 Sph4u Physics Grade 12 Course description: This course enables you to deepen your understanding of physics concepts and theories. You will continue your exploration of energy transformations and the forces that affect motion, and will investigate electrical, gravitational, and magnetic fields and electromagnetic radiation. Physics(SPH4U) This SPH4U course enables students to

deepen their understanding of physics concepts and theories. Students will continue their exploration of energy transformations and the forces that affect motion, and will investigate electrical, gravitational, and magnetic fields and electromagnetic radiation. Students will also explore the wave nature of light, quantum mechanics, and special relativity.

Introduction. This is a credit course for University-bound students. Many University programs require Grade 12 physics, and many post-secondary students also have to take physics in University. This course gives you a solid foundation in important concepts so that you succeed both at the grade 12 level and at the first-year University courses you take.
