LOOSELEAF FOR ESSENTIALS OF LIFE-SPAN DEVELOPMENT

McGraw-Hill Education

Written by the author of highly effective psychology texts relied upon by thousands of teachers and students, Educational Psychology is a well-crafted text that emphasizes the application of theory to classroom practice. With richly evocative classroom vignettes provided by practicing teachers, as well as the most case studies - three per chapter - of any Introductory text, Santrock's Educational Psychology helps students think critically about the research basis for best practices. Additionally, Santrock's hallmark Learning System organizes the content into manageable chunks to support retention and mastery, and make it much more likely that students will have an engaging and successful course experience.

Children McGraw-Hill Humanities/Social Sciences/Languages

As a master teacher, John Santrock connects current research with real-world application, helping students see how developmental psychology plays a role in their own lives and

future careers. Through an integrated learning goals system, this comprehensive and chronological approach to lifespan development helps students gain the insight they need to study smarter, stay focused, and improve performance.

Loose Leaf for Life-Span Development McGraw-Hill Ryerson More students learn from John Santrock's Adolescence than from any other text in this field. Students and instructors rely on the careful balance of accurate, current research and applications to the real lives of adolescents. The fully-revised eleventh edition includes a new chapter on health, expanded coverage of late adolescence, and more than 1200 research citations from the 21st century.

Connect with John Santrock's Topical Approach to Lifespan Development and connect with success. Informed and driven by research. At McGraw-Hill, we have spent thousands of hours with you and your students, working to understand the key needs and concerns you face in the Human Development course. The most common topics raised include managing the vast amount of content inherent to a Lifespan course and ensuring the

dependability of the assigned material – is it current and accurate? The result of this research is John Santrock's *A Topical Approach to Lifespan Development*, 7e. Santrock ensures students complete and understand the assigned material in a number of ways: Santrock's hallmark Learning Goals pedagogy provides a comprehensive roadmap to the text material, clearly pointing out the core concepts fundamental to students' learning and performance. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. McGraw-Hill's LearnSmart increases students' efficiency in studying by identifying what they know and don't know and provides immediate remediation, helping them to learn the material they are struggling with. The connections theme continues in the 7th edition, showing students the different aspects of lifespan development and helping them to better understand the concepts. This recurring theme of connections – Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research – ties together concepts from across chapters to reinforce the learning process and connect the material to students' everyday lives and future aspirations. McGraw-Hill's Milestones video and assessment program helps bring the course material to life, so your students can witness real children developing over time. And of course, all of this material is informed by our unique board of expert contributors – a who's who of developmental psychology – who ensure the material is as accurate and up-to-date as possible.

A Topical Approach to Lifespan Development McGraw-Hill Education

Why are you assigning or considering a brief Human Development text? Is it because your students do not complete the reading in a comprehensive text? Do you run out of time trying to cover the entire lifespan over the course of a few months? Do your students struggle to retain the sheer volume of information in the course? Instructors across the country, looking for a streamlined text that captures the core concepts of life-span development are excited for John Santrock's *Essentials of Life-Span Development*, 3e. *Essentials of Life-Span Development* 3e was developed to help meet the ever-changing needs of students in the lifespan course. Knowing that students do not often read the text and have poor study skills, *Essentials* introduces LearnSmart, McGraw-Hill's adaptive study tool, that helps students know what they know, and more importantly what they don't know, to become more efficient and effective learners. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. Based on hallmark features: its expert contributors, updated research, and focus on applications, Santrock provides the most dependable and current presentation of life-span development available, and he does so in a briefer format with LearnSmart, helping to ensure that your students will read and appreciate the material while seeing the applications to their everyday life. McGraw-Hill's new Milestones video and assessment program helps bring the course material to life, so your students can witness development as it unfolds.
