The objective to this study is, essentially, to arrive at a view of exoticism as a relation between (Western) Self and (exotic) Other that is fluctuatingly tenuous or strong depending on the narrating subject's position vis-a-vis a point of departure (and return) that I have alternately called Home, Center, and audience.

Author Max Gauna has contributed to Rabelaisian studies an analysis of the author's four authentic novels, considered in the light of his own description of them as mythologies. In the preface, Gauna remarks that such an enterprise

requires attention to meaning and recognizes that meaning itself is called into question by much of postmodernist criticism, especially deconstruction. He also observes that deconstruction impinges on Rabelaisian criticism with particular force insofar as it may be seen to derive from the doctrines of the classical sophists as they are depicted in the Platonic dialogues, which themselves are an inspiration for author Rabelais. In the introduction, Gauna relates the question of critical ideology to the age-old philosophical dialectic of the One and the Many. He shows how Rabelais's work exemplifies the tensions of that dialectic in a highly significant way, in that the multiform exuberance of the writing may be seen to play against its philosophical tenor, which espouses wholeheartedly the cause of the One against the Many. He then considers the question of mythology and suggests that Rabelais's stories may properly be seen as philosophical rhetoric, or the logotherapy of a committed Platonic doctor. He attends lastly to the question of

laughter. Gauna then devotes a chapter to each of the Rabelaisian chronicles, considered as mythology. An outline of all significant sections is provided, but where existing interpretations seem satisfactory, the reader is simply referred to the relevant critical literature. Thus, while chapters 1 and 2 are relatively shorter insofar as the philosophical content of the first book is episodic and that of the second largely clear-cut, new exegeses of certain sections of both are adumbrated. Chapter 3 suggests a new reading of the third book as a whole, in which Rabelais is seen to draw inspiration from the doctrines of Plato and the battle of Socrates with the sophists, incorporating into his worldview the central role of divination and the good demons who mediate between God and man. Chapter 4 examines in detail the various myths of the fourth book and suggests that in it Rabelais propounds a radically unorthodox syncretism in which the poetic attractions of Platonic and Plutarchan demonology are preponderant, in which Christ Himself may be seen as the greatest of

the demons, and where the climax of the book shows us the hero Pantagruel in direct communication with his own guardian demon. A short epilogue sums up Gauna's conclusions and suggests reasons for the literary and philosophical attractions of magical Platonism.

From his cult classic, *I Smell Esther Williams*, to his wildly popular and insightful column "Wild Kingdom" appearing in *Esquire* magazine every month, Mark Leyner has been giving us up close and personal encounters of the most hilarious kind for over a decade. Now, in his new novel *The Tetherballs of Bougainville*, Leyner shares with us, long last, the quintessential coming of age story that every writer, at some point, is compelled to tell. In the novel we meet young Mark Leyner, 13-years-old to be exact, as he waits in a New Jersey prison to witness his father's execution. Adolescence is never easy, and it just so happens that this junior high schooler is on deadline to turn in a screenplay for which he has already been awarded the Vincent and Lenore

DiGiacomo/Oshimitsu Polymers America Award. And, as it was for all of us during our teenage years, nothing seems to go as planned. Written as autobiography, screenplay and movie review, *The Tetherballs of Bougainville* twists three familiar narrative forms into an outlandishly compelling story. Leyner's use of the media-driven formats brilliantly reflects our secret, shameful and hilarious desire to experience our private lives as mass entertainment. *The Tetherballs of Bougainville* skewers and celebrates American pop culture in the late twentieth century. Leyner's version of our lives is so deeply funny because it is so painfully true.

Did the 16th-century Reformation influence French language and culture? This book, the fullest available bibliography of religious printing in French during the early Reformation, provides the materials to answer this question. It assembles information on all known printed editions in French on religious subjects during the crucial period 1511-51 (up to the Edict of Chateaubriant), giving full bibliographical details, library locations and references in secondary literature. An alphabetical list is complemented by a chronological list, and by an analysis of editions by printers and publishers. The work provides the fullest checklist available of works and editions produced from all parts of the religious spectrum, both Roman Catholic and Protestant. It reveals who were the most active and influential writers, which were the most popular texts, and which were the most active printing centres in the field of religious printing in French. The chronological survey shows the

immense growth in publications triggered by the Reformation movement, and reveals the radical change in religious sensibility during the period, from contemplative meditation to polemical debate.

This book provides an insightful approach to understanding the contemporary circulations of feminist repertoires and shows how the international/transnational circulations of gender are interconnected, even coextensive, with the globalization process itself. Fed by a shared reflexivity on relations among activist groups, state institutions, and international actors involved in the production and dissemination of contemporary norms dealing with gender, each chapter shares methodological premises and studies the circulation of gender-related norms and knowledge in situ and by varying standpoints. Specifically, the authors de-compartmentalize the academic disciplines and go beyond classical geographic divisions, in order to map social spaces and networks of actors involved in the production and circulation

of gender-related repertoires. Last, the book grasps circulatory processes and entangled social phenomena, which are usually subject to disciplinary and thematic divisions separating collective action and public action, development aid and feminism, law and international relations. Focused on collective and individual experiences within women's organizations, activist careers, unstable mobilizations, public policies temporalities, the chapters reveal the mechanisms through which these arrangements are made and shed light on strategies deployed by actors rooted in specific social and political contexts. This book will be of key interest to students and scholars of gender studies and more broadly to politics, International Relations, sociology, geography, history, and anthropology.

In this illustrated book, the renowned Latinist Pierre Grimal examines the multitude of churches in pontifical Rome, rediscovering through them not only the traces of nascent Christianity but also the spirit of the ancient Imperial city.

Taken together, the churches of Rome reveal the evolving variations upon a basic architectural typology, while also allowing a dramatic summary of the history of Christianity, with its upheavals, schisms, and spiritual developments. *A Novel* Addison-Wesley First Published in 2004.
