Frozen Eye: Under the Ice Queen's rule

and watchful eye, one young girl must find a way to escape her dystopian hell. Can Alma save herself before it is too late? *As read in the anthology "Once Upon a Dystopia." In addition to a wonderful true story in the preface, I'm including a bonus story, "Roulette," which was a submission to the Veterans Creative Department, and won first place in the national contest!

Jonah and the whale? Heart that. David and Goliath? Know them. Noah and the ark? So it rained . . . Get ready for wild, wacky, and weird stories you'd be surprised to find in Scripture. But beware: It's not your parents' storybook! *Playthings* Tor Nightfire Death is not scary it is fun ! (Scientific evidence) It is not the process of death per se that is scary.

One who is born has to die one day. We all know this truth. Scary is the fear of untimely death when one has not finished his/her responsibility and the thought of leaving behind our loved ones and children. Nothing is happening to the person who is dying..death is nothing but a doorway to return back home, to the place where we, immortal souls belong. People are scared

because they are not aware of what death and process of dying is. There are so many links, books, you tube videos and scientific evidences on Google available for what happens when we die, NDE, exploring life between lives and spiritual world. One can experience the past life regression sessions too and visit many past lives to know the purpose of this lifetime. We need to

remind ourselves that we are here only for a short period and for a specific purpose. Once that is fulfilled, we will leave and go back to the eternal world. *Shadows of Truth* Independently Published From a millennial media maker and award-winning social critic, an accessible, straightforward, and remarkable guide that "invites us beyond the old stories we've told

about ourselves, and into the wonder of our dreams, hopes, and love—so we can find our truth and purpose” (Glennon Doyle, New York Times bestselling author) for a generation paralyzed by the pressures of life. Behind the glossy Instagram pictures, many people in their 20s and 30s are living frustrating lives: overwhelmed and confused, anxious and inauthentic,

exhausted and afraid. They are leading lives that, unbeknownst to them, have been shaped by everyone but themselves. From social media to the workplace, the stories that they have believed have left them constantly seeking a better life but rarely ever finding it. Erica Williams Simon saw this all too well. At 27, she abruptly walked away from her career as a rising political

media star to find her own truth and a truth that would help others finally build a life worth living. She rejected the lies that the world had taught her, and rewrote the ideas that have the power to shape a generation. You Deserve the Truth is a “refreshingly blunt take on happiness” (Publishers Weekly) and is a masterclass in how to challenge the narratives about fear, work, identity, success, love,

and life. This “smart and all too real guidebook for anyone striving to craft an authentic and inspired life from the ground up” (Franchesca Ramsey, host of MTV’s Decoded) gives you the tools you need in order to break free from the narratives holding you back from starting an exciting new phase in a beautiful life. Susan Perabo's

short-story collection, Who I Was Supposed to Be, was named a Best Book of 1999 by the Los Angeles Times, The Miami Herald, and the St. Louis Post-Dispatch. The Boston Globe proclaimed the debut "a stunning introduction to a fresh new literary talent." Now Susan Perabo returns with The Broken Places, her eagerly anticipated novel about love and honor and how the

aftermath of one terrifying night -- and one heroic act -- affects a close-knit family. Twelve-year-old Paul Tucker knows his family is something akin to royalty in small-town Casey, Pennsylvania. His father, Sonny, is a dedicated career fireman, in line for the position of chief, long held by Paul's late grandfather, a local legend whose heroics continue to occupy the hearts and

minds of all who knew and worked with him. Paul's mother, Laura, is a math teacher at the high school; Paul is sometimes annoyed by her worries over him (and her apparent lack of worry over his father), but his life is generally untroubled, his future bright, his time measured by sport seasons. But on a windy October day, the collapse of an abandoned farmhouse forever alters

the fates and perceptions of Paul, his family, and those closest to them. Sonny and the other Casey firemen attempt a dangerous rescue to reach a teenager buried under the rubble, and when Sonny himself is trapped by a secondary collapse, Paul, his mother, and the crowd of onlookers believe the worst. The wait is excruciating; it's baby Jessica all over again, but this time the

"innocent victim" is sixteen-year-old Ian Finch, a swastika-tattooed hoodlum who may have brought the house down on himself while building bombs. Still, when Sonny emerges from the rubble hours later, the maimed teenager in his arms, the rescue becomes a minor miracle and a major public relations event, a validation of all things American and true. Sonny is immediately

hailed as a national hero. And Paul's life is suddenly, and irrevocably, changed. Beyond the limelight, the parades, and the intrusion of the national media into a quiet and predictable life, the Tucker household balance is upset. And Ian Finch's curious and continued involvement in Sonny's life creates a new and troubling set of hurdles for Paul to overcome. Somehow, though his father has

been saved, he continues to slip through Paul's fingers. Secrets, lies, and changing alliances threaten Paul's relationship with his father and his mother and his understanding of what holds a family -- and a town -- together. The Broken Places is a brilliant meditation on the psychology of heroism, the definition of family, and the true meaning of honor. With pitch-perfect dialogue,

subtle but stunning insights, and a dazzling ability to uncork the quiet power of each character, Susan Perabo's *The Broken Places* uncovers and celebrates the unsettling truths of human nature.

Sam didn't like school much and he hated writing stories. "I want you to write a story about the scariest day of your life," his teacher had

said. What could he write about? That was when he heard the noise, and the floor started moving. Suggested level: primary. *No Matter What You Say, Furi-san is Scary! Vol. 3* Seven Seas Entertainment Although some sharks are very scary and dangerous, most species are quiet creatures who pose no threat to humans at all. Readers will learn all about the many kinds of sharks, what they eat,

where they live, and their importance to the ocean ecosystem in this fact-and-photo-packed look at one of nature's top predators. **Seeing Things** Red Chair Press Teachable Tales: Tommy Tells the Truth brings to life my father's childhood character, Tommy Tells the Truth. My father taught my brother and I from a young age that we had to be honest and not lie. Sometimes, we were scared.

Sometimes we hid things from our parents. We learned these valuable lessons young so we would not repeat these behaviors as we were older. This is the story of Tommy. Tommy learns a lesson at an early age that telling the truth can be scary, but it helps being honest. Tommy wants to play sports with his friends like many young children do but did not prioritize his homework

and study for a test which ultimately hurt his grades and lost his parent's trust. Tommy was conflicted as to telling his parents about his bad grade, so hiding it in his drawer was what he did. He played ball with his father, while his mother found the grade and later confronted him. Tommy wanted to play but ended up getting punished for not telling his parents. Sitting in his room, he

realized that he was wrong and went to apologize to his parents. From then on, he was a straight A student and decided to prioritize his homework over sports and was always honest with his parents. Learning lessons can be hard, but they are valuable at young ages. 1

really happened in Roswell, New Mexico in 1947? Was it one UFO or three UFO's? What about survivors? Was the whole incident a fairy tale, a myth, a lie?
