Applications-oriented introduction to the role of management science in decision-making. Best-selling text in the market. Blends problem formulation, managerial interpretation, and math techniques with an emphasis on problem solving. Problem-scenario approach introduces quantitative procedures through situations that include both problem formulation and technique application. "Management Science in Practice" features demonstrate how techniques have been successfully applied by companies like Kodak and Upjohn. "Management Science in Action" vignettes, new to this edition, provide brief overviews of how chapter material has been used successfully in practice. Unique "Notes & Comments" sections provide warnings, limitations, recommended applications, and other tips. Extensive linear programming coverage includes problem formulation, computer solution, and practical application. Text covers transportation,
