by your Sun sign, think again! Your emotions, instincts, intuition, and most private passions are dominated by your Moon sign. In this eye-opening volume, world-famous astrologer and therapist Donna Cunningham unravels the often bewildering effects of lunar influence: a person's potential for intimacy, sense of security, family ties, susceptibility to indulgence

in food or drink, career ambition, as well as how men and women respond differently to the same lunar promptings in love and life. Cunningham provides all the information you need to determine your own and others' Moon signs—and analyze their power. Moon Signs also charts the daily, monthly, and yearly courses of the moon, which create those predictable

mood swings—our “emotional weather.” The time-honored tradition of astrology has come into its own as a resource for human development and spiritual insight. For astrological novices and veterans alike, Cunningham's invaluable guide will pave the way to a more profound understanding of the uncharted and sometimes dark side of the soul. *Featuring: Moon Spells and Moon*

The inner planets-- Mercury, Venus, Mars-- are the foundations of what psychology calls the ego, the sense of personal self. In this fourth volume in the Seminars in Psychological Astrology series, Liz Greene and Howard Sasportas discuss the value of the inner planets as they symbolize important aspects of personality. We are not trained to give

value to our private needs, feelings, and qualities. Indeed, because of their intensely personal nature, they are often suppressed or overlooked as irrelevant to society. Likewise, the inner planets have tended to be given less attention by psychological astrologers for they are the personal planets. The authors show us that in order to give the most that we can to our interactions with the rest

of the world, we must first understand our own needs and have a healthy ego a personal authenticity. Their book teaches us the process of understanding how these three planets actually represent our individuality, and how they directly color the energy of the rest of our horoscope. Greene and Sasportas blend the processes of astrology and psychology in a unique and important way in this indepth insight into

the archetypes represented by the inner planets. Moon Sign Rowman & Littlefield Your best life is written in the stars You may know what astrology is - but what does it actually do? Why is it so effective, and how can it be used as a tool for manifestation? These are the questions Aliza Kelly answers in This Is Your Destiny. Elevating astrology from horoscopes to self-

actualization, Aliza goes beyond the zodiac, illuminating the universe within. As a rising star in modern spirituality, Aliza shares the wisdom of her extensive private practice, synthesizing thousands of one-on-one client sessions, intimate stories from her personal journey, and esoteric mystical knowledge to inspire readers through hands-on exercises,

[The Mixology of Astrology](#) Lulu.com How much do you really know about your Zodiac Sign? If you have your Sun in Aries you

probably think of yourself as a typical Aries. But what if Aries is your Moon Sign? And what if Aries is your Rising Sign? Sara Shipman looks at Aries in detail, tracking your Aries Sun and Aries Moon through the houses of your natal chart. And if you have Aries rising? Sara looks at how your personality is best expressed through the house and sign of Mars, your chart ruler. We tend to think of the

archetypal
 Aries as follows: "If you have the Sun, Moon or Rising Sign in Aries you will have a lot of Aries the Ram in your nature. Ruled by Mars, you are direct, fearless and enthusiastic. You tackle everything head on. When you want something you want it now and and you're always first in the queue because guess what? Life is a competition". But, in this book, Sara Shipman tackles Aries

head on to give you a deep insight of what it means to be influenced by this, the most dynamic of the Zodiac Signs. Whether you have your Sun, Moon or Rising Sign in Aries, this book gives you an in-depth analysis of your sign, from the myths of pre-history to a full astrological appraisal of your character, emotional needs and public persona. To quote from

Sara's introduction to the book: "When I started planning this book I realised it would have to be about more than just Aries the Sun sign. So, to make this book about Aries truly relevant to all Aries influenced people out there, I've split the text between Aries Sun, Aries Moon and Aries rising. I've also looked in detail at Mars, Aries' ruling planet which is also the chart ruler for

<p>those of you with Aries on the Ascendant. What I've ended up with is I believe unique. This book has become the ultimate 'cook book' for Aries influenced people - and yes, truly, there is something in here for all of you."So, if you're ruled by Mars and want to know how you can make this zodiac sign work for you, this book is a 'must read</p> <p><i>A Lunar Zodiac for Astrology & Magic</i></p>	<p>Ballantine Books Now in its fourth edition, this highly regarded book is ideal for those who wish to solve a variety of practical and recreational problems in astronomy using a scientific calculator or spreadsheet.
